Country Profile: Belgium

Region: Western Europe

Last Updated: 19 October 2021

Identified policies and legal sources related to abortion:
- Reproductive Health Act
- General Medical Health Act
- Constitution
- Criminal / Penal Code
- Civil Code
- Ministerial Order / Decree
- Case Law
- Health Regulation / Clinical Guidelines
- EML / Registered List
- Medical Ethics Code
- Document Relating to Funding
- Abortion Specific Law
- Law on Medical Practitioners
- Law on Health Care Services
- Other

Related Documents

From Criminal / Penal Code:
- Penal Code

From Health Regulation / Clinical Guidelines:
- Social Support for Unwanted Pregnancy

From EML / Registered List:
- Royal Decree Regarding Mifegyne
- Mifepristone Information
- Misoprostol Information

From Abortion Specific Law:
- Law on interruption of pregnancy, 2018

Concluding Observations:

None

Persons who can be sanctioned:
- A woman or girl can be sanctioned
- Providers can be sanctioned
- A person who assists can be sanctioned

Abortion at the woman's request

- Gestational limit: 12 weeks

Legal Ground and Gestational Limit

Economic or social reasons

- No

WHO Guidance

The following descriptions and recommendations were extracted from WHO guidance on safe abortion.

WHO defines health for member states as a state of complete physical, mental and social well-being and not merely the absence of disease or infirmity. Safe Abortion Guidelines, § 4.2.1.5.

Source document: WHO Safe Abortion Guidance (page 103)
The following descriptions and recommendations were extracted from WHO guidance on safe abortion.

A woman is entitled to know the status of her pregnancy and to act on this information: health protection or social reasons can be interpreted to include distress of the pregnant woman caused by the diagnosis of fetal impairment. Prenatal tests and other medical diagnostic services cannot legally be refused because the woman may decide to terminate her pregnancy. Safe Abortion Guidelines, § 4.2.1.4.

Source document: WHO Safe Abortion Guidance (page 103)

Laws or policies that impose time limits on the length of pregnancy may have negative consequences for women, including forcing them to seek clandestine abortions and suffer social inequities. Safe Abortion Guidelines, § 4.2.1.7.

Source document: WHO Safe Abortion Guidance (page 103)

The protection of women from cruel, inhuman and degrading treatment requires that those who have become pregnant as the result of coerced or forced sexual acts can lawfully access safe abortion services. Prompt, safe abortion services should be provided on the basis of a woman's complaint rather than requiring forensic evidence or police examination. Safe Abortion Guidelines, § 4.2.1.3.

Source document: WHO Safe Abortion Guidance (page 102)

The scope of mental health includes psychological distress or mental suffering caused by, for example, coerced or forced sexual acts and diagnosis of severe fetal impairment. Safe Abortion Guidelines, § 4.2.1.2.

Source document: WHO Safe Abortion Guidance (page 102)

Physical health is widely understood to include conditions that aggravate pregnancy and those aggravated by pregnancy. Safe Abortion Guidelines, § 4.2.1.2.

Source document: WHO Safe Abortion Guidance (page 102)
### Additional Requirements to Access Safe Abortion

After 12 weeks of gestation, the pregnancy can be interrupted only if the continuation of the pregnancy seriously endangers the health of the woman or when it is certain that the unborn child will be affected by a condition of particular gravity and recognized as incurable at the time of diagnosis. In this case, the requested doctor secures the assistance of a second doctor, whose opinion is attached to the file. Before 12 weeks of gestation, the interruption of pregnancy can be carried out by a doctor (specialty not specified).

### Methods allowed

- **Vacuum aspiration**: No data found
- **Dilatation and evacuation**: No data found
- **Combination mifepristone-misoprostol**: No data found
- **Misoprostol only**: No data found
- **Other (where provided)**

### WHO Guidance

The following descriptions and recommendations were extracted from WHO guidance on safe abortion.

Vacuum aspiration is the recommended technique of surgical abortion for pregnancies of up to 12 to 14 weeks of gestation. The procedure should not be routinely completed by dilatation and sharp curettage (D&C). Safe Abortion Guidelines, Executive Summary, Box 1 - Recommendation.

- **Source document**: WHO Safe Abortion Guidance (page 123)

Dilatation and evacuation (D&E) and medical methods (mifepristone and misoprostol; misoprostol alone) are both recommended methods for abortion for gestations over 12 to 14 weeks. Safe Abortion Guidelines, Executive Summary, Box 3 - Recommendation.

- **Source document**: WHO Safe Abortion Guidance (page 123)

The recommended method for medical abortion is mifepristone followed by misoprostol (regimen differs by gestational age). Safe Abortion Guidelines, Executive Summary, Box 2 - Recommendation.

- **Source document**: WHO Safe Abortion Guidance (page 13)

Where mifepristone is not available, the recommended method for medical abortion is misoprostol (regimen differs by gestational age). Safe Abortion Guidelines, Executive Summary, Box 2 - Recommendation.

- **Source document**: WHO Safe Abortion Guidance (page 14)

### Country recognized approval (mifepristone / mifepristone - misoprostol)

- **Yes**

### Related documents:

**Individual health-care providers who have objected are required to refer the woman to another provider**

Yes

- ![Law on interruption of pregnancy, 2018 (page 38)](https://via.placeholder.com/150)

**WHO Guidance**

The following descriptions and recommendations were extracted from WHO guidance on safe abortion.

Health-care professionals who claim conscientious objection must refer the woman to another willing and trained provider in the same, or another easily accessible health-care facility. Where referral is not possible, the health-care professional who objects, must provide safe abortion to save the woman’s life, to prevent serious injury to her health and provide urgent care when women present with complications from an unsafe or illegal abortion. Safe Abortion Guidelines, § 4.2.2.5.

**Additional notes**

No doctor, nurse or medical assistant is required to contribute to the termination of pregnancy. The requested doctor is required to inform the person concerned, from the first visit, of his refusal to intervene. In this case, the doctor indicates the contact details of another doctor, of a pregnancy termination center or of a hospital service that he can contact for a new request for termination of pregnancy. The doctor who refuses the voluntary interruption transmits the medical file to the new doctor consulted by the woman.

Indicators

Country specific information related to sexual and reproductive health indications. As data for the Sustainable Development Goal (SDG) indicators related to sexual and reproductive health become available, these will be provided, through periodic updates.

Goal 1. End poverty in all its forms everywhere

1.1.1 Proportion of population below the international poverty line, by sex, age, employment status and geographical location (urban/rural)

1.3.1 Proportion of population covered by social protection floors/systems, by sex, distinguishing children, unemployed persons, older persons, persons with disabilities, pregnant women, newborns, work-injury victims and the poor and the vulnerable

1.a.2 Proportion of total government spending on essential services (education, health and social protection)

Goal 3. Ensure healthy lives and promote well-being for all at all ages

3.1.1 Maternal mortality ratio

3.1.2 Proportion of births attended by skilled health personnel

3.7.1 Proportion of women of reproductive age (aged 15-49 years) who have their need for family planning satisfied with modern methods

3.7.2 Adolescent birth rate (aged 10-14 years; aged 15-19 years) per 1,000 women in that age group

3.8.2 Number of people covered by health insurance or a public health system per 1,000 population

3.c.1 Health worker density and distribution

Goal 4. Ensure inclusive and equitable quality education and promote lifelong learning opportunities for all

4.1.1 Proportion of children and young people: (a) in grades 2/3; (b) at the end of primary; and (c) at the end of lower secondary achieving at least a minimum proficiency level in (i) reading and (ii) mathematics, by sex

Goal 5. Achieve gender equality and empower all women and girls

5.1.1 Whether or not legal frameworks are in place to promote, enforce and monitor equality and nondiscrimination on the basis of sex

5.2.1 Proportion of ever-partnered women and girls aged 15 years and older subjected to physical, sexual or psychological violence by a current or former intimate partner in the previous 12 months, by form of violence and by age

5.2.2 Proportion of women and girls aged 15 years and older subjected to sexual violence by persons other than an intimate partner in the previous 12 months, by age and place of occurrence

5.3.1 Proportion of women aged 20-24 years who were married or in a union before age 15 and before age 18

5.3.2 Proportion of girls and women aged 15-49 years who have undergone female genital mutilation/cutting, by age

5.6.1 Proportion of women aged 15-49 years who make their own informed decisions regarding sexual relations, contraceptive use and reproductive health care

5.6.2 Number of countries with laws and regulations that guarantee women aged 15-49 years access to sexual and reproductive health care, information and education

5.a.1 (a) Proportion of total agricultural population with ownership or secure rights over agricultural land, by sex; and (b) share of women among owners or rights-bearers of agricultural land, by type of tenure
5.b.1 Proportion of individuals who own a mobile telephone, by sex

Goal 8. Promote sustained, inclusive and sustainable economic growth, full and productive employment and decent work for all

8.5.2 Unemployment rate, by sex, age and persons with disabilities

Goal 10. Reduce inequality within and among countries

10.2.1 Proportion of people living below 50 per cent of median income, by age, sex and persons with disabilities

Goal 10. Promote sustainable development, provide access to justice for all and build effective, accountable and inclusive institutions at all levels
