Concluding Observations:
- CRC
- CESCR

Persons who can be sanctioned:
- A woman or girl can be sanctioned
- Providers can be sanctioned
- A person who assists can be sanctioned

Abortion at the woman's request
- No

Legal Ground and Gestational Limit
**Economic or social reasons**

Yes

**Related documents:**
- Abortion Law, 1978 (page 1)

**Gestational limit**

Weeks: 90 days

- Abortion Law, 1978 (page 1)

**WHO Guidance**

The following descriptions and recommendations were extracted from WHO guidance on safe abortion.

WHO defines health for member states as a state of complete physical, mental and social well-being and not merely the absence of disease or infirmity. Safe Abortion Guidelines, § 4.2.1.5.

*Source document: WHO Safe Abortion Guidance (page 103)*

Laws or policies that impose time limits on the length of pregnancy may have negative consequences for women, including forcing them to seek clandestine abortions and suffer social inequities. Safe Abortion Guidelines, § 4.2.1.7.

*Source document: WHO Safe Abortion Guidance (page 103)*

**Additional notes**

In cases where an abortion is sought due to the woman's family circumstances or the circumstances in which conception occurred the gestational limit is 90 days.

---

**Foetal impairment**

Yes

**Related documents:**
- Abortion Law, 1978 (page 1)

**Gestational limit**

Weeks: 90 days

- Abortion Law, 1978 (page 1)

**WHO Guidance**

The following descriptions and recommendations were extracted from WHO guidance on safe abortion.

A woman is entitled to know the status of her pregnancy and to act on this information; health protection or social reasons can be interpreted to include distress of the pregnant woman caused by the diagnosis of fetal impairment. Prenatal tests and other medical diagnostic services cannot legally be refused because the woman may decide to terminate her pregnancy. Safe Abortion Guidelines, § 4.2.1.4.

*Source document: WHO Safe Abortion Guidance (page 103)*

Laws or policies that impose time limits on the length of pregnancy may have negative consequences for women, including forcing them to seek clandestine abortions and suffer social inequities. Safe Abortion Guidelines, § 4.2.1.7.

*Source document: WHO Safe Abortion Guidance (page 103)*

**Additional notes**

Voluntary termination of pregnancy, after the first ninety days, can be practiced: when pathological processes are ascertained, including those relating to significant anomalies or malformations of the unborn child, which cause a serious danger to the physical or mental health of the woman.

---

**Rape**

No

**Related documents:**
- Abortion Law, 1978 (page 1)

**WHO Guidance**

The following descriptions and recommendations were extracted from WHO guidance on safe abortion.

The protection of women from cruel, inhuman and degrading treatment requires that those who have become pregnant as the result of coerced or forced sexual acts can lawfully access safe abortion services. Prompt, safe abortion services should be provided on the basis of a woman's complaint rather than requiring forensic evidence or police examination. Safe Abortion Guidelines, § 4.2.1.3.

*Source document: WHO Safe Abortion Guidance (page 102)*

---

**Incest**

No

**Related documents:**
- Abortion Law, 1978 (page 1)

**WHO Guidance**

The following descriptions and recommendations were extracted from WHO guidance on safe abortion.

The protection of women from cruel, inhuman and degrading treatment requires that those who have become pregnant as the result of coerced or forced sexual acts can lawfully access safe abortion services. Prompt, safe abortion services should be provided on the basis of a woman's complaint rather than requiring forensic evidence or police examination. Safe Abortion Guidelines, § 4.2.1.3.

The following descriptions and recommendations were extracted from WHO guidance on safe abortion.

Laws, policies and practices that restrict access to abortion information and services can deter women from care seeking and create a "chilling effect" (suppression of actions because of fear of reprisals or penalties) for the provision of safe, legal services. Examples of barriers include: requiring third-party authorization from one or more medical professionals or a hospital committee, court or police, parent or guardian or a woman's partner or spouse. Safe Abortion Guidelines, § 4.2.2.

Source document: WHO Safe Abortion Guidance (page 104)

Third-party authorization should not be required for women to obtain abortion services. The requirement for authorization by parents may violate the right to privacy and women's access to health care on the basis of equality of men and women. Safe Abortion Guidelines, § 4.2.2.2.

Source document: WHO Safe Abortion Guidance (page 105)

Regulatory, policy and programmatic barriers, one example of which is the requirement for mandatory ultrasound prior to abortion, that hinder access to and timely provision of safe abortion care should be removed. Safe Abortion Guidelines, Executive Summary, Box 7 - Recommendation.

Source document: WHO Safe Abortion Guidance (page 19)
### Compulsory counselling

- **Not specified**
  - When there is no explicit reference to an issue covered in the questionnaire in the relevant document(s), this is noted and no interpretation was made.

**Related documents:**
- Abortion Law, 1978

**WHO Guidance**

The following descriptions and recommendations were extracted from WHO guidance on safe abortion.

- Many women have made a decision to have an abortion before seeking care, and this decision should be respected without subjecting a woman to mandatory counselling. Provision of counselling to women who desire it should be voluntary, confidential, non-directive and by a trained person. Safe Abortion Guidelines, § 2.1.8.1.

[Source document: WHO Safe Abortion Guidance (page 46)]

### Compulsory waiting period

- **Yes**

**Related documents:**
- Abortion Law, 1978 (page 2)

**Waiting period**

- **Date of the first visit**
- 7 days

**WHO Guidance**

The following descriptions and recommendations were extracted from WHO guidance on safe abortion.

- States should consider eliminating waiting periods that are not medically required, and expanding services to serve all eligible women promptly. Safe Abortion Guidelines, § 4.2.2.6.

[Source document: WHO Safe Abortion Guidance (page 107)]

### Mandatory HIV screening test

- **Not specified**
  - When there is no explicit reference to an issue covered in the questionnaire in the relevant document(s), this is noted and no interpretation was made.

**Related documents:**
- Abortion Law, 1978

**WHO Guidance**

The following descriptions and recommendations were extracted from WHO guidance on safe abortion.

- Requirements for HIV and other tests that are not clinically indicated are potential service-delivery barriers. Safe Abortion Guidelines, p 88.

[Source document: WHO Safe Abortion Guidance (page 88)]

### Other mandatory STI screening tests

- **Not specified**
  - When there is no explicit reference to an issue covered in the questionnaire in the relevant document(s), this is noted and no interpretation was made.

**Related documents:**
- Abortion Law, 1978

**WHO Guidance**

The following descriptions and recommendations were extracted from WHO guidance on safe abortion.

- Requirements for HIV and other tests that are not clinically indicated are potential service-delivery barriers. Safe Abortion Guidelines, p 88.

[Source document: WHO Safe Abortion Guidance (page 88)]

### Prohibition of sex-selective abortion

- **Not specified**
  - When there is no explicit reference to an issue covered in the questionnaire in the relevant document(s), this is noted and no interpretation was made.

**Related documents:**
- Abortion Law, 1978

**WHO Guidance**

The following descriptions and recommendations were extracted from WHO guidance on safe abortion.

- In situations where abortion is restricted for sex selection purposes, terminating a pregnancy for this reason is likely to involve an unsafe procedure carrying high risks. Any policies or guidelines on the use of technology in obstetric and fetal medicine should take into account the need to ensure women’s access to safe abortion and other services - efforts to manage or limit sex selection should also not hamper or limit access to safe abortion services. Preventing gender-biased sex selection: an interagency statement, p 10 - Recommendation.

### Contraception included in post-abortion care

- No data found

### Insurance to offset end user costs

- Yes

### WHO Guidance

The following descriptions and recommendations were extracted from WHO guidance on safe abortion.

**Contraception included in post-abortion care**

All women should receive contraceptive information and be offered counselling for and methods of post-abortion contraception, including emergency contraception, before leaving the health-care facility. Safe Abortion Guidelines, § 2.3.

**Insurance to offset end user costs**

Financing of abortion services should take into account costs to the health system while ensuring that services are affordable and readily available to all women who need them. Safe Abortion Guidelines, Executive Summary, Box 6 - Recommendation. Abortion services should be mandated for coverage under insurance plans; women should never be denied or delayed because of the inability to pay. Safe Abortion Guidelines, § 3.4.2.
### Conscientious Objection

**Public sector providers**

- **Individual health-care providers who have objected are required to refer the woman to another provider**
  - **Not specified**
    - When there is no explicit reference to an issue covered in the questionnaire in the relevant document(s), this is noted and no interpretation was made.
    - Abortion Law, 1978

**WHO Guidance**

The following descriptions and recommendations were extracted from WHO guidance on safe abortion.

Health-care professionals who claim conscientious objection must refer the woman to another willing and trained provider in the same, or another easily accessible health-care facility. Where referral is not possible, the health-care professional who objects, must provide safe abortion to save the woman's life, to prevent serious injury to her health and provide urgent care when women present with complications from an unsafe or illegal abortion. Safe Abortion Guidelines, § 4.2.2.5.

Indicators

Country specific information related to sexual and reproductive health indications. As data for the Sustainable Development Goal (SDG) indicators related to sexual and reproductive health become available, these will be provided, through periodic updates.

Goal 1. End poverty in all its forms everywhere

1.1.1 Proportion of population below the international poverty line, by sex, age, employment status and geographical location (urban/rural)  

1.3.1 Proportion of population covered by social protection floors/systems, by sex, distinguishing children, unemployed persons, older persons, persons with disabilities, pregnant women, newborns, work-injury victims and the poor and the vulnerable  

1.a.2 Proportion of total government spending on essential services (education, health and social protection)  

Goal 3. Ensure healthy lives and promote well-being for all at all ages

3.1.1 Maternal mortality ratio  

3.1.2 Proportion of births attended by skilled health personnel  

3.7.1 Proportion of women of reproductive age (aged 15-49 years) who have their need for family planning satisfied with modern methods  

3.7.2 Adolescent birth rate (aged 10-14 years; aged 15-19 years) per 1,000 women in that age group
Goal 4. Ensure inclusive and equitable quality education and promote lifelong learning opportunities for all

4.1.1 Proportion of children and young people: (a) in grades 2/3; (b) at the end of primary; and (c) at the end of lower secondary achieving at least a minimum proficiency level in (i) reading and (ii) mathematics, by sex

Goal 5. Achieve gender equality and empower all women and girls

5.1.1 Whether or not legal frameworks are in place to promote, enforce and monitor equality and nondiscrimination on the basis of sex

5.2.1 Proportion of ever-partnered women and girls aged 15 years and older subjected to physical, sexual or psychological violence by a current or former intimate partner in the previous 12 months, by form of violence and by age

5.2.2 Proportion of women and girls aged 15 years and older subjected to sexual violence by persons other than an intimate partner in the previous 12 months, by age and place of occurrence

5.3.1 Proportion of women aged 20-24 years who were married or in a union before age 15 and before age 18

5.3.2 Proportion of girls and women aged 15-49 years who have undergone female genital mutilation/cutting, by age

5.6.1 Proportion of women aged 15-49 years who make their own informed decisions regarding sexual relations, contraceptive use and reproductive health care

5.6.2 Number of countries with laws and regulations that guarantee women aged 15-49 years access to sexual and reproductive health care, information and education

5.a.1 (a) Proportion of total agricultural population with ownership or secure rights over agricultural land, by sex; and (b) share of women among owners or rights-bearers of agricultural land, by type of tenure

5.b.1 Proportion of individuals who own a mobile telephone, by sex

Goal 8. Promote sustained, inclusive and sustainable economic growth, full and productive employment and decent work for all

8.5.2 Unemployment rate, by sex, age and persons with disabilities

Goal 10. Reduce inequality within and among countries

10.2.1 Proportion of people living below 50 per cent of median income, by age, sex and persons with disabilities

10.3.1 Proportion of the population reporting having personally felt discriminated against or harassed within the previous 12 months on the basis of a ground of discrimination prohibited under international human rights law

Goal 16. Promote peaceful and inclusive societies for sustainable development, provide access to justice for all and build effective, accountable and inclusive institutions at all levels

16.1.1 Proportion of population subjected to physical, psychological or sexual violence in the previous 12 months

16.2.2 Number of victims of human trafficking per 100,000 population, by sex, age and form of exploitation

16.2.3 Proportion of young women and men aged 18-29 years who experienced sexual violence by age 18

16.3.1 Proportion of victims of violence in the previous 12 months who reported their victimization to competent authorities or other officially recognized conflict resolution mechanisms
16.5.1 Proportion of persons who had at least one contact with a public official and who paid a bribe to a public official, or were asked for a bribe by those public officials, during the previous 12 months

No data

16.6.1 Primary government expenditures as a proportion of original approved budget, by sector (or by budget codes or similar)

No data

16.6.2 Proportion of the population satisfied with their last experience of public services

No data

16.7.1 Proportions of positions (by sex, age, persons with disabilities and population groups) in public institutions (national and local legislatures, public service, and judiciary) compared to national distributions

No data

16.9.1 Proportion of children under 5 years of age whose births have been registered with a civil authority, by age

No data

16.10.1 Number of verified cases of killing, kidnapping, enforced disappearance, arbitrary detention and torture of journalists, associated media personnel, trade unionists and human rights advocates in the previous 12 months

No data

16.b.1 Proportion of population reporting having personally felt discriminated against or harassed in the previous 12 months on the basis of a ground of discrimination prohibited under international human rights law

No data

Goal 17. Strengthen the means of implementation and revitalize the Global Partnership for Sustainable Development

17.8.1 Proportion of individuals using the Internet

No data

Additional Reproductive Health Indicators

Percentage of married women with unmet need for family planning
