**WHO Guidance**

The following descriptions and recommendations were extracted from WHO guidance on safe abortion.

The fulfillment of human rights requires that women can access safe abortion when it is indicated to protect their health. WHO defines health for member states as a state of complete physical, mental and social well-being and not merely the absence of disease or infirmity. Safe Abortion Guidelines, § 4.2.1.2.

Source document: WHO Safe Abortion Guidance (page 102)

Laws or policies that impose time limits on the length of pregnancy may have negative consequences for women, including forcing them to seek clandestine abortions and suffer social inequities. Safe Abortion Guidelines, § 4.2.1.7.

Additional Requirements to Access Safe Abortion

Authorization of health professional(s)

Yes

Related documents:
- Norma Tecnica, 2019 (page 7)

Number and cadre of health-care professional authorizations required

3
Specialist Doctor, Including OB/GYN

The General Directors of the hospital or clinic must appoint two gynaecologists and one specialist in the issue which is causing the woman to need a termination. They have three days in which to form and give their opinion.

- Norma Tecnica, 2019 (page 12)

WHO Guidance

The following descriptions and recommendations were extracted from WHO guidance on safe abortion.

Third-party authorization should not be required for women to obtain abortion services. The requirement for authorization by hospital authorities may violate the right to privacy and women’s access to health care on the basis of equality of men and women. Safe Abortion Guidelines, § 4.2.2.2.

Source document: WHO Safe Abortion Guidance (page 105)

Authorization in specially licensed facilities only

Not specified

When there is no explicit reference to an issue covered in the questionnaire in the relevant document(s), this is noted and no interpretation was made.

Related documents:
- Penal Code
- Norma Tecnica, 2019

WHO Guidance

The following descriptions and recommendations were extracted from WHO guidance on safe abortion.

Restrictions on the range of providers or facilities that are authorized to provide abortion reduce the availability of services and their equitable geographic distribution. Safe Abortion Guidelines, § 4.2.2.4.

Source document: WHO Safe Abortion Guidance (page 106)
### Judicial authorization for minors

**Not specified**

When there is no explicit reference to an issue covered in the questionnaire in the relevant document(s), this is noted and no interpretation was made.

**Related documents:**
- Penal Code
- Norma Tecnica, 2019

### Judicial authorization in cases of rape

**WHO Guidance**

The following descriptions and recommendations were extracted from WHO guidance on safe abortion.

Third-party authorization should not be required for women to obtain abortion services. Safe Abortion Guidelines, § 4.2.2.

**Source document:** WHO Safe Abortion Guidance (page 105)

### Police report required in case of rape

**Not applicable**

### Parental consent required for minors

**No**

**Related documents:**
- Norma Tecnica, 2019 (page 7)

### Spousal consent

**Not specified**

When there is no explicit reference to an issue covered in the questionnaire in the relevant document(s), this is noted and no interpretation was made.

Prohibition of sex-selective abortion

- **Not specified**

When there is no explicit reference to an issue covered in the questionnaire in the relevant document(s), this is noted and no interpretation was made.

**Related documents:**
- Penal Code
- Norma Tecnica, 2019

**WHO Guidance**

The following descriptions and recommendations were extracted from WHO guidance on safe abortion.

In situations where abortion is restricted for sex selection purposes, terminating a pregnancy for this reason is likely to involve an unsafe procedure carrying high risks. Any policies or guidelines on the use of technology in obstetric and fetal medicine should take into account the need to ensure women’s access to safe abortion and other services - efforts to manage or limit sex selection should also not hamper or limit access to safe abortion services. Preventing gender-biased sex selection: an interagency statement, p 10 - Recommendation.

Source document: Preventing Gender-Biased Sex Selection (page 17)

Restrictions on information provided to the public

- **Yes**

**Related documents:**
- Penal Code (page 144)

**List of restrictions**

Trade in or advertisement of procedures, instruments, medications or substances intended to induce abortion is prohibited.

- Penal Code (page 144)

**WHO Guidance**

The following descriptions and recommendations were extracted from WHO guidance on safe abortion.

States should refrain from limiting access to means of maintaining sexual and reproductive health, including censoring, withholding or intentionally misrepresenting health-related information. Safe Abortion Guidelines, § 4.2.2.7.
### Clinical and Service-delivery Aspects of Abortion Care

**National guidelines for induced abortion**

Yes, guidelines issued by the government

**Related documents:**
- Norma Tecnica, 2019 (page 6)

**WHO Guidance**

The following descriptions and recommendations were extracted from WHO guidance on safe abortion.

Standards and guidelines should be developed and updated with the intent of eliminating barriers to obtaining the highest attainable standard of sexual and reproductive health. Safe Abortion Guidelines, § 3.3. Standards and guidelines should cover: types of abortion service, where and by whom they can be provided; essential equipment, instruments, medications, supplies and facility capabilities; referral mechanisms; respect for women's informed decision-making, autonomy, confidentiality and privacy. Safe Abortion Guidelines, p. 63.

**Source document:** WHO Safe Abortion Guidance (page 75)

- **Vacuum aspiration**
  - Not specified
  - Norma Tecnica, 2019

- **Dilatation and evacuation**
  - Not specified
  - Norma Tecnica, 2019

- **Combination mifepristone-misoprostol**
  - Not specified
  - Norma Tecnica, 2019

- **Misoprostol only**
  - Not specified
  - Norma Tecnica, 2019

- **Other (where provided)**

**WHO Guidance**

The following descriptions and recommendations were extracted from WHO guidance on safe abortion.

Vacuum aspiration is the recommended technique of surgical abortion for pregnancies of up to 12 to 14 weeks of gestation. The procedure should not be routinely completed by dilatation and sharp curettage (D&C). Safe Abortion Guidelines, Executive Summary, Box 1-Recommendation.

**Source document:** WHO Safe Abortion Guidance (page 123)

Dilatation and evacuation (D&E) and medical methods (mifepristone and misoprostol; misoprostol alone) are both recommended methods for abortion for gestations over 12 to 14 weeks. Safe Abortion Guidelines, Executive Summary, Box 3-Recommendation.

**Source document:** WHO Safe Abortion Guidance (page 123)
The recommended method for medical abortion is mifepristone followed by misoprostol (regimen differs by gestational age). Safe Abortion Guidelines, Executive Summary, Box 2- Recommendation.

Source document: WHO Safe Abortion Guidance (page 13)

Where mifepristone is not available, the recommended method for medical abortion is misoprostol (regimen differs by gestational age). Safe Abortion Guidelines, Executive Summary, Box 2- Recommendation.

Source document: WHO Safe Abortion Guidance (page 14)

Individual health-care providers who have objected are required to refer the woman to another provider
The following descriptions and recommendations were extracted from WHO guidance on safe abortion.

Health-care professionals who claim conscientious objection must refer the woman to another willing and trained provider in the same, or another easily accessible health-care facility. Where referral is not possible, the health-care professional who objects, must provide safe abortion to save the woman’s life, to prevent serious injury to her health and provide urgent care when women present with complications from an unsafe or illegal abortion. Safe Abortion Guidelines, § 4.2.2.5.

Indicators

Country specific information related to sexual and reproductive health indications. As data for the Sustainable Development Goal (SDG) indicators related to sexual and reproductive health become available, these will be provided, through periodic updates.

Goal 1. End poverty in all its forms everywhere

1.1.1 Proportion of population below the international poverty line, by sex, age, employment status and geographical location (urban/rural)

No data

1.3.1 Proportion of population covered by social protection floors/systems, by sex, distinguishing children, unemployed persons, older persons, persons with disabilities, pregnant women, newborns, work-injury victims and the poor and the vulnerable

No data

1.a.2 Proportion of total government spending on essential services (education, health and social protection)

No data

Goal 3. Ensure healthy lives and promote well-being for all at all ages

3.1.1 Maternal mortality ratio

27 (2017)

3.1.2 Proportion of births attended by skilled health personnel

No data

3.7.1 Proportion of women of reproductive age (aged 15-49 years) who have their need for family planning satisfied with modern methods

No data

3.7.2 Adolescent birth rate (aged 10-14 years; aged 15-19 years) per 1,000 women in that age group

53.5 (2015-2020)

3.8.2 Number of people covered by health insurance or a public health system per 1,000 population

No data

3.c.1 Health worker density and distribution

No data

Goal 4. Ensure inclusive and equitable quality education and promote lifelong learning opportunities for all

4.1.1 Proportion of children and young people: (a) in grades 2/3; (b) at the end of primary; and (c) at the end of lower secondary achieving at least a minimum proficiency level in (i) reading and (ii) mathematics, by sex

No data

Goal 5. Achieve gender equality and empower all women and girls

5.1.1 Whether or not legal frameworks are in place to promote, enforce and monitor equality and
nondiscrimination on the basis of sex

| 5.2.1 Proportion of ever-partnered women and girls aged 15 years and older subjected to physical, sexual or psychological violence by a current or former intimate partner in the previous 12 months, by form of violence and by age | No data |
| 5.2.2 Proportion of women and girls aged 15 years and older subjected to sexual violence by persons other than an intimate partner in the previous 12 months, by age and place of occurrence | No data |
| 5.3.1 Proportion of women aged 20-24 years who were married or in a union before age 15 and before age 18 | No data |
| 5.3.2 Proportion of girls and women aged 15-49 years who have undergone female genital mutilation/cutting, by age | No data |
| 5.6.1 Proportion of women aged 15-49 years who make their own informed decisions regarding sexual relations, contraceptive use and reproductive health care | No data |
| 5.6.2 Number of countries with laws and regulations that guarantee women aged 15-49 years access to sexual and reproductive health care, information and education | No data |
| 5.a.1 (a) Proportion of total agricultural population with ownership or secure rights over agricultural land, by sex; and (b) share of women among owners or rights-bearers of agricultural land, by type of tenure | No data |
| 5.b.1 Proportion of individuals who own a mobile telephone, by sex | No data |

Goal 8. Promote sustained, inclusive and sustainable economic growth, full and productive employment and decent work for all

| 8.5.2 Unemployment rate, by sex, age and persons with disabilities | No data |

Goal 10. Reduce inequality within and among countries

| 10.2.1 Proportion of people living below 50 per cent of median income, by age, sex and persons with disabilities | No data |
| 10.3.1 Proportion of the population reporting having personally felt discriminated against or harassed within the previous 12 months on the basis of a ground of discrimination prohibited under international human rights law | No data |

Goal 16. Promote peaceful and inclusive societies for sustainable development, provide access to justice for all and build effective, accountable and inclusive institutions at all levels

| 16.1.3 Proportion of population subjected to physical, psychological or sexual violence in the previous 12 months | No data |
| 16.2.2 Number of victims of human trafficking per 100,000 population, by sex, age and form of exploitation | No data |
| 16.2.3 Proportion of young women and men aged 18-29 years who experienced sexual violence by age 18 | No data |
16.3.1 Proportion of victims of violence in the previous 12 months who reported their victimization to competent authorities or other officially recognized conflict resolution mechanisms

No data

16.5.1 Proportion of persons who had at least one contact with a public official and who paid a bribe to a public official, or were asked for a bribe by those public officials, during the previous 12 months

No data

16.6.1 Primary government expenditures as a proportion of original approved budget, by sector (or by budget codes or similar)

No data

16.6.2 Proportion of the population satisfied with their last experience of public services

No data

16.7.1 Proportions of positions (by sex, age, persons with disabilities and population groups) in public institutions (national and local legislatures, public service, and judiciary) compared to national distributions

No data

16.8.1 Proportion of children under 5 years of age whose births have been registered with a civil authority, by age

No data

16.10.1 Number of verified cases of killing, kidnapping, enforced disappearance, arbitrary detention and torture of journalists, associated media personnel, trade unionists and human rights advocates in the previous 12 months

No data

16.b.1 Proportion of population reporting having personally felt discriminated against or harassed in the previous 12 months on the basis of a ground of discrimination prohibited under international human rights law

No data

Goal 17. Strengthen the means of implementation and revitalize the Global Partnership for Sustainable Development

17.8.1 Proportion of individuals using the Internet

No data

Additional Reproductive Health Indicators

Percentage of married women with unmet need for family planning

7.6 (2011)

Percentage of births attended by trained health professional

90 (2015)

Percentage of women aged 20-24 who gave birth before age 18

9 (2009-2013)

Total fertility rate

1.754 (2018)

Legal marital age for women, with parental consent

No data

Legal marital age for women, without parental consent

18 (2009-2017)

Gender Inequalities Index (Value)
