**WHO Guidance**

The following descriptions and recommendations were extracted from WHO guidance on safe abortion.

The fulfillment of human rights requires that women can access safe abortion when it is indicated to protect their health. WHO defines health for member states as a state of complete physical, mental and social well-being and not merely the absence of disease or infirmity. Safe Abortion Guidelines, § 4.2.1.2.

Laws or policies that impose time limits on the length of pregnancy may have negative consequences for women, including forcing them to seek clandestine abortions and suffer social inequities. Safe Abortion Guidelines, § 4.2.1.7.

#### Number and cadre of health-care professional authorizations required

3

- Doctor (Specialty Not Specified), Specialist Doctor, Including OB/GYN
- Social Worker

Authorization for abortions after 10 weeks of gestation is provided by a Commission of First Instance, which consists of a social worker and two doctors, one of whom must be a specialist in gynaecology and obstetrics (Article 20). The Commission of First Instance also considers cases of women with pregnancies of less than 10 weeks where medical contraindications to abortion were found by the health care institution to which they have applied for pregnancy termination (Article 24). Commissions of Second Instance are mandated to review negative decisions by Commissions of First Instance at the woman’s request (Article 25).

- Law on Health Measures in Exercising Freedom of Choice in Childbearing (page 4)

---

**WHO Guidance**

The following descriptions and recommendations were extracted from WHO guidance on safe abortion.

Third-party authorization should not be required for women to obtain abortion services. The requirement for authorization by hospital authorities may violate the right to privacy and women's access to health care on the basis of equality of men and women. Safe Abortion Guidelines, § 4.2.2.2.

- Source document: WHO Safe Abortion Guidance (page 105)

When there is no explicit reference to an issue covered in the questionnaire in the relevant document(s), this is noted and no interpretation was made.

**Related documents:**
- Criminal Code
- Infertility Treatment and Procedures of Biomedically-Assisted Procreation Act

**WHO Guidance**

The following descriptions and recommendations were extracted from WHO guidance on safe abortion.

In situations where abortion is restricted for sex selection purposes, terminating a pregnancy for this reason is likely to involve an unsafe procedure carrying high risks. Any policies or guidelines on the use of technology in obstetric and fetal medicine should take into account the need to ensure women's access to safe abortion and other services - efforts to manage or limit sex selection should also not hamper or limit access to safe abortion services. Preventing gender-biased sex selection: an interagency statement, p 10 - Recommendation.

**Source document:** Preventing Gender-Biased Sex Selection (page 17)

**Additional notes**

The law states that "Whoever affects the selection of gender of the future child by using a fertilisation method with medical assistance, unless in order to avoid severe hereditary disease connected to gender, shall be sentenced to imprisonment of not more than three years.

**Related documents:**
- Criminal Code (page 52)

Individual health-care providers who have objected are required to refer the woman to another provider
Yes

Health workers can refuse to provide abortion services, but they have to notify the health institution of their objection. Health institution have to take health workers’ objection into account and have to provide patients the opportunity of a smooth exercise of their rights in the field of healthcare. Health worker shall not refuse to provide abortion services in the case of an emergency requiring urgent medical assistance.
The following descriptions and recommendations were extracted from WHO guidance on safe abortion.

Health-care professionals who claim conscientious objection must refer the woman to another willing and trained provider in the same, or another easily accessible health-care facility. Where referral is not possible, the health-care professional who objects, must provide safe abortion to save the woman’s life, to prevent serious injury to her health and provide urgent care when women present with complications from an unsafe or illegal abortion. Safe Abortion Guidelines, § 4.2.2.5.

Indicators

Country specific information related to sexual and reproductive health indications. As data for the Sustainable Development Goal (SDG) indicators related to sexual and reproductive health become available, these will be provided, through periodic updates.

Goal 1. End poverty in all its forms everywhere

1.1.1 Proportion of population below the international poverty line, by sex, age, employment status and geographical location (urban/rural)  
No data

1.3.1 Proportion of population covered by social protection floors/systems, by sex, distinguishing children, unemployed persons, older persons, persons with disabilities, pregnant women, newborns, work-injury victims and the poor and the vulnerable  
No data

1.a.2 Proportion of total government spending on essential services (education, health and social protection)  
No data

Goal 3. Ensure healthy lives and promote well-being for all at all ages

3.1.1 Maternal mortality ratio  
7 (2017)

3.1.2 Proportion of births attended by skilled health personnel  
No data

3.7.1 Proportion of women of reproductive age (aged 15-49 years) who have their need for family planning satisfied with modern methods  
No data

3.7.2 Adolescent birth rate (aged 10-14 years; aged 15-19 years) per 1,000 women in that age group  
4.2 (2015-2020)

3.8.2 Number of people covered by health insurance or a public health system per 1,000 population  
No data

3.c.1 Health worker density and distribution  
No data

Goal 4. Ensure inclusive and equitable quality education and promote lifelong learning opportunities for all

4.1.1 Proportion of children and young people: (a) in grades 2/3; (b) at the end of primary; and (c) at the end of lower secondary achieving at least a minimum proficiency level in (i) reading and (ii) mathematics, by sex  
No data

Goal 5. Achieve gender equality and empower all women and girls

5.1.1 Whether or not legal frameworks are in place to promote, enforce and monitor equality and
nondiscrimination on the basis of sex
