WHO Guidance

The following descriptions and recommendations were extracted from WHO guidance on safe abortion.

WHO defines health for member states as a state of complete physical, mental and social well-being and not merely the absence of disease or infirmity. Safe Abortion Guidelines, § 4.2.1.5.

WHO Guidance

The following descriptions and recommendations were extracted from WHO guidance on safe abortion.

Financing of abortion services should take into account costs to the health system while ensuring that services are affordable and readily available to all women who need them. Safe Abortion Guidelines, Executive Summary, Box 6 - Recommendation. Abortion services should be mandated for coverage under insurance plans; women should never be denied or delayed because of the inability to pay. Safe Abortion Guidelines, § 3.6.2.

WHO Guidance

The following descriptions and recommendations were extracted from WHO guidance on safe abortion.

Subject to gestational age and method, abortion care can be safely provided by any properly trained health-care provider, including specialist doctors, non-specialist doctors; associate and advanced associate clinicians; midwives; and nurses. Health Worker Roles in Safe Abortion Care, p 33- Recommendation.

Indicators

Country specific information related to sexual and reproductive health indications. As data for the Sustainable Development Goal (SDG) indicators related to sexual and reproductive health become available, these will be provided, through periodic updates.

Goal 1. End poverty in all its forms everywhere

1.1.1 Proportion of population below the international poverty line, by sex, age, employment status and geographical location (urban/rural)	No data
1.3.1 Proportion of population covered by social protection floors/systems, by sex, distinguishing children, unemployed persons, older persons, persons with disabilities, pregnant women, newborns, work-injury victims and the poor and the vulnerable	No data
1.a.2 Proportion of total government spending on essential services (education, health and social protection)	No data

Goal 3. Ensure healthy lives and promote well-being for all at all ages

3.1.1 Maternal mortality ratio	5 (2017)
3.1.2 Proportion of births attended by skilled health personnel	No data
3.7.1 Proportion of women of reproductive age (aged 15-49 years) who have their need for family planning satisfied with modern methods	No data
3.7.2 Adolescent birth rate (aged 10-14 years; aged 15-19 years) per 1,000 women in that age group	4.0 (2015-2020)
3.8.2 Number of people covered by health insurance or a public health system per 1,000 population	No data
3.c.1 Health worker density and distribution	No data

Goal 4. Ensure inclusive and equitable quality education and promote lifelong learning opportunities for all

4.1.1 Proportion of children and young people: (a) in grades 2/3; (b) at the end of primary; and (c) at the end of lower secondary achieving at least a minimum proficiency level in (i) reading and (ii) mathematics, by sex	No data
---	---------

Goal 5. Achieve gender equality and empower all women and girls

5.1.1 Whether or not legal frameworks are in place to promote, enforce and monitor equality and nondiscrimination on the basis of sex	No data
5.2.1 Proportion of ever-partnered women and girls aged 15 years and older subjected to physical, sexual or psychological violence by a current or former intimate partner in the previous 12 months, by form of violence and by age	No data
5.2.2 Proportion of women and girls aged 15 years and older subjected to sexual violence by persons other than an intimate partner in the previous 12 months, by age and place of occurrence	No data
5.3.1 Proportion of women aged 20-24 years who were married or in a union before age 15 and before age 18	No data
5.3.2 Proportion of girls and women aged 15-49 years who have undergone female genital mutilation/cutting, by age	No data
5.6.1 Proportion of women aged 15-49 years who make their own informed decisions regarding sexual relations, contraceptive use and reproductive health care	No data
5.6.2 Number of countries with laws and regulations that guarantee women aged 15- 49 years access to sexual and reproductive health care, information and education	No data
5.a.1 (a) Proportion of total agricultural population with ownership or secure rights over agricultural land, by sex; and (b) share of women among owners or rights-bearers of agricultural land, by type of tenure	No data
5.b.1 Proportion of individuals who own a mobile telephone, by sex	No data

Goal 8. Promote sustained, inclusive and sustainable economic growth, full and productive employment and decent work for all

8.5.2 Unemployment rate, by sex, age and persons with disabilities	No data
--	---------

Goal 10. Reduce inequality within and among countries

10.2.1 Proportion of people living below 50 per cent of median income, by age, sex and persons with disabilities	No data
10.3.1 Proportion of the population reporting having personally felt discriminated against or harassed within the previous 12 months on the basis of a ground of discrimination prohibited under international human rights law	No data

Goal 16. Promote peaceful and inclusive societies for sustainable development, provide access to justice for all and build effective, accountable and inclusive institutions at all levels

16.1.3 Proportion of population subjected to physical, psychological or sexual violence in the previous 12 months	No data
16.2.2 Number of victims of human trafficking per 100,000 population, by sex, age and form of exploitation	No data
16.2.3 Proportion of young women and men aged 18-29 years who experienced sexual violence by age 18	No data
16.3.1 Proportion of victims of violence in the previous 12 months who reported their victimization to competent authorities or other officially recognized conflict resolution mechanisms	No data
16.5.1 Proportion of persons who had at least one contact with a public official and who paid a bribe to a public official, or were asked for a bribe by those public officials, during the previous 12 months	No data
16.6.1 Primary government expenditures as a proportion of original approved budget, by sector (or by budget codes or similar)	No data
16.6.2 Proportion of the population satisfied with their last experience of public services	No data
16.7.1 Proportions of positions (by sex, age, persons with disabilities and population groups) in public institutions (national and local legislatures, public service, and judiciary) compared to national distributions	No data

16.9.1 Proportion of children under 5 years of age whose births have been registered with a civil authority, by age	No data
16.10.1 Number of verified cases of killing, kidnapping, enforced disappearance, arbitrary detention and torture of journalists, associated media personnel, trade unionists and human rights advocates in the previous 12 months	No data
16.b.1 Proportion of population reporting having personally felt discriminated against or harassed in the previous 12 months on the basis of a ground of discrimination prohibited under international human rights law	No data
Goal 17. Strengthen the means of implementation and revitalize the Global Partnership for Sustainable Development	
17.8.1 Proportion of individuals using the Internet	No data
Additional Reproductive Health Indicators	
Percentage of married women with unmet need for family planning	No data
Percentage of births attended by trained health professional	100 (2003)
Percentage of women aged 20-24 who gave birth before age 18	No data
Total fertility rate	1.59 (2018)
Legal marital age for women, with parental consent	No data
Legal marital age for women, without parental consent	18 (2009-2017)
Gender Inequalities Index (Value)	0.04 (2017)
Gender Inequalities Index (Rank)	3 (2017)
Mandatory paid maternity leave	yes (2020)
Median age	43.3 (2020)
Population, urban (%)	91.49 (2018)
Percentage of secondary school completion rate for girls	0.97 (2013)
Gender parity in secondary education	1.017 (2016)
Percentage of women in non-agricultural employment	48.7 (2013)
Proportion of seats in parliament held by women	35.6 (2017)
Sex ratio at birth (male to female births)	1.05 (2018)
