#### Gestational limit

- **Weeks:** 22 or **No limit** (depending on circumstance)

The limit of 22 weeks in case of foetal impairment applies when there is a *risk of serious anomaly in the foetus*. There is no limit of weeks in case of foetal abnormality incompatible with life or an extremely serious and incurable disease of the foetus.

--

### WHO Guidance

The following descriptions and recommendations were extracted from WHO guidance on safe abortion.

A woman is entitled to know the status of her pregnancy and to act on this information; health protection or social reasons can be interpreted to include distress of the pregnant woman caused by the diagnosis of fetal impairment. Prenatal tests and other medical diagnostic services cannot legally be refused because the woman may decide to terminate her pregnancy. Safe Abortion Guidelines, § 4.2.1.4.

### WHO Guidance

The following descriptions and recommendations were extracted from WHO guidance on safe abortion.

The protection of women from cruel, inhuman and degrading treatment requires that those who have become pregnant as the result of coerced or forced sexual acts can lawfully access safe abortion services. Prompt, safe abortion services should be provided on the basis of a woman’s complaint rather than requiring forensic evidence or police examination. Safe Abortion Guidelines, § 4.2.1.3.

Additional Requirements to Access Safe Abortion

**Authorization of health professional(s)**

- **Related documents:**
  - Law on Sexual and Reproductive Health and Abortion, 2010 (page 9)

**Number and cadre of health-care professional authorizations required**

- **Depends on indication**
- **Specialist Doctor, Including OB/GYN**

An authorization by one doctor or specialist is required in case of serious risk to the life or health of the woman – except in case of emergency. Two specialists must issue an opinion in case of risk of serious anomalies in the fetus. Where fetal anomalies are found to be incompatible with life and are recorded in an opinion previously issued by a doctor or specialist or when an extremely serious and incurable disease is detected in the fetus, confirmation by a multidisciplinary Clinical Committee is required. The authorizing doctors or specialists must be different from the person undertaking the abortion procedure.

- **Law on Sexual and Reproductive Health and Abortion, 2010 (page 9)**
- **https://abortion-policies.srhr.org/documents/countries/**

**WHO Guidance**

The following descriptions and recommendations were extracted from WHO guidance on safe abortion.

Third-party authorization should not be required for women to obtain abortion services. The requirement for authorization by hospital authorities may violate the right to privacy and women's access to health care on the basis of equality of men and women. Safe Abortion Guidelines, § 4.2.2.2.

**Additional notes**

An authorization by one doctor or specialist is required in case of serious risk to the life or health of the woman – except in case of emergency. Two specialists must issue an opinion in case of risk of serious anomalies in the fetus. Where fetal anomalies are found to be incompatible with life and are recorded in an opinion previously issued by a doctor or specialist or when an extremely serious and incurable disease is detected in the fetus, confirmation by a multidisciplinary Clinical Committee is required. The authorizing doctors or specialists must be different from the person undertaking the abortion procedure.

**Authorization in specially licensed facilities only**

- **Related documents:**
  - Law on Sexual and Reproductive Health and Abortion, 2010 (page 8)

**WHO Guidance**

The following descriptions and recommendations were extracted from WHO guidance on safe abortion.

Restrictions on the range of providers or facilities that are authorized to provide abortion reduce the availability of services and their equitable geographic distribution. Safe Abortion Guidelines, § 4.2.2.4.

**WHO Guidance**

The following descriptions and recommendations were extracted from WHO guidance on safe abortion.

In situations where abortion is restricted for sex selection purposes, terminating a pregnancy for this reason is likely to involve an unsafe procedure carrying high risks. Any policies or guidelines on the use of technology in obstetric and fetal medicine should take into account the need to ensure women's access to safe abortion and other services - efforts to manage or limit sex selection should also not hamper or limit access to safe abortion services. Preventing gender-biased sex selection: an interagency statement, p 10 - Recommendation.

WHO Guidance

The following descriptions and recommendations were extracted from WHO guidance on safe abortion.

Standards and guidelines should be developed and updated with the intent of eliminating barriers to obtaining the highest attainable standard of sexual and reproductive health. Safe Abortion Guidelines, § 3.3. Standards and guidelines should cover: types of abortion service, where and by whom they can be provided; essential equipment, instruments, medications, supplies and facility capabilities; referral mechanisms; respect for women’s informed decision-making, autonomy, confidentiality and privacy. Safe Abortion Guidelines, p. 63.

### Availability of a specialist doctor, including OB/GYN

- Yes

### Minimum number of beds

- Not specified

- Law on Sexual and Reproductive Health and Abortion, 2010
- Decree on Quality of Care Regarding abortion

### Other (if applicable)

Facilities are required to have:

- a reception area and waiting room
- a room to provide information to pregnant women
- space for physical and ultrasound examination
- Zone for surgical cleaning
- a room suitable for voluntary abortion
- a rest and recovery room
- equipment necessary to perform gynecological examinations material.
- equipment to perform abortion
- ultrasound
- heart monitoring equipment
- ventilator/ventilation system
- defibrillator and cardiopulmonary resuscitation equipment
- systems that enable the administration of oxygen
- electrical system maintenance

For high-risk pregnancy abortions or abortions after 14 weeks, the following requirements also apply:

- equipment to perform abortion under whichever method of anaesthesia (“bajo cualquier modalidad de anestesia”)
- electrocardiograph
- intubation equipment
- obstetric and gynecology unit
- blood bank or depository

**Individual health-care providers who have objected are required to refer the woman to another provider**

**Not specified**

When there is no explicit reference to an issue covered in the questionnaire in the relevant document(s), this is noted and no interpretation was made.

- Law on Sexual and Reproductive Health and Abortion, 2010

**WHO Guidance**

The following descriptions and recommendations were extracted from WHO guidance on safe abortion.

Health-care professionals who claim conscientious objection must refer the woman to another willing and trained provider in the same, or another easily accessible health-care facility. Where referral is not possible, the health-care professional who objects, must provide safe abortion to save the woman's life, to prevent serious injury to her health and provide urgent care when women present with complications from an unsafe or illegal abortion. Safe Abortion Guidelines, § 4.2.2.5.

- Source document: WHO Safe Abortion Guidance (page 106)

**Additional notes**

Health professionals directly involved in the voluntary interruption of pregnancy will have the right to exercise conscientious objection without the access and quality of care of the provision being undermined by the exercise of conscientious objection. Rejection or refusal to carry out the intervention of interruption of pregnancy for reasons of conscience is always an individual decision of the health personnel directly involved in carrying out the voluntary interruption of pregnancy, which must be stated in advance and in writing. In any case, health professionals will provide appropriate treatment and medical attention to women who need it before and after having undergone a pregnancy termination intervention.

Where referral is not possible, the health-care professional who objects, must provide safe abortion to save the woman's life, to prevent serious injury to her health and provide urgent care when women present with complications from an unsafe or illegal abortion. Safe Abortion Guidelines, § 4.2.2.5.

- Source document: WHO Safe Abortion Guidance (page 106)

**Additional notes**

Health professionals directly involved in the voluntary interruption of pregnancy will have the right to exercise conscientious objection without the access and quality of care of the provision being undermined by the exercise of conscientious objection. Rejection or refusal to carry out the intervention of interruption of pregnancy for reasons of conscience is always an individual decision of the health personnel directly involved in carrying out the voluntary interruption of pregnancy, which must be stated in advance and in writing. In any case, health professionals will provide appropriate treatment and medical attention to women who need it before and after having undergone a pregnancy termination intervention.

**Individual health-care providers who have objected are required to refer the woman to another provider**

**Not specified**

When there is no explicit reference to an issue covered in the questionnaire in the relevant document(s), this is noted and no interpretation was made.

- Law on Sexual and Reproductive Health and Abortion, 2010

**WHO Guidance**

The following descriptions and recommendations were extracted from WHO guidance on safe abortion.

Health-care professionals who claim conscientious objection must refer the woman to another willing and trained provider in the same, or another easily accessible health-care facility. Where referral is not possible, the health-care professional who objects, must provide safe abortion to save the woman's life, to prevent serious injury to her health and provide urgent care when women present with complications from an unsafe or illegal abortion. Safe Abortion Guidelines, § 4.2.2.5.

Indicators
Country specific information related to sexual and reproductive health indicative. As data for the Sustainable Development Goal (SDG) indicators related to sexual and reproductive health become available, these will be provided, through periodic updates.

Goal 1. End poverty in all its forms everywhere

1.1.1 Proportion of population below the international poverty line, by sex, age, employment status and geographical location (urban/rural)
No data

1.3.1 Proportion of population covered by social protection floors/systems, by sex, distinguishing children, unemployed persons, older persons, persons with disabilities, pregnant women, newborns, work-injury victims and the poor and the vulnerable
No data

1.a.2 Proportion of total government spending on essential services (education, health and social protection)
No data

Goal 3. Ensure healthy lives and promote well-being for all at all ages

3.1.1 Maternal mortality ratio
4 (2017)

3.1.2 Proportion of births attended by skilled health personnel
No data

3.7.1 Proportion of women of reproductive age (aged 15-49 years) who have their need for family planning satisfied with modern methods
No data

3.7.2 Adolescent birth rate (aged 10-14 years; aged 15-19 years) per 1,000 women in that age group
8.6 (2015-2020)

3.8.2 Number of people covered by health insurance or a public health system per 1,000 population
No data

3.c.1 Health worker density and distribution
No data

Goal 4. Ensure inclusive and equitable quality education and promote lifelong learning opportunities for all

4.1.1 Proportion of children and young people: (a) in grades 2/3; (b) at the end of primary; and (c) at the end of lower secondary achieving at least a minimum proficiency level in (i) reading and (ii) mathematics, by sex
No data

Goal 5. Achieve gender equality and empower all women and girls

5.1.1 Whether or not legal frameworks are in place to promote, enforce and monitor equality and nondiscrimination on the basis of sex
No data

5.2.1 Proportion of ever-partnered women and girls aged 15 years and older subjected to physical, sexual or psychological violence by a current or former intimate partner in the previous 12 months, by form of violence and by age
No data

5.2.2 Proportion of women and girls aged 15 years and older subjected to sexual violence by persons other than an intimate partner in the previous 12 months, by age and place of occurrence
No data

5.3.1 Proportion of women aged 20-24 years who were married or in a union before age 15 and before age 18
No data

Neither Type of Facility Permitted
Not specified
When there is no explicit reference to an issue covered in the questionnaire in the relevant document(s), this is noted and no interpretation was made.

The respect, protection and fulfillment of human rights require that governments ensure abortion services, that are allowable by law, are accessible in practice. Safe Abortion Guidelines, § 4.2.2.5.

Source document: WHO Safe Abortion Guidance (page 106)
5.3.2 Proportion of girls and women aged 15-49 years who have undergone female genital mutilation/cutting, by age

No data

5.6.1 Proportion of women aged 15-49 years who make their own informed decisions regarding sexual relations, contraceptive use and reproductive health care

No data

5.6.2 Number of countries with laws and regulations that guarantee women aged 15-49 years access to sexual and reproductive health care, information and education

No data

5.a.1 (a) Proportion of total agricultural population with ownership or secure rights over agricultural land, by sex; and (b) share of women among owners or rights-bearers of agricultural land, by type of tenure

No data

5.b.1 Proportion of individuals who own a mobile telephone, by sex

No data

Goal 8. Promote sustained, inclusive and sustainable economic growth, full and productive employment and decent work for all

8.5.2 Unemployment rate, by sex, age and persons with disabilities

No data

Goal 10. Reduce inequality within and among countries

10.2.1 Proportion of people living below 50 per cent of median income, by age, sex and persons with disabilities

No data

10.3.1 Proportion of the population reporting having personally felt discriminated against or harassed within the previous 12 months on the basis of a ground of discrimination prohibited under international human rights law

No data

Goal 16. Promote peaceful and inclusive societies for sustainable development, provide access to justice for all and build effective, accountable and inclusive institutions at all levels

16.1.3 Proportion of population subjected to physical, psychological or sexual violence in the previous 12 months

No data

16.2.1 Number of victims of human trafficking per 100,000 population, by sex, age and form of exploitation

No data

16.2.3 Proportion of young women and men aged 18-29 years who experienced sexual violence by age 18

No data

16.3.1 Proportion of victims of violence in the previous 12 months who reported their victimization to competent authorities or other officially recognized conflict resolution mechanisms

No data

16.5.1 Proportion of persons who had at least one contact with a public official and who paid a bribe to a public official, or were asked for a bribe by those public officials, during the previous 12 months

No data

16.6.1 Primary government expenditures as a proportion of original approved budget, by sector (or by budget codes or similar)

No data

16.6.2 Proportion of the population satisfied with their last experience of public services

No data

16.7.1 Proportions of positions (by sex, age, persons with disabilities and population groups) in public institutions (national and local legislatures, public service, and judiciary) compared to national distributions

No data

16.9.1 Proportion of children under 5 years of age whose births have been registered with a civil authority, by age

No data

16.10.1 Number of verified cases of killing, kidnapping, enforced disappearance, arbitrary detention and torture of journalists, associated media personnel, trade unionists and human rights advocates in the previous 12 months

No data

16.b.1 Proportion of population reporting having personally felt discriminated against or harassed in the previous 12 months on the basis of a ground of discrimination prohibited under international human rights law

No data

Goal 17. Strengthen the means of implementation and revitalize the Global Partnership for Sustainable Development

17.8.1 Proportion of individuals using the Internet

No data
