Indication
Medication used to promote labor (LABOR INDUCER).

Considerations
Wash your hands before and after each application.
Insert the tablet in the vagina as per the directions for use.
Follow your doctor's exact instructions regarding dosage and frequency.
Inform your doctor if you suffer from epilepsy.
Inform your doctor if you suffer from, or have suffered from kidney problems, liver problems or heart problems.

Inform your doctor immediately if you are pregnant or think you might be, or if you become pregnant during your treatment.
Inform your doctor if you are breastfeeding.

Effects
Inform your doctor if, during the treatment, any of the following occur: fever, uterine contractions, decrease in blood pressure, palpitations, shivering or abdominal pain.
This medication may cause gastrointestinal discomfort (nausea, vomiting, etc.).
If you notice any other symptom that you think may be caused by this medication, inform your doctor.

Posology
Follow your physician's prescription.
