Additional Requirements to Access Safe Abortion

<p>Authorization of health professional(s)</p>	<p>Yes</p> <p>Related documents:</p> <ul style="list-style-type: none"> • Artificial Interruption of Pregnancy, as amended (page 2) <p>Number and cadre of health-care professional authorizations required</p> <p>Specialist doctor, Director of the health facility</p> <ul style="list-style-type: none"> • Artificial Interruption of Pregnancy, as amended (page 2) <p> WHO Guidance</p> <p>The following descriptions were extracted from WHO Abortion Care Guideline. Where there is a specific Recommendation, this is stated. Otherwise, these are excerpts.</p> <p>Third-party authorization requirements are incompatible with international human rights law, which provides that States may not restrict women’s access to health services on the ground that they do not have the authorization of husbands, partners, parents or health authorities, because they are unmarried, or because they are women. The Abortion Care Guideline recommends that abortion be available on the request of the woman, girl or other pregnant person without the authorization of any other individual, body or institution. Abortion Care Guideline § 3.3.2.</p> <p>↓ Source document: WHO Abortion Care Guideline (page 81)</p> <p> Additional notes</p> <p>A woman applies in writing to a medical doctor for an artificial termination of pregnancy at the relevant facility according to the place of her permanent residence or place of work or school. If the doctor finds that the conditions for its performance are met, he will determine where the abortion is to be performed. If the doctor does not find the conditions for artificial termination of pregnancy, the woman can have up to three days to request in writing a review of his conclusion by the director of the medical facility, who will examine the request no later than two days after its delivery. To review the application, the director of the medical facility will invite two other doctors from the field of gynecology and obstetrics, possibly also a doctor from another field. If he finds that the conditions for artificial termination of pregnancy are fulfilled, he informs the woman in which medical facility the abortion will be performed. If the director of the medical facility has not identified the conditions for artificial termination of pregnancy, he informs the woman in writing of the result of the examination, which is final.</p>
<p>Authorization in specially licensed facilities only</p>	<p> Not specified</p> <p>When there is no explicit reference to an issue covered in the questionnaire in the relevant document(s), this is noted and no interpretation was made.</p> <p>Related documents:</p> <ul style="list-style-type: none"> • Artificial Interruption of Pregnancy, as amended • Decree Implementing Act on Artificial Interruption of Pregnancy, as amended • Laws on Healthcare, Healthcare-related Services, and Amending and Supplementing Certain Acts, as amended • Slovakia Amending Act 345, 2009 <p> WHO Guidance</p> <p>The following descriptions were extracted from WHO Abortion Care Guideline. Where there is a specific Recommendation, this is stated. Otherwise, these are excerpts.</p> <p>To establish an enabling environment, there is a need for abortion care to be integrated into the health system across all levels (including primary, secondary and tertiary) – and supported in the community – to allow for expansion of health worker roles, including self-management approaches. To ensure both access to abortion and achievement of Universal Health Coverage (UHC), abortion must be centred within primary health care (PHC), which itself is fully integrated within the health system, facilitating referral pathways for higher-level care when needed. Abortion Care Guideline § 1.4.1.</p> <p>↓ Source document: WHO Abortion Care Guideline (page 52)</p>
<p>Judicial authorization for minors</p>	<p> Not specified</p> <p>When there is no explicit reference to an issue covered in the questionnaire in the relevant document(s), this is noted and no interpretation was made.</p> <p>Related documents:</p> <ul style="list-style-type: none"> • Artificial Interruption of Pregnancy, as amended • Decree Implementing Act on Artificial Interruption of Pregnancy, as amended • Laws on Healthcare, Healthcare-related Services, and Amending and Supplementing Certain Acts, as amended • Slovakia Amending Act 345, 2009 <p> WHO Guidance</p> <p>The following descriptions were extracted from WHO Abortion Care Guideline. WHO Guidance

The following descriptions were extracted from WHO Abortion Care Guideline. Where there is a specific Recommendation, this is stated. Otherwise, these are excerpts.

The Abortion Care Guideline recommends that access to and continuity of comprehensive abortion care be protected against barriers created by conscientious objection. It is critical that States ensure compliance with regulations and design/organize health systems to ensure access to and continuity of quality abortion care. If it proves impossible to regulate conscientious objection in a way that respects, protects and fulfils abortion seekers’ rights, conscientious objection in abortion provision may become indefensible. Abortion Care Guideline § 3.3.9.

Indicators

Country specific information related to sexual and reproductive health indications. As data for the Sustainable Development Goal (SDG) indicators related to sexual and reproductive health become available, these will be provided, through periodic updates.

Goal 1. End poverty in all its forms everywhere

1.1.1 Proportion of population below the international poverty line, by sex, age, employment status and geographical location (urban/rural)

No data

1.3.1 Proportion of population covered by social protection floors/systems, by sex, distinguishing children, unemployed persons, older persons, persons with disabilities, pregnant women, newborns, work-injury victims and the poor and the vulnerable

No data

1.a.2 Proportion of total government spending on essential services (education, health and social protection)

No data

Goal 3. Ensure healthy lives and promote well-being for all at all ages

3.1.1 Maternal mortality ratio

5 (2017)

3.1.2 Proportion of births attended by skilled health personnel

No data

3.7.1 Proportion of women of reproductive age (aged 15-49 years) who have their need for family planning satisfied with modern methods

No data

3.7.2 Adolescent birth rate (aged 10-14 years; aged 15-19 years) per 1,000 women in that age group

22 (2015-2020)

3.8.2 Number of people covered by health insurance or a public health system per 1,000 population

No data

3.c.1 Health worker density and distribution

No data

Goal 4. Ensure inclusive and equitable quality education and promote lifelong learning opportunities for all

4.1.1 Proportion of children and young people: (a) in grades 2/3; (b) at the end of primary; and (c) at the end of lower secondary achieving at least a minimum proficiency level in (i) reading and (ii) mathematics, by sex

No data

Goal 5. Achieve gender equality and empower all women and girls

5.1.1 Whether or not legal frameworks are in place to promote, enforce and monitor equality and nondiscrimination on the basis of sex

No data

5.2.1 Proportion of ever-partnered women and girls aged 15 years and older subjected to physical, sexual or psychological violence by a current or former intimate partner in the previous 12 months, by form of violence and by age

No data
