Indicators

Country specific information related to sexual and reproductive health indications. As data for the Sustainable Development Goal (SDG) indicators related to sexual and reproductive health become available, these will be provided, through periodic updates.

Goal 1. End poverty in all its forms everywhere

1.1.1 Proportion of population below the international poverty line, by sex, age, employment status and geographical location (urban/rural)

No data

1.3.1 Proportion of population covered by social protection floors/systems, by sex, distinguishing children, unemployed persons, older persons, persons with disabilities, pregnant women, newborns, work-injury victims and the poor and the vulnerable

No data

1.a.2 Proportion of total government spending on essential services (education, health and social protection)

No data

Goal 3. Ensure healthy lives and promote well-being for all at all ages

3.1.1 Maternal mortality ratio

335 (2015)

3.1.2 Proportion of births attended by skilled health personnel

No data

3.7.1 Proportion of women of reproductive age (aged 15-49 years) who have their need for family planning satisfied with modern methods

No data

3.7.2 Adolescent birth rate (aged 10-14 years; aged 15-19 years) per 1,000 women in that age group

65.4 (2015-2020)

3.8.2 Number of people covered by health insurance or a public health system per 1,000 population

No data

3.c.1 Health worker density and distribution

No data

Goal 4. Ensure inclusive and equitable quality education and promote lifelong learning opportunities for all

4.1.1 Proportion of children and young people: (a) in grades 2/3; (b) at the end of primary; and (c) at the end of lower secondary achieving at least a minimum proficiency level in (i) reading and (ii) mathematics, by sex

No data

Goal 5. Achieve gender equality and empower all women and girls

5.1.1 Whether or not legal frameworks are in place to promote, enforce and monitor equality and nondiscrimination on the basis of sex

No data
