Abortion at the woman’s request

No

Legal Ground and Gestational Limit

Last Updated: 01 July 2022
Economic or social reasons

Yes

Related documents:
- Law on the Protection of Human Life, 1992 (page 2)

Gestational limit

Weeks: Up to the 12th week

- Law on the Protection of Human Life, 1992 (page 2)

**WHO Guidance**

The following descriptions and recommendations were extracted from WHO guidance on safe abortion.

WHO defines health for member states as a state of complete physical, mental and social well-being and not merely the absence of disease or infirmity. Safe Abortion Guidelines, § 4.2.1.5.

Laws or policies that impose time limits on the length of pregnancy may have negative consequences for women, including forcing them to seek clandestine abortions and suffer social inequities. Safe Abortion Guidelines, § 4.2.1.7.

Foetal impairment

Yes

Related documents:
- Law on the Protection of Human Life, 1992 (page 2)

Gestational limit

Weeks: 20 or 24 or no limit

Abortion is permitted up to the 12th week of gestation if the pregnant woman's health is severely endangered or if the fetus is likely, on medical indications, to suffer from a severe disability or other impairment. It is permitted up to the 18th week if the circumstances if the pregnant woman a) is partly or fully incapacitated; b) did not recognize the pregnancy in time due to a health reason for which she cannot be held responsible, or due to a medical error, or if the period of up to 12 weeks elapsed because of the failure of a health institution or authority. It is permitted up to the 20th week, or in the event of a delay in diagnostic procedure up to the 24th week, if the probability of the fetus' having a genetic or teratological malformation reaches 50%. There is no gestational limit if the foetus has a malformation that renders postnatal life impossible.

- Law on the Protection of Human Life, 1992 (page 2)

**WHO Guidance**

The following descriptions and recommendations were extracted from WHO guidance on safe abortion.

A woman is entitled to know the status of her pregnancy and to act on this information; health protection or social reasons can be interpreted to include distress of the pregnant woman caused by the diagnosis of fetal impairment. Prenatal tests and other medical diagnostic services cannot legally be refused because the woman may decide to terminate her pregnancy. Safe Abortion Guidelines, § 4.2.1.4.

Laws or policies that impose time limits on the length of pregnancy may have negative consequences for women, including forcing them to seek clandestine abortions and suffer social inequities. Safe Abortion Guidelines, § 4.2.1.7.

Rape

Yes

Related documents:
- Law on the Protection of Human Life, 1992 (page 2)
- Criminal Code, 2012 (page 64)

Gestational limit

Weeks: 12 or 18

Abortion is permitted up to the 12th week of gestation if the pregnant woman's health is severely endangered or if the fetus is likely, on medical indications, to suffer from a severe disability or other impairment. It is permitted up to the 18th week if the circumstances if the pregnant woman a) is partly or fully incapacitated; b) did not recognize the pregnancy in time due to a health reason for which she cannot be held responsible, or due to a medical error, or if the period of up to 12 weeks elapsed because of the failure of a health institution or authority. It is permitted up to the 20th week, or in the event of a delay in diagnostic procedure up to the 24th week, if the probability of the fetus' having a genetic or teratological malformation reaches 50%. There is no gestational limit if the foetus has a malformation that renders postnatal life impossible.

- Law on the Protection of Human Life, 1992 (page 2)
- Criminal Code, 2012 (page 66)

**WHO Guidance**

The following descriptions and recommendations were extracted from WHO guidance on safe abortion.

The protection of women from cruel, inhuman and degrading treatment requires that those who have become pregnant as the result of coerced or forced sexual acts can lawfully access safe abortion services. Prompt, safe abortion services should be provided on the basis of a woman's complaint rather than requiring forensic evidence or police examination. Safe Abortion Guidelines, § 4.2.1.3.

Laws or policies that impose time limits on the length of pregnancy may have negative consequences for women, including forcing them to seek clandestine abortions and suffer social inequities. Safe Abortion Guidelines, § 4.2.1.7.

### Prohibition of sex-selective abortion

<table>
<thead>
<tr>
<th>Related documents:</th>
<th></th>
</tr>
</thead>
<tbody>
<tr>
<td>Criminal Code, 2012</td>
<td></td>
</tr>
</tbody>
</table>

**WHO Guidance**

The following descriptions and recommendations were extracted from WHO guidance on safe abortion.

In situations where abortion is restricted for sex selection purposes, terminating a pregnancy for this reason is likely to involve an unsafe procedure carrying high risks. Any policies or guidelines on the use of technology in obstetric and fetal medicine should take into account the need to ensure women's access to safe abortion and other services - efforts to manage or limit sex selection should also not hamper or limit access to safe abortion services. Preventing gender-biased sex selection: an interagency statement, p 10 - Recommendation.

**Additional notes**

Section 170 of the Penal Code (Altering the Gender of an Unborn Child) specifies: "Any person who performs a procedure for the purpose of altering the gender of an unborn child is guilty of a felony punishable by imprisonment between one to five years."

**Related documents:**

- Criminal Code, 2012 (page 52)

**WHO Guidance**

The following descriptions and recommendations were extracted from WHO guidance on safe abortion.

Vacuum aspiration is the recommended technique of surgical abortion for pregnancies of up to 12 to 14 weeks of gestation. The procedure should not be routinely completed by dilatation and sharp curettage (D&C). Safe Abortion Guidelines, Executive Summary, Box 1 - Recommendation.

- Source document: WHO Safe Abortion Guidance (page 123)

Dilatation and evacuation (D&E) and medical methods (mifepristone and misoprostol; misoprostol alone) are both recommended methods for abortion for gestations over 12 to 14 weeks. Safe Abortion Guidelines, Executive Summary, Box 3 - Recommendation.

- Source document: WHO Safe Abortion Guidance (page 123)

The recommended method for medical abortion is mifepristone followed by misoprostol (regimen differs by gestational age). Safe Abortion Guidelines, Executive Summary, Box 2 - Recommendation.

- Source document: WHO Safe Abortion Guidance (page 13)

Where mifepristone is not available, the recommended method for medical abortion is misoprostol (regimen differs by gestational age). Safe Abortion Guidelines, Executive Summary, Box 2 - Recommendation.

- Source document: WHO Safe Abortion Guidance (page 14)

**Pharmacy selling or distribution**

Not specified

When there is no explicit reference to an issue covered in the questionnaire in the relevant document(s), this is noted and no interpretation was made.

- National Institute of Pharmacy and Nutrition - Authorized Medicinal Products

**WHO Guidance**

The following descriptions and recommendations were extracted from WHO guidance on safe abortion.

The combination of mifepristone and misoprostol for medical abortion is included on the WHO model list of essential medicines. Safe Abortion Guidelines, § 2.2.5

- Source document: WHO Safe Abortion Guidance (page 54)

Chemists/pharmacists can help women avoid unintended pregnancy through provision of accurate contraceptive information, pregnancy tests, contraceptive methods and referral to safe abortion services. Safe Abortion Guidelines, § 3.3.1.1.

- Source document: WHO Safe Abortion Guidance (page 13)

**Misoprostol allowed to be sold or distributed by pharmacies or drug stores**

Not specified

When there is no explicit reference to an issue covered in the questionnaire in the relevant document(s), this is noted and no interpretation was made.

- National Institute of Pharmacy and Nutrition - Authorized Medicinal Products

**WHO Guidance**

The following descriptions and recommendations were extracted from WHO guidance on safe abortion.

Abortion services should be available at primary-care level, with referral systems in place for all required higher-level care. Safe Abortion Guidelines, Executive Summary, Box 6-Recommendation.

- **Source document:** WHO Safe Abortion Guidance (page 18)

**Additional notes**

Decree 32/1992 on the implementation of 1992 LXXIX Act on the protection of the foetus stipulates that termination of pregnancy can be performed solely in health-care facility which meet the requirements laid down in Annex 3.

Abortions after 18 weeks of gestation can be performed only in the county level hospitals listed in Annex 1.

**Related documents:**

**National guidelines for post-abortion care**

No data found

**WHO Guidance**

The following descriptions and recommendations were extracted from WHO guidance on safe abortion.

Standards and guidelines should be developed and updated with the intent of eliminating barriers to obtaining the highest attainable standard of sexual and reproductive health. Safe Abortion Guidelines, § 3.3. Standards and guidelines should cover: types of abortion service, where and by whom they can be provided; essential equipment, instruments, medications, supplies and facility capabilities; referral mechanisms; respect for women's informed decision-making, autonomy, confidentiality and privacy. Safe Abortion Guidelines, p. 63.

- **Source document:** WHO Safe Abortion Guidance (page 75)

Induced abortion for all women

Yes

Act LXXIX of 1992 on the protection of foetal life states: “16. § (1) The cost of the pregnancy terminations shall be covered by the Health Insurance Fund where a pregnancy is terminated because of a health condition of the insured pregnant woman or the foetus.

(2) The fee payable for pregnancy termination in cases not falling under subsection (1) shall be the same as the fee payable under financing by social insurance. The minister shall issue a decree determining the detailed rules of paying the fee, including rates reduced on the basis of social grounds.”

Decree 32/1992 on the implementation of 1992 LXXIX Act on the protection of the foetus further specifies conditions for co-payments (Article 13) and for exemptions from fees (Article 17.)

Induced abortion for poor women only

No

Abortion complications

Private health coverage

Not specified

Other (if applicable)

WHO Guidance

The following descriptions and recommendations were extracted from WHO guidance on safe abortion.

Financing of abortion services should take into account costs to the health system while ensuring that services are affordable and readily available to all women who need them. Safe Abortion Guidelines, Executive Summary, Box 6 - Recommendation. Abortion services should be mandated for coverage under insurance plans; women should never be denied or delayed because of the inability to pay. Safe Abortion Guidelines, § 3.6.2.

- Law on the Protection of Human Life, 1992

**WHO Guidance**

The following descriptions and recommendations were extracted from WHO guidance on safe abortion.

Health-care professionals who claim conscientious objection must refer the woman to another willing and trained provider in the same, or another easily accessible health-care facility. Where referral is not possible, the health-care professional who objects, must provide safe abortion to save the woman's life, to prevent serious injury to her health and provide urgent care when women present with complications from an unsafe or illegal abortion. Safe Abortion Guidelines, § 4.2.2.5.

- **Source document:** WHO Safe Abortion Guidance (page 106)

**Additional notes**

Doctors and health workers cannot be required to perform or contribute to abortions except in cases where the pregnant woman's life is at risk.

Indicators
Country specific information related to sexual and reproductive health indications. As data for the Sustainable Development Goal (SDG) indicators related to sexual and reproductive health become available, these will be provided, through periodic updates.

Goal 1. End poverty in all its forms everywhere

1.1.1 Proportion of population below the international poverty line, by sex, age, employment status and geographical location (urban/rural)

1.3.1 Proportion of population covered by social protection floors/systems, by sex, distinguishing children, unemployed persons, older persons, persons with disabilities, pregnant women, newborns, work-injury victims and the poor and the vulnerable

1.a.2 Proportion of total government spending on essential services (education, health and social protection)

Goal 3. Ensure healthy lives and promote well-being for all at all ages

3.1.1 Maternal mortality ratio

3.1.2 Proportion of births attended by skilled health personnel

3.7.1 Proportion of women of reproductive age (aged 15-49 years) who have their need for family planning satisfied with modern methods

3.7.2 Adolescent birth rate (aged 10-14 years; aged 15-19 years) per 1,000 women in that age group
### Goal 4. Ensure inclusive and equitable quality education and promote lifelong learning opportunities for all

<table>
<thead>
<tr>
<th>Indicator</th>
<th>Data Availability</th>
</tr>
</thead>
<tbody>
<tr>
<td>Proportion of children and young people: (a) in grades 2/3; (b) at the end of primary; and (c) at the end of lower secondary achieving at least a minimum proficiency level in (i) reading and (ii) mathematics, by sex</td>
<td>No data</td>
</tr>
</tbody>
</table>

### Goal 5. Achieve gender equality and empower all women and girls

<table>
