Country Profile: Belarus

Region: Europe
Last Updated: 28 November 2022

Identified policies and legal sources related to abortion:
- Reproductive Health Act
- General Medical Health Act
- Constitution
- Criminal / Penal Code
- Civil Code
- Ministerial Order / Decree
- Case Law
- Health Regulation / Clinical Guidelines
- EML / Registered List
- Medical Ethics Code
- Document Relating to Funding
- Abortion Specific Law
- Law on Medical Practitioners
- Law on Health Care Services
- Other

Related Documents

From General Medical Health Act:
- Law on Healthcare, 2014

From Criminal / Penal Code:
- Criminal Code, 1999

From Ministerial Order / Decree:

From EML / Registered List:
- Medicines Formulary, 2021

Concluding Observations:
- CEDAW
- CEDAW
- CRC
- CRC

Persons who can be sanctioned:
- A woman or girl can be sanctioned
- Providers can be sanctioned
- A person who assists can be sanctioned

Abortion at the woman's request

- Gestational limit: 12

### Gestational limit

- Weeks: 22
- Related documents: Law on Healthcare 2014 (page 13)

### WHO Guidance

The following descriptions and recommendations were extracted from WHO guidance on safe abortion.

WHO defines health for member states as a state of complete physical, mental and social well-being and not merely the absence of disease or infirmity. Safe Abortion Guidelines, § 4.2.1.5.

- Source document: WHO Safe Abortion Guidance (page 103)

Laws or policies that impose time limits on the length of pregnancy may have negative consequences for women, including forcing them to seek clandestine abortions and suffer social inequities. Safe Abortion Guidelines, § 4.2.1.7.

- Source document: WHO Safe Abortion Guidance (page 103)

### Foetal impairment

- Not specified
- Related documents: Law on Healthcare 2014

### WHO Guidance

The following descriptions and recommendations were extracted from WHO guidance on safe abortion.

A woman is entitled to know the status of her pregnancy and to act on this information; health protection or social reasons can be interpreted to include distress of the pregnant woman caused by the diagnosis of fetal impairment. Prenatal tests and other medical diagnostic services cannot legally be refused because the woman may decide to terminate her pregnancy. Safe Abortion Guidelines, § 4.2.1.4.

- Source document: WHO Safe Abortion Guidance (page 103)

### Rape

- Not specified
- Related documents: Law on Healthcare 2014

### WHO Guidance

The following descriptions and recommendations were extracted from WHO guidance on safe abortion.

The protection of women from cruel, inhuman and degrading treatment requires that those who have become pregnant as the result of coerced or forced sexual acts can lawfully access safe abortion services. Prompt, safe abortion services should be provided on the basis of a woman's complaint rather than requiring forensic evidence or police examination. Safe Abortion Guidelines, § 4.2.1.3.

- Source document: WHO Safe Abortion Guidance (page 103)

### Incest

- Not specified
- Related documents: Law on Healthcare 2014

### WHO Guidance

The following descriptions and recommendations were extracted from WHO guidance on safe abortion.

The protection of women from cruel, inhuman and degrading treatment requires that those who have become pregnant as the result of coerced or forced sexual acts can lawfully access safe abortion services. Prompt, safe abortion services should be provided on the basis of a woman's complaint rather than requiring forensic evidence or police examination. Safe Abortion Guidelines, § 4.2.1.3.

**WHO Guidance**

The following descriptions and recommendations were extracted from WHO guidance on safe abortion.

Third-party authorization should not be required for women to obtain abortion services. The requirement for authorization by parents may violate the right to privacy and women's access to health care on the basis of equality of men and women. Safe Abortion Guidelines, § 4.2.2.2.

**Source document:** WHO Safe Abortion Guidance (page 105)

Regulatory, policy and programmatic barriers, one example of which is the requirement for mandatory ultrasound prior to abortion, that hinder access to and timely provision of safe abortion care should be removed. Safe Abortion Guidelines, Executive Summary, Box 7 - Recommendation.

**Source document:** WHO Safe Abortion Guidance (page 19)

Many women have made a decision to have an abortion before seeking care, and this decision should be respected without subjecting a woman to mandatory counselling. Provision of counselling to women who desire it should be voluntary, confidential, non-directive and by a trained person. Safe Abortion Guidelines, § 2.1.8.1.

**Source document:** WHO Safe Abortion Guidance (page 46)

States should consider eliminating waiting periods that are not medically required, and expanding services to serve all eligible women promptly. Safe Abortion Guidelines, § 4.2.2.6.

**Source document:** WHO Safe Abortion Guidance (page 107)
Clinical and Service-delivery Aspects of Abortion Care

**Mandatory HIV screening test**

- **Not specified**

  When there is no explicit reference to an issue covered in the questionnaire in the relevant document(s), this is noted and no interpretation was made.

  **Related documents:**
  - Law on Healthcare 2014

**WHO Guidance**

The following descriptions and recommendations were extracted from WHO guidance on safe abortion.

Requirements for HIV and other tests that are not clinically indicated are potential service-delivery barriers. Safe Abortion Guidelines, p 88.

- **Source document:** WHO Safe Abortion Guidance (page 88)

**Other mandatory STI screening tests**

- **Not specified**

  When there is no explicit reference to an issue covered in the questionnaire in the relevant document(s), this is noted and no interpretation was made.

  **Related documents:**
  - Law on Healthcare 2014

**WHO Guidance**

The following descriptions and recommendations were extracted from WHO guidance on safe abortion.

Requirements for HIV and other tests that are not clinically indicated are potential service-delivery barriers. Safe Abortion Guidelines, p 88.

- **Source document:** WHO Safe Abortion Guidance (page 88)

**Prohibition of sex-selective abortion**

- **Not specified**

  When there is no explicit reference to an issue covered in the questionnaire in the relevant document(s), this is noted and no interpretation was made.

  **Related documents:**
  - Law on Healthcare 2014

**WHO Guidance**

The following descriptions and recommendations were extracted from WHO guidance on safe abortion.

In situations where abortion is restricted for sex selection purposes, terminating a pregnancy for this reason is likely to involve an unsafe procedure carrying high risks. Any policies or guidelines on the use of technology in obstetric and fetal medicine should take into account the need to ensure women’s access to safe abortion and other services - efforts to manage or limit sex selection should also not hamper or limit access to safe abortion services. Preventing gender-biased sex selection: an interagency statement, p 10 - Recommendation.

- **Source document:** Preventing Gender-Biased Sex Selection (page 17)

**Restrictions on information provided to the public**

- **No data found**

**WHO Guidance**

The following descriptions and recommendations were extracted from WHO guidance on safe abortion.

States should refrain from limiting access to means of maintaining sexual and reproductive health, including censoring, withholding or intentionally misrepresenting health-related information. Safe Abortion Guidelines, § 4.2.2.7.

- **Source document:** WHO Safe Abortion Guidance (page 107)

**Restrictions on methods to detect sex of the foetus**

- **No data found**

**WHO Guidance**

The following descriptions and recommendations were extracted from WHO guidance on safe abortion.

A woman is entitled to know the status of her pregnancy and to act on this information. Prenatal tests and other medical diagnostic services cannot legally be refused because the woman may decide to terminate her pregnancy. Safe Abortion Guidelines, § 4.2.1.4.

National guidelines for induced abortion

Methods allowed

Vacuum aspiration
No data found

Dilatation and evacuation
No data found

Combination mifepristone-misoprostol
Yes (49 DAYS)

Misoprostol only
Not specified

Other (where provided)

Country recognized approval (mifepristone / mife-misoprostol)

Yes, guidelines issued by the government

Related documents:
• Medical Abortion Directive, 2011 (page 1)

The following descriptions and recommendations were extracted from WHO guidance on safe abortion.

Standards and guidelines should be developed and updated with the intent of eliminating barriers to obtaining the highest attainable standard of sexual and reproductive health. Safe Abortion Guidelines, § 3.3. Standards and guidelines should cover: types of abortion service, where and by whom they can be provided; essential equipment, instruments, medications, supplies and facility capabilities; referral mechanisms; respect for women’s informed decision-making, autonomy, confidentiality and privacy. Safe Abortion Guidelines, p. 63.

Source document: WHO Safe Abortion Guidance (page 75)

Vacuum aspiration is the recommended technique of surgical abortion for pregnancies of up to 12 to 14 weeks of gestation. The procedure should not be routinely completed by dilatation and sharp curettage (D&C). Safe Abortion Guidelines, Executive Summary, Box 1- Recommendation.

Source document: WHO Safe Abortion Guidance (page 123)

Dilatation and evacuation (D&E) and medical methods (mifepristone and misoprostol; misoprostol alone) are both recommended methods for abortion for gestations over 12 to 14 weeks. Safe Abortion Guidelines, Executive Summary, Box 3- Recommendation.

Source document: WHO Safe Abortion Guidance (page 123)

The recommended method for medical abortion is mifepristone followed by misoprostol (regimen differs by gestational age). Safe Abortion Guidelines, Executive Summary, Box 2- Recommendation.

Source document: WHO Safe Abortion Guidance (page 13)

Where mifepristone is not available, the recommended method for medical abortion is misoprostol (regimen differs by gestational age). Safe Abortion Guidelines, Executive Summary, Box 2- Recommendation.

Source document: WHO Safe Abortion Guidance (page 14)

Pharmacy selling or distribution

Not specified

When there is no explicit reference to an issue covered in the questionnaire in the relevant document(s), this is noted and no interpretation was made.

• Medicines Formulary, 2021

The combination of mifepristone and misoprostol for medical abortion is included on the WHO model list of essential medicines. Safe Abortion Guidelines, § 2.2.5

Source document: WHO Safe Abortion Guidance (page 54)

Chemists/pharmacists can help women avoid unintended pregnancy through provision of accurate contraceptive information, pregnancy tests, contraceptive methods and referral to safe abortion services. Safe Abortion Guidelines, § 3.3.1.1.

WHO Guidance

The following descriptions and recommendations were extracted from WHO guidance on safe abortion.

Health-care professionals who claim conscientious objection must refer the woman to another willing and trained provider in the same, or another easily accessible health-care facility. Where referral is not possible, the health-care professional who objects, must provide safe abortion to save the woman’s life, to prevent serious injury to her health and provide urgent care when women present with complications from an unsafe or illegal abortion. Safe Abortion Guidelines, § 4.2.2.5.

Indicators

Country specific information related to sexual and reproductive health indications. As data for the Sustainable Development Goal (SDG) indicators related to sexual and reproductive health become available, these will be provided, through periodic updates.

Goal 1. End poverty in all its forms everywhere

1.1.1 Proportion of population below the international poverty line, by sex, age, employment status and geographical location (urban/rural)  

1.3.1 Proportion of population covered by social protection floors/systems, by sex, distinguishing children, unemployed persons, older persons, persons with disabilities, pregnant women, newborns, work-injury victims and the poor and the vulnerable  

1.4.2 Proportion of total government spending on essential services (education, health and social protection)  

Goal 3. Ensure healthy lives and promote well-being for all at all ages

3.1.1 Maternal mortality ratio  

3.1.2 Proportion of births attended by skilled health personnel  

3.7.1 Proportion of women of reproductive age (aged 15-49 years) who have their need for family planning satisfied with modern methods  

3.7.2 Adolescent birth rate (aged 10-14 years; aged 15-19 years) per 1,000 women in that age group
### Goal 4. Ensure inclusive and equitable quality education and promote lifelong learning opportunities for all

<table>
<thead>
<tr>
<th>Indicator</th>
<th>Data</th>
</tr>
</thead>
<tbody>
<tr>
<td>4.1.1 Proportion of children and young people: (a) in grades 2/3; (b) at the end of primary; and (c) at the end of lower secondary achieving at least a minimum proficiency level in (i) reading and (ii) mathematics, by sex</td>
<td>No data</td>
</tr>
</tbody>
</table>

### Goal 5. Achieve gender equality and empower all women and girls

<table>
<thead>
<tr>
