**Gestational limit**

Weeks: No limit specified

- Law on Patients Rights, Parliament of Romania, 2003 (page 2)
The following descriptions and recommendations were extracted from WHO guidance on safe abortion.

The human right to life requires protection by law, including when pregnancy is life-threatening or a pregnant woman’s life is otherwise endangered. Both medical and social conditions can constitute life-threatening conditions. Safe Abortion Guidelines, § 4.2.1.1.

**Source document:** WHO Safe Abortion Guidance (page 102)

Laws or policies that impose time limits on the length of pregnancy may have negative consequences for women, including forcing them to seek clandestine abortions and suffer social inequities. Safe Abortion Guidelines, § 4.2.1.7.

**Source document:** WHO Safe Abortion Guidance (page 103)

### Therapeutic Purposes

**Related documents:**
- Penal Code (page 80)

**Additional notes**

Abortion for therapeutic purposes is permissible until 24 weeks of gestation.

## Additional Requirements to Access Safe Abortion

### Authorization of health professional(s)

**Not specified**

When there is no explicit reference to an issue covered in the questionnaire in the relevant document(s), this is noted and no interpretation was made.

**Related documents:**
- Penal Code
- Law on Patients Rights, Parliament of Romania, 2003

**WHO Guidance**

The following descriptions and recommendations were extracted from WHO guidance on safe abortion.

Third-party authorization should not be required for women to obtain abortion services. The requirement for authorization by hospital authorities may violate the right to privacy and women’s access to health care on the basis of equality of men and women. Safe Abortion Guidelines, § 4.2.2.2.

**Source document:** WHO Safe Abortion Guidance (page 105)

### Authorization in specially licensed facilities only

**Yes**

**Related documents:**
- Penal Code (page 80)

**WHO Guidance**

The following descriptions and recommendations were extracted from WHO guidance on safe abortion.

Restrictions on the range of providers or facilities that are authorized to provide abortion reduce the availability of services and their equitable geographic distribution. Safe Abortion Guidelines, § 4.2.2.4.

**Source document:** WHO Safe Abortion Guidance (page 106)

### Judicial authorization for minors

**Not specified**

When there is no explicit reference to an issue covered in the questionnaire in the relevant document(s), this is noted and no interpretation was made.

National guidelines for induced abortion

No data found

WHO Guidance

The following descriptions and recommendations were extracted from WHO guidance on safe abortion.

Standards and guidelines should be developed and updated with the intent of eliminating barriers to obtaining the highest attainable standard of sexual and reproductive health. Safe Abortion Guidelines, § 3.3. Standards and guidelines should cover: types of abortion service, where and by whom they can be provided; essential equipment, instruments, medications, supplies and facility capabilities; referral mechanisms; respect for women’s informed decision-making, autonomy, confidentiality and privacy. Safe Abortion Guidelines, p. 63.

Methods allowed

Vacuum aspiration
No data found

Dilatation and evacuation
No data found

Combination mifepristone-misoprostol
No data found

Misoprostol only
No data found

Other (where provided)

WHO Guidance

The following descriptions and recommendations were extracted from WHO guidance on safe abortion.

Vacuum aspiration is the recommended technique of surgical abortion for pregnancies of up to 12 to 14 weeks of gestation. The procedure should not be routinely completed by dilatation and sharp curettage (D&C). Safe Abortion Guidelines, Executive Summary, Box 1-Recommendation.

Dilatation and evacuation (D&E) and medical methods (mifepristone and misoprostol; misoprostol alone) are both recommended methods for abortion for gestations over 12 to 14 weeks. Safe Abortion Guidelines, Executive Summary, Box 3-Recommendation.

The recommended method for medical abortion is mifepristone followed by misoprostol (regimen differs by gestational age). Safe Abortion Guidelines, Executive Summary, Box 2-Recommendation.

Where mifepristone is not available, the recommended method for medical abortion is misoprostol (regimen differs by gestational age). Safe Abortion Guidelines, Executive Summary, Box 2-Recommendation.

Country recognized approval (mifepristone / mife-misoprostol)

Yes

**WHO Guidance**

The following descriptions and recommendations were extracted from WHO guidance on safe abortion.

Abortion services should be available at primary-care level, with referral systems in place for all required higher-level care. Safe Abortion Guidelines, Executive Summary, Box 6- Recommendation.

Source document: WHO Safe Abortion Guidance (page 18)

Standards and guidelines should be developed and updated with the intent of eliminating barriers to obtaining the highest attainable standard of sexual and reproductive health. Safe Abortion Guidelines, § 3.3. Standards and guidelines should cover: types of abortion service, where and by whom they can be provided; essential equipment, instruments, medications, supplies and facility capabilities; referral mechanisms; respect for women’s informed decision-making, autonomy, confidentiality and privacy. Safe Abortion Guidelines, p. 63.

Source document: WHO Safe Abortion Guidance (page 75)

The facilities and skills required to manage most abortion complications are similar to those needed to care for women who have had a spontaneous abortion (miscarriage). Safe Abortion Guidelines § 2.2.6.
**Contraception included in post-abortion care**

No data found

**WHO Guidance**

The following descriptions and recommendations were extracted from WHO guidance on safe abortion.

All women should receive contraceptive information and be offered counselling for and methods of post-abortion contraception, including emergency contraception, before leaving the health-care facility. Safe Abortion Guidelines, § 2.3.

**Insurance to offset end user costs**

No data found

**WHO Guidance**

The following descriptions and recommendations were extracted from WHO guidance on safe abortion.

Financing of abortion services should take into account costs to the health system while ensuring that services are affordable and readily available to all women who need them. Safe Abortion Guidelines, Executive Summary, Box 6 - Recommendation. Abortion services should be mandated for coverage under insurance plans; women should never be denied or delayed because of the inability to pay. Safe Abortion Guidelines, § 3.6.2.

</table>
5.a.1 (a) Proportion of total agricultural population with ownership or secure rights over agricultural land, by sex; and (b) share of women among owners or rights-bearers of agricultural land, by type of tenure

5.b.1 Proportion of individuals who own a mobile telephone, by sex

Goal 8. Promote sustained, inclusive and sustainable economic growth, full and productive employment and decent work for all

8.5.2 Unemployment rate, by sex, age and persons with disabilities

Goal 10. Reduce inequality within and among countries

10.2.1 Proportion of people living below 50 per cent of median income, by age, sex and persons with disabilities

10.3.1 Proportion of the population reporting having personally felt discriminated against or harassed within the previous 12 months on the basis of a ground of discrimination prohibited under international human rights law

Goal 16. Promote peaceful and inclusive societies for sustainable development, provide access to justice for all and build effective, accountable and inclusive institutions at all levels

16.1.3 Proportion of population subjected to physical, psychological or sexual violence in the previous 12 months

16.2.2 Number of victims of human trafficking per 100,000 population, by sex, age and form of exploitation

16.2.3 Proportion of young women and men aged 18-29 years who experienced sexual violence by age 18

16.3.1 Proportion of victims of violence in the previous 12 months who reported their victimization to competent authorities or other officially recognized conflict resolution mechanisms

16.5.1 Proportion of persons who had at least one contact with a public official and who paid a bribe to a public official, or were asked for a bribe by those public officials, during the previous 12 months

16.6.1 Primary government expenditures as a proportion of original approved budget, by sector (or by budget codes or similar)

16.6.2 Proportion of the population satisfied with their last experience of public services

16.7.1 Proportions of positions (by sex, age, persons with disabilities and population groups) in public institutions (national and local legislatures, public service, and judiciary) compared to national distributions

16.9.1 Proportion of children under 5 years of age whose births have been registered with a civil authority, by age

16.10.1 Number of verified cases of killing, kidnapping, enforced disappearance, arbitrary detention and torture of journalists, associated media personnel, trade unionists and human rights advocates in the previous 12 months
16.b.1 Proportion of population reporting having personally felt discriminated against or harassed in the previous 12 months on the basis of a ground of discrimination prohibited under international human rights law

No data

Goal 17. Strengthen the means of implementation and revitalize the Global Partnership for Sustainable Development

17.8.1 Proportion of individuals using the Internet

No data

Additional Reproductive Health Indicators

Percentage of married women with unmet need for family planning

No data

Percentage of births attended by trained health professional

95.2 (2015)

Percentage of women aged 20-24 who gave birth before age 18

No data

Total fertility rate

1.76 (2018)

Legal marital age for women, with parental consent

16 (2009-2017)

Legal marital age for women, without parental consent

18 (2009-2017)

Gender Inequalities Index (Value)

0.31 (2017)

Gender Inequalities Index (Rank)

68 (2017)

Mandatory paid maternity leave

yes (2020)

Median age

43.3 (2020)

Population, urban (%)

53.998 (2018)

Percentage of secondary school completion rate for girls

0.94 (2013)

Gender parity in secondary education

0.992 (2016)

Percentage of women in non-agricultural employment

45.5 (2013)

Proportion of seats in parliament held by women

18.7 (2017)
Sex ratio at birth (male to female births)

1.06 (2018)
