## Gestational limit

**Weeks:** 35

- Methodological Guidelines for the implementation of voluntary termination of pregnancy, 2011 (page 3)

### WHO Guidance

The following descriptions and recommendations were extracted from WHO guidance on safe abortion.

A woman is entitled to know the status of her pregnancy and to act on this information; health protection or social reasons can be interpreted to include distress of the pregnant woman caused by the diagnosis of fetal impairment. Prenatal tests and other medical diagnostic services cannot legally be refused because the woman may decide to terminate her pregnancy. Safe Abortion Guidelines, § 4.2.1.4.

**Source document:** WHO Safe Abortion Guidance (page 103)

Laws or policies that impose time limits on the length of pregnancy may have negative consequences for women, including forcing them to seek clandestine abortions and suffer social inequities. Safe Abortion Guidelines, § 4.2.1.7.

## Gestational limit

**Weeks:** 22 and beyond

- Methodological Guidelines for the implementation of voluntary termination of pregnancy, 2011 (page 15)

### WHO Guidance

The following descriptions and recommendations were extracted from WHO guidance on safe abortion.

The protection of women from cruel, inhuman and degrading treatment requires that those who have become pregnant as the result of coerced or forced sexual acts can lawfully access safe abortion services. Prompt, safe abortion services should be provided on the basis of a woman’s complaint rather than requiring forensic evidence or police examination. Safe Abortion Guidelines, § 4.2.1.3.
Incest

Not specified

When there is no explicit reference to an issue covered in the questionnaire in the relevant document(s), this is noted and no interpretation was made.

Related documents:
- Methodological Guidelines for the implementation of voluntary termination of pregnancy, 2011
- Penal Code

WHO Guidance

The following descriptions and recommendations were extracted from WHO guidance on safe abortion.

The protection of women from cruel, inhuman and degrading treatment requires that those who have become pregnant as the result of coerced or forced sexual acts can lawfully access safe abortion services. Prompt, safe abortion services should be provided on the basis of a woman's complaint rather than requiring forensic evidence or police examination. Safe Abortion Guidelines, § 4.2.1.3.

Additional notes

Mental condition giving rise to severe depression (risk of suicide) is specified.

Related documents:
- Methodological Guidelines for the implementation of voluntary termination of pregnancy, 2011 (page 15)

Intellectual or cognitive disability of the woman

Not specified

When there is no explicit reference to an issue covered in the questionnaire in the relevant document(s), this is noted and no interpretation was made.

Related documents:
- Methodological Guidelines for the implementation of voluntary termination of pregnancy, 2011
- Penal Code

Physical health

Not specified

When there is no explicit reference to an issue covered in the questionnaire in the relevant document(s), this is noted and no interpretation was made.

Related documents:
- Methodological Guidelines for the implementation of voluntary termination of pregnancy, 2011
- Penal Code

WHO Guidance

The following descriptions and recommendations were extracted from WHO guidance on safe abortion.

The scope of mental health includes psychological distress or mental suffering caused by, for example, coerced or forced sexual acts and diagnosis of severe fetal impairment. Safe Abortion Guidelines, § 4.2.1.2.
Physical health is widely understood to include conditions that aggravate pregnancy and those aggravated by pregnancy. Safe Abortion Guidelines, § 4.2.1.2.

Additional notes

A list of specific medical conditions is specified.

Related documents:
- Methodological Guidelines for the implementation of voluntary termination of pregnancy, 2011 (page 15)

Health

Gestational limit

Weeks: 22

WHO Guidance

The following descriptions and recommendations were extracted from WHO guidance on safe abortion.

The fulfillment of human rights requires that women can access safe abortion when it is indicated to protect their health. WHO defines health for member states as a state of complete physical, mental and social well-being and not merely the absence of disease or infirmity. Safe Abortion Guidelines, § 4.2.1.2.

Source document: WHO Safe Abortion Guidance (page 102)

Laws or policies that impose time limits on the length of pregnancy may have negative consequences for women, including forcing them to seek clandestine abortions and suffer social inequities. Safe Abortion Guidelines, § 4.2.1.7.

Source document: WHO Safe Abortion Guidance (page 103)

Life

Gestational limit

Weeks: No limit specified

WHO Guidance

The following descriptions and recommendations were extracted from WHO guidance on safe abortion.

The human right to life requires protection by law, including when pregnancy is life-threatening or a pregnant woman’s life is otherwise endangered. Both medical and social conditions can constitute life-threatening conditions. Safe Abortion Guidelines, § 4.2.1.1.

Source document: WHO Safe Abortion Guidance (page 102)

Laws or policies that impose time limits on the length of pregnancy may have negative consequences for women, including forcing them to seek clandestine abortions and suffer social inequities. Safe Abortion Guidelines, § 4.2.1.7.

Source document: WHO Safe Abortion Guidance (page 103)

Other

Mental condition giving rise to severe depression (risk of suicide) and a list of other medical conditions is provided.

Related documents:
- Methodological Guidelines for the implementation of voluntary termination of pregnancy, 2011 (page 15)

Additional notes

The gestational limit is 22 weeks.

**WHO Guidance**

The following descriptions and recommendations were extracted from WHO guidance on safe abortion.

Laws, policies and practices that restrict access to abortion information and services can deter women from care seeking and create a “chilling effect” (suppression of actions because of fear of reprisals or penalties) for the provision of safe, legal services. Examples of barriers include: requiring third-party authorization from one or more medical professionals or a hospital committee, court or police, parent or...
Police report required in case of rape

- **Not specified**
  - When there is no explicit reference to an issue covered in the questionnaire in the relevant document(s), this is noted and no interpretation was made.

**Related documents:**
- Methodological Guidelines for the implementation of voluntary termination of pregnancy, 2011 (page 9)

## WHO Guidance

The following descriptions and recommendations were extracted from WHO guidance on safe abortion.

Laws, policies and practices that restrict access to abortion information and services can deter women from care seeking and create a “chilling effect” (suppression of actions because of fear of reprisals or penalties) for the provision of safe, legal services. Examples of barriers include requiring third-party authorization from one or more medical professionals or a hospital committee, court or police, parent or guardian or a woman’s partner or spouse. Safe Abortion Guidelines, § 4.2.2.

**Source document:** WHO Safe Abortion Guidance (page 104)

### Additional notes

Pregnancy resulting from rape should be confirmed by a medico-legal opinion.

**Related documents:**
- Methodological Guidelines for the implementation of voluntary termination of pregnancy, 2011 (page 9)

---

Parental consent required for minors

- **Yes**

**Related documents:**
- Methodological Guidelines for the implementation of voluntary termination of pregnancy, 2011 (page 9) See note

### Can another adult consent in place of a parent?

- **Yes**

  **Related documents:**
  - Methodological Guidelines for the implementation of voluntary termination of pregnancy, 2011 (page 9)
  - Norms for the voluntary termination of pregnancy (page 2)

### Age where consent not needed

- **Not specified**
  - When there is no explicit reference to an issue covered in the questionnaire in the relevant document(s), this is noted and no interpretation was made.
