Persons who can be sanctioned:
- A woman or girl can be sanctioned
- Providers can be sanctioned
- A person who assists can be sanctioned

Abortion at the woman's request

- Gestational limit: 12

Legal Ground and Gestational Limit

Yes
**Economic or social reasons**

- Related documents:
  - Law Nr. 8045 "On The Interruption of Pregnancy" (page 7)

**Gestational limit**

- Weeks: 22

**WHO Guidance**

The following descriptions and recommendations were extracted from WHO guidance on safe abortion.

WHO defines health for member states as a state of complete physical, mental and social well-being and not merely the absence of disease or infirmity. Safe Abortion Guidelines, § 4.2.1.5.

- **Source document**: WHO Safe Abortion Guidance (page 103)

Laws or policies that impose time limits on the length of pregnancy may have negative consequences for women, including forcing them to seek clandestine abortions and suffer social inequities. Safe Abortion Guidelines, § 4.2.1.7.

- **Source document**: WHO Safe Abortion Guidance (page 103)

**Foetal impairment**

- Yes

**Related documents:**

- Law Nr. 8045 "On The Interruption of Pregnancy" (page 6)

**Gestational limit**

- Weeks: No limit specified

**WHO Guidance**

The following descriptions and recommendations were extracted from WHO guidance on safe abortion.

A woman is entitled to know the status of her pregnancy and to act on this information; health protection or social reasons can be interpreted to include distress of the pregnant woman caused by the diagnosis of fetal impairment. Prenatal tests and other medical diagnostic services cannot legally be refused because the woman may decide to terminate her pregnancy. Safe Abortion Guidelines, § 4.2.1.4.

- **Source document**: WHO Safe Abortion Guidance (page 103)

Laws or policies that impose time limits on the length of pregnancy may have negative consequences for women, including forcing them to seek clandestine abortions and suffer social inequities. Safe Abortion Guidelines, § 4.2.1.7.

- **Source document**: WHO Safe Abortion Guidance (page 103)

**Rape**

- Yes

**Related documents:**

- Law Nr. 8045 "On The Interruption of Pregnancy" (page 7)

**Gestational limit**

- Weeks: 22

**WHO Guidance**

The following descriptions and recommendations were extracted from WHO guidance on safe abortion.

The protection of women from cruel, inhuman and degrading treatment requires that those who have become pregnant as the result of coerced or forced sexual acts can lawfully access safe abortion services. Prompt, safe abortion services should be provided on the basis of a woman’s complaint rather than requiring forensic evidence or police examination. Safe Abortion Guidelines, § 4.2.1.3.

- **Source document**: WHO Safe Abortion Guidance (page 102)

Laws or policies that impose time limits on the length of pregnancy may have negative consequences for women, including forcing them to seek clandestine abortions and suffer social inequities. Safe Abortion Guidelines, § 4.2.1.7.

- **Source document**: WHO Safe Abortion Guidance (page 103)
**Incest**

- Yes

**Related documents:**
- Law Nr. 8045 "On The Interruption of Pregnancy" (page 7)

**Gestational limit**

- Weeks: 22

**Related documents:**
- Law Nr. 8045 "On The Interruption of Pregnancy" (page 7)

**WHO Guidance**

The following descriptions and recommendations were extracted from WHO guidance on safe abortion.

The protection of women from cruel, inhuman and degrading treatment requires that those who have become pregnant as the result of coerced or forced sexual acts can lawfully access safe abortion services. Prompt, safe abortion services should be provided on the basis of a woman’s complaint rather than requiring forensic evidence or police examination. Safe Abortion Guidelines, § 4.2.1.3.

**Source document:** WHO Safe Abortion Guidance (page 103)

**Intellectual or cognitive disability of the woman**

- No

**Related documents:**
- Law Nr. 8045 "On The Interruption of Pregnancy" (page 9)

**Mental health**

- No

**Related documents:**
- Law Nr. 8045 "On The Interruption of Pregnancy" (page 9)

**WHO Guidance**

The following descriptions and recommendations were extracted from WHO guidance on safe abortion.

The scope of mental health includes psychological distress or mental suffering caused by, for example, coerced or forced sexual acts and diagnosis of severe fetal impairment. Safe Abortion Guidelines, § 4.2.1.2.

**Source document:** WHO Safe Abortion Guidance (page 102)

**Additional notes**

Women can access abortion up to 12 weeks of gestation in cases where they consider that the pregnancy causes them psychological problems.

**Physical health**

- No

**Related documents:**
- Law Nr. 8045 "On The Interruption of Pregnancy" (page 9)

**WHO Guidance**

The following descriptions and recommendations were extracted from WHO guidance on safe abortion.

Physical health is widely understood to include conditions that aggravate pregnancy and those aggravated by pregnancy. Safe Abortion Guidelines, § 4.2.1.2.

**Source document:** WHO Safe Abortion Guidance (page 102)

**Health**

- Yes

**Related documents:**
- Law Nr. 8045 "On The Interruption of Pregnancy" (page 6)

**Gestational limit**

- Weeks: 22
### WHO Guidance

The following descriptions and recommendations were extracted from WHO guidance on safe abortion.

The fulfillment of human rights requires that women can access safe abortion when it is indicated to protect their health. WHO defines health for member states as a state of complete physical, mental and social well-being and not merely the absence of disease or infirmity. Safe Abortion Guidelines, § 4.2.1.2.

**Source document**: WHO Safe Abortion Guidance (page 102)

Laws or policies that impose time limits on the length of pregnancy may have negative consequences for women, including forcing them to seek clandestine abortions and suffer social inequities. Safe Abortion Guidelines, § 4.2.1.7.

**WHO Guidance**

The following descriptions and recommendations were extracted from WHO guidance on safe abortion.

Third-party authorization should not be required for women to obtain abortion services. The requirement for authorization by hospital authorities may violate the right to privacy and women’s access to health care on the basis of equality of men and women. Safe Abortion Guidelines, § 4.2.2.2.

**Source document**: WHO Safe Abortion Guidance (page 105)
### Authorization in specially licensed facilities only

**Additional notes**

The number and cadre of professionals authorizing an abortion depends on the ground on which an abortion is sought. For abortions after 12 weeks and for medical reasons, the authorization of three doctors is needed. For abortions in case of rape/sexual crime below 22 weeks of gestation, the authorization of a doctor, a social worker and a jurist is needed.

**Not specified**

When there is no explicit reference to an issue covered in the questionnaire in the relevant document(s), this is noted and no interpretation was made.

**Related documents:**

- Law Nr. 8045 “On The Interruption of Pregnancy”

### Judicial authorization for minors

**Additional notes**

When there is no explicit reference to an issue covered in the questionnaire in the relevant document(s), this is noted and no interpretation was made.

**Not specified**

When there is no explicit reference to an issue covered in the questionnaire in the relevant document(s), this is noted and no interpretation was made.

**Related documents:**

- Law Nr. 8045 “On The Interruption of Pregnancy”

### Judicial authorization in cases of rape

**Additional notes**

A doctor, a social worker and a jurist, after examination and consultation, judges whether the pregnancy is the result of rape or another sexual crime.

**Not specified**

When there is no explicit reference to an issue covered in the questionnaire in the relevant document(s), this is noted and no interpretation was made.

**Related documents:**

- Law Nr. 8045 “On The Interruption of Pregnancy”

### Police report required in case of rape

**Not specified**

When there is no explicit reference to an issue covered in the questionnaire in the relevant document(s), this is noted and no interpretation was made.

**Related documents:**

- Law Nr. 8045 “On The Interruption of Pregnancy”
The following descriptions and recommendations were extracted from WHO guidance on safe abortion.

Laws, policies and practices that restrict access to abortion information and services can deter women from care seeking and create a “chilling effect” (suppression of actions because of fear of reprisals or penalties) for the provision of safe, legal services. Examples of barriers include: requiring third-party authorization from one or more medical professionals or a hospital committee, court or police, parent or guardian or a woman’s partner or spouse. Safe Abortion Guidelines, § 4.2.2

Source document: WHO Safe Abortion Guidance (page 104)

**Parental consent required for minors**

Yes

Related documents:
- Law Nr. 8045 “On The Interruption of Pregnancy” (page 6)

**Can another adult consent in place of a parent?**

Yes

- Law Nr. 8045 “On The Interruption of Pregnancy” (page 6)

**Age where consent not needed**

16

For girls younger than 16 who are married, it is unclear what kind of consent they need if any.

- Law Nr. 8045 “On The Interruption of Pregnancy” (page 6)

**Spousal consent**

No

Related documents:
- Law Nr. 8045 “On The Interruption of Pregnancy” (page 6)

**Ultrasound images or listen to foetal heartbeat required**

Not specified

When there is no explicit reference to an issue covered in the questionnaire in the relevant document(s), this is noted and no interpretation was made.

Related documents:
- Law Nr. 8045 “On The Interruption of Pregnancy”

Additional notes

When possible the husband should take part in the counselling.

Regulatory, policy and programmatic barriers, one example of which is the requirement for mandatory ultrasound prior to abortion, that hinder access to and timely provision of safe abortion care should be removed. Safe Abortion Guidelines, Executive Summary, Box 7.
### Compulsory counselling

<table>
<thead>
<tr>
<th>Recommendation.</th>
</tr>
</thead>
<tbody>
<tr>
<td>Yes</td>
</tr>
</tbody>
</table>

**Related documents:**
- Law Nr. 8045 "On The Interruption of Pregnancy" (page 5)

**WHO Guidance**

The following descriptions and recommendations were extracted from WHO guidance on safe abortion.

Many women have made a decision to have an abortion before seeking care, and this decision should be respected without subjecting a woman to mandatory counselling. Provision of counselling to women who desire it should be voluntary, confidential, non-directive and by a trained person. Safe Abortion Guidelines, § 2.1.8.1.

**Additional notes**

Counselling includes provision of information regarding institutions and organizations that may offer the woman moral and financial support.

### Compulsory waiting period

<table>
<thead>
<tr>
<th>Recommendation.</th>
</tr>
</thead>
<tbody>
<tr>
<td>Yes</td>
</tr>
</tbody>
</table>

**Related documents:**
- Law Nr. 8045 "On The Interruption of Pregnancy" (page 6)

**Waiting period**

At the time of the first request
7 days

**WHO Guidance**

The following descriptions and recommendations were extracted from WHO guidance on safe abortion.

States should consider eliminating waiting periods that are not medically required, and expanding services to serve all eligible women promptly. Safe Abortion Guidelines, § 4.2.2.6.

**Additional notes**

The waiting period may be shortened to two days by the doctor if otherwise the time periods in the law pertaining to gestational ages would be exceeded.

After the 7 day waiting period, a woman must submit a written confirmation of request to the physician who will be doing procedure.

### Mandatory HIV screening test

</tbody>
</table>

Vacuum aspiration is the recommended technique of surgical abortion for pregnancies of up to 12 to 14 weeks of gestation. The procedure should not be routinely completed by dilatation and sharp curettage (D&C). Safe Abortion Guidelines, Executive Summary, Box 1- Recommendation.

Dilatation and evacuation (D&E) and medical methods (mifepristone and misoprostol; misoprostol alone) are both recommended methods for abortion for gestations over 12 to 14 weeks. Safe Abortion Guidelines, Executive Summary, Box 3- Recommendation.

The recommended method for medical abortion is mifepristone followed by misoprostol (regimen differs by gestational age). Safe Abortion Guidelines, Executive Summary, Box 2- Recommendation.

Where mifepristone is not available, the recommended method for medical abortion is misoprostol (regimen differs by gestational age). Safe Abortion Guidelines, Executive Summary, Box 2- Recommendation.

The combination of mifepristone and misoprostol for medical abortion is included on the WHO model list of essential medicines. Safe Abortion Guidelines, § 2.2.5

Chemists/pharmacists can help women avoid unintended pregnancy through provision of accurate contraceptive information, pregnancy tests, contraceptive methods and referral to safe abortion services. Safe Abortion Guidelines, § 3.3.1.1.
