WHO Guidance

The following descriptions and recommendations were extracted from WHO guidance on safe abortion.

The fulfillment of human rights requires that women can access safe abortion when it is indicated to protect their health. WHO defines health for member states as a state of complete physical, mental and social well-being and not merely the absence of disease or infirmity. Safe Abortion Guidelines, § 4.2.1.2.

↓ **Source document:** [WHO Safe Abortion Guidance \(page 102\)](#)

Laws or policies that impose time limits on the length of pregnancy may have negative consequences for women, including forcing them to seek clandestine abortions and suffer social inequities. Safe Abortion Guidelines, § 4.2.1.7.

↓ **Source document:** [WHO Safe Abortion Guidance \(page 103\)](#)

Additional notes

The 2019 Law on Termination of Pregnancy states that after the twelfth week of pregnancy a termination can be performed, at the request of the pregnant woman if it is a) based on medical indications the pregnancy is life-threatening or will severely affect the woman's health during pregnancy, childbirth or postpartum, or b) based on scientific knowledge, the child will have severe physical or mental disabilities, c) the pregnancy is the result of a crime, including sexual violence and d) also if it is found that the woman's health and circumstances will be severely affected by the pregnancy, including marital and family relations, material insecurity and living conditions, other family members with health problems or the number of children already in the family.

Additional Requirements to Access Safe Abortion

Authorization of health professional(s)

Yes

Related documents:

- [Law on Termination of Pregnancy, 2019 \(page 2\)](#)

Number and cadre of health-care professional authorizations required

One Doctor or Commission of First Instance

Doctor (Specialty Not Specified), Specialist Doctor, Including OB/GYN

Authorisation is required by one doctor for gestational ages after 12 weeks and before 22 weeks, or by a Commission of First Instance if the doctor determines that the termination of the pregnancy is not feasible due to the health condition of the pregnant woman, or that termination of the pregnancy shall jeopardize the life and health of the women, or that more than ten weeks have passed since the conception date.

The Commission of First Instance is formed by the Minister of Health for each health institution where termination of pregnancy is performed. The second instance commission is formed by the Minister of Health on the level of the Republic of Macedonia. The Commissions are

comprised of three members – a doctor specialized in gynecology and obstetrics, doctor specialized in internal medicine and a social worker.

- [Law on Termination of Pregnancy, 2019 \(page 2\)](#)

WHO Guidance

The following descriptions and recommendations were extracted from WHO guidance on safe abortion.

Third-party authorization should not be required for women to obtain abortion services. The requirement for authorization by hospital authorities may violate the right to privacy and women’s access to health care on the basis of equality of men and women. Safe Abortion Guidelines, § 4.2.2.2.

↓ **Source document:** [WHO Safe Abortion Guidance \(page 105\)](#)

Additional notes

After twelve weeks gestational limit up to 22 weeks, a doctor must authorise the termination, and that doctor can consult with another specialist if necessary to make a determination. After 22 weeks it must be authorised by a Commission established by the hospital in which the termination would take place.

Authorization in specially licensed facilities only

Indicators

Country specific information related to sexual and reproductive health indications. As data for the Sustainable Development Goal (SDG) indicators related to sexual and reproductive health become available, these will be provided, through periodic updates.

Goal 1. End poverty in all its forms everywhere

1.1.1 Proportion of population below the international poverty line, by sex, age, employment status and geographical location (urban/rural)

No data

1.3.1 Proportion of population covered by social protection floors/systems, by sex, distinguishing children, unemployed persons, older persons, persons with disabilities, pregnant women, newborns, work-injury victims and the poor and the vulnerable

No data

1.a.2 Proportion of total government spending on essential services (education, health and social protection)

No data

Goal 3. Ensure healthy lives and promote well-being for all at all ages

3.1.1 Maternal mortality ratio

7 (2017)

3.1.2 Proportion of births attended by skilled health personnel

No data

3.7.1 Proportion of women of reproductive age (aged 15-49 years) who have their need for family planning satisfied with modern methods

No data

3.7.2 Adolescent birth rate (aged 10-14 years; aged 15-19 years) per 1,000 women in that age group

16.2 (2015-2020)

3.8.2 Number of people covered by health insurance or a public health system per 1,000 population

No data

3.c.1 Health worker density and distribution

No data

Goal 4. Ensure inclusive and equitable quality education and promote lifelong learning opportunities for all

4.1.1 Proportion of children and young people: (a) in grades 2/3; (b) at the end of primary; and (c) at the end of lower secondary achieving at least a minimum proficiency level in (i) reading and (ii) mathematics, by sex

No data

Goal 5. Achieve gender equality and empower all women and girls

5.1.1 Whether or not legal frameworks are in place to promote, enforce and monitor equality and nondiscrimination on the basis of sex

No data

5.2.1 Proportion of ever-partnered women and girls aged 15 years and older subjected to physical, sexual or psychological violence by a current or former intimate partner in the previous 12 months, by form of violence and by age	No data
5.2.2 Proportion of women and girls aged 15 years and older subjected to sexual violence by persons other than an intimate partner in the previous 12 months, by age and place of occurrence	No data
5.3.1 Proportion of women aged 20-24 years who were married or in a union before age 15 and before age 18	No data
5.3.2 Proportion of girls and women aged 15-49 years who have undergone female genital mutilation/cutting, by age	No data
5.6.1 Proportion of women aged 15-49 years who make their own informed decisions regarding sexual relations, contraceptive use and reproductive health care	No data
5.6.2 Number of countries with laws and regulations that guarantee women aged 15- 49 years access to sexual and reproductive health care, information and education	No data
5.a.1 (a) Proportion of total agricultural population with ownership or secure rights over agricultural land, by sex; and (b) share of women among owners or rights-bearers of agricultural land, by type of tenure	No data
5.b.1 Proportion of individuals who own a mobile telephone, by sex	No data
Goal 8. Promote sustained, inclusive and sustainable economic growth, full and productive employment and decent work for all	
8.5.2 Unemployment rate, by sex, age and persons with disabilities	No data
Goal 10. Reduce inequality within and among countries	
10.2.1 Proportion of people living below 50 per cent of median income, by age, sex and persons with disabilities	No data
10.3.1 Proportion of the population reporting having personally felt discriminated against or harassed within the previous 12 months on the basis of a ground of discrimination prohibited under international human rights law	No data
Goal 16. Promote peaceful and inclusive societies for sustainable development, provide access to justice for all and build effective, accountable and inclusive institutions at all levels	
16.1.3 Proportion of population subjected to physical, psychological or sexual violence in the previous 12 months	No data
16.2.2 Number of victims of human trafficking per 100,000 population, by sex, age and form of exploitation	No data
16.2.3 Proportion of young women and men aged 18-29 years who experienced sexual violence by age 18	No data
16.3.1 Proportion of victims of violence in the previous 12 months who reported their victimization to competent authorities or other officially recognized conflict resolution mechanisms	No data

16.5.1 Proportion of persons who had at least one contact with a public official and who paid a bribe to a public official, or were asked for a bribe by those public officials, during the previous 12 months	No data
16.6.1 Primary government expenditures as a proportion of original approved budget, by sector (or by budget codes or similar)	No data
16.6.2 Proportion of the population satisfied with their last experience of public services	No data
16.7.1 Proportions of positions (by sex, age, persons with disabilities and population groups) in public institutions (national and local legislatures, public service, and judiciary) compared to national distributions	No data
16.9.1 Proportion of children under 5 years of age whose births have been registered with a civil authority, by age	No data
16.10.1 Number of verified cases of killing, kidnapping, enforced disappearance, arbitrary detention and torture of journalists, associated media personnel, trade unionists and human rights advocates in the previous 12 months	No data
16.b.1 Proportion of population reporting having personally felt discriminated against or harassed in the previous 12 months on the basis of a ground of discrimination prohibited under international human rights law	No data

Goal 17. Strengthen the means of implementation and revitalize the Global Partnership for Sustainable Development

17.8.1 Proportion of individuals using the Internet	No data
---	---------

Additional Reproductive Health Indicators

Percentage of married women with unmet need for family planning	17.2 (2011)
Percentage of births attended by trained health professional	99.9 (2016)
Percentage of women aged 20-24 who gave birth before age 18	No data
Total fertility rate	1.496 (2018)
Legal marital age for women, with parental consent	No data
Legal marital age for women, without parental consent	18 (2009-2017)
Gender Inequalities Index (Value)	0.15 (2017)
Gender Inequalities Index (Rank)	35 (2017)
Mandatory paid maternity leave	yes (2020)

Median age	39.1 (2020)
Population, urban (%)	57.963 (2018)
Percentage of secondary school completion rate for girls	0.72 (2013)
Gender parity in secondary education	0.983 (2015)
Percentage of women in non-agricultural employment	41.6 (2013)
Proportion of seats in parliament held by women	37.5 (2017)
Sex ratio at birth (male to female births)	1.06 (2018)
