### WHO Guidance

The following descriptions and recommendations were extracted from WHO guidance on safe abortion.

WHO defines health for member states as a state of complete physical, mental and social well-being and not merely the absence of disease or infirmity. Safe Abortion Guidelines, § 4.2.1.5.

Source document: WHO Safe Abortion Guidance (page 103)

### Additional notes

The Criminal Code provides in Article 550: “Extenuating Circumstances. Subject to the provision of Article 551 below, the Court shall mitigate the punishment under Article 180, where the pregnancy has been terminated on account of an extreme poverty.”

### Gestational limit

**Weeks:** 28

- Standard Treatment Guidelines for General Hospital (page 635)
- Technical and procedural guidelines for safe abortion services in Ethiopia 2014 (page 8)

### WHO Guidance

The following descriptions and recommendations were extracted from WHO guidance on safe abortion.

A woman is entitled to know the status of her pregnancy and to act on this information; health protection or social reasons can be interpreted to include distress of the pregnant woman caused by the diagnosis of fetal impairment. Prenatal tests and other medical diagnostic services cannot legally be refused because the woman may decide to terminate her pregnancy. Safe Abortion Guidelines, § 4.2.1.4.

Source document: WHO Safe Abortion Guidance (page 103)

Laws or policies that impose time limits on the length of pregnancy may have negative consequences for women, including forcing them to seek clandestine abortions and suffer social inequities. Safe Abortion Guidelines, § 4.2.1.7.

Source document: WHO Safe Abortion Guidance (page 103)

### Additional notes

Abortion is not punishable where the child has an incurable and serious deformity.

### WHO Guidance

The following descriptions and recommendations were extracted from WHO guidance on safe abortion.

The protection of women from cruel, inhuman and degrading treatment requires that those who have become pregnant as the result of coerced or forced sexual acts can lawfully access safe abortion services. Prompt, safe abortion services should be provided on the basis of a woman’s complaint rather than requiring forensic evidence or police examination. Safe Abortion Guidelines, § 4.2.1.3.

**WHO Guidance**

The following descriptions and recommendations were extracted from WHO guidance on safe abortion.

Physical health is widely understood to include conditions that aggravate pregnancy and those aggravated by pregnancy. Safe Abortion Guidelines, § 4.2.1.2.

- Source document: WHO Safe Abortion Guidance (page 102)
The following descriptions and recommendations were extracted from WHO guidance on safe abortion.

The fulfillment of human rights requires that women can access safe abortion when it is indicated to protect their health. WHO defines health for member states as a state of complete physical, mental and social well-being and not merely the absence of disease or infirmity. Safe Abortion Guidelines, § 4.2.1.2.

Laws or policies that impose time limits on the length of pregnancy may have negative consequences for women, including forcing them to seek clandestine abortions and suffer social inequities. Safe Abortion Guidelines, § 4.2.1.7.

Abortion is defined in the Technical and Procedural Guidelines for Safe Abortion Services in Ethiopia as “termination of pregnancy before fetal viability, which is conventionally taken to be less than 28 weeks from the last normal menstrual period (LNMP). If the LNMP is not known, a birth weight of less than 1000gm is considered as abortion.”. The Guidelines provide guidance on the provision of termination of pregnancy up to 28 weeks for any indication.
### Authorization of health professional(s)

- **Not specified**
  - When there is no explicit reference to an issue covered in the questionnaire in the relevant document(s), this is noted and no interpretation was made.

**Related documents:**
- Technical and procedural guidelines for safe abortion services in Ethiopia 2014 (page 01)
- Ethiopia Criminal Code, Proclamation No. 414/2004, 9 May 2005

**WHO Guidance**

The following descriptions and recommendations were extracted from WHO guidance on safe abortion.

Third-party authorization should not be required for women to obtain abortion services. The requirement for authorization by hospital authorities may violate the right to privacy and women's access to health care on the basis of equality of men and women. Safe Abortion Guidelines, § 4.2.2.2.

Source document: WHO Safe Abortion Guidance (page 105)

### Authorization in specially licensed facilities only

- **Not specified**
  - When there is no explicit reference to an issue covered in the questionnaire in the relevant document(s), this is noted and no interpretation was made.

**Related documents:**
- Technical and procedural guidelines for safe abortion services in Ethiopia 2014 (page 01)
- Ethiopia Criminal Code, Proclamation No. 414/2004, 9 May 2005

**WHO Guidance**

The following descriptions and recommendations were extracted from WHO guidance on safe abortion.

Restrictions on the range of providers or facilities that are authorized to provide abortion reduce the availability of services and their equitable geographic distribution. Safe Abortion Guidelines, § 4.2.2.4.

Source document: WHO Safe Abortion Guidance (page 106)

### Judicial authorization for minors

- **Not specified**
  - When there is no explicit reference to an issue covered in the questionnaire in the relevant document(s), this is noted and no interpretation was made.

**Related documents:**
- Technical and procedural guidelines for safe abortion services in Ethiopia 2014 (page 01)
- Ethiopia Criminal Code, Proclamation No. 414/2004, 9 May 2005

**WHO Guidance**

The following descriptions and recommendations were extracted from WHO guidance on safe abortion.

Third-party authorization should not be required for women to obtain abortion services. Safe Abortion Guidelines, § 4.2.2.

Source document: WHO Safe Abortion Guidance (page 105)

### Judicial authorization in cases of rape

- **No**

**Related documents:**
- Technical and procedural guidelines for safe abortion services in Ethiopia 2014 (page 12)

**WHO Guidance**

The following descriptions and recommendations were extracted from WHO guidance on safe abortion.

Laws, policies and practices that restrict access to abortion information and services can deter women from care seeking and create a “chilling effect” (suppression of actions because of fear of reprisals or penalties) for the provision of safe, legal services. Examples of barriers include: requiring third-party authorization from one or more medical professionals or a hospital committee, court or police, parent or guardian or a woman’s partner or spouse. Safe Abortion Guidelines, § 4.2.2

Source document: WHO Safe Abortion Guidance (page 104)
### Police report required in case of rape

- **No**

**Related documents:**
- Technical and procedural guidelines for safe abortion services in Ethiopia 2014 (page 12)

**WHO Guidance**

The following descriptions and recommendations were extracted from WHO guidance on safe abortion.

Laws, policies and practices that restrict access to abortion information and services can deter women from care seeking and create a “chilling effect” (suppression of actions because of fear of reprisals or penalties) for the provision of safe, legal services. Compulsory counselling

No

Related documents:
- Standard Treatment Guidelines for General Hospital (page 643)

Compulsory waiting period

Not specified

When there is no explicit reference to an issue covered in the questionnaire in the relevant document(s), this is noted and no interpretation was made.

Related documents:
- Technical and procedural guidelines for safe abortion services in Ethiopia 2014 (page 01)

WHO Guidance

The following descriptions and recommendations were extracted from WHO guidance on safe abortion.

Many women have made a decision to have an abortion before seeking care, and this decision should be respected without subjecting a woman to mandatory counselling. Provision of counselling to women who desire it should be voluntary, confidential, non-directive and by a trained person. Safe Abortion Guidelines, § 2.1.8.1.

**Other (where provided)**

Dilatation and Curettage (D&C) only where MVA/EVA is not available (up to 12 (completed from LMP) WEEKS)

- Technical and procedural guidelines for safe abortion services in Ethiopia 2014 (page 14)

#### WHO Guidance

The following descriptions and recommendations were extracted from WHO guidance on safe abortion.

Vacuum aspiration is the recommended technique of surgical abortion for pregnancies of up to 12 to 14 weeks of gestation. The procedure should not be routinely completed by dilatation and sharp curettage (D&C). Safe Abortion Guidelines, Executive Summary, Box 1- Recommendation.

**Source document:** WHO Safe Abortion Guidance (page 123)

Dilatation and evacuation (D&E) and medical methods (mifepristone and misoprostol; misoprostol alone) are both recommended methods for abortion for gestations over 12 to 14 weeks. Safe Abortion Guidelines, Executive Summary, Box 3- Recommendation.

**Source document:** WHO Safe Abortion Guidance (page 123)

The recommended method for medical abortion is mifepristone followed by misoprostol (regimen differs by gestational age). Safe Abortion Guidelines, Executive Summary, Box 2- Recommendation.

**Source document:** WHO Safe Abortion Guidance (page 13)

Where mifepristone is not available, the recommended method for medical abortion is misoprostol (regimen differs by gestational age). Safe Abortion Guidelines, Executive Summary, Box 2- Recommendation.

**Source document:** WHO Safe Abortion Guidance (page 14)

#### Country recognized approval (mifepristone / mife-misoprostol)

Yes

**Related documents:**
- National Essential Medicines list of Ethiopia 2014, 5th edition (page 29)
Country recognized approval (misoprostol)

- Yes, for gynaecological indications

Related documents:
- National Essential Medicines list of Ethiopia 2014, 5th edition (page 29)

Misoprostol allowed to be sold or distributed by pharmacies or drug stores

- Not specified

Related documents:
- National Essential Medicines list of Ethiopia 2014, 5th edition

Where can abortion services be provided

- Primary health-care centres
  - Yes
  - Health centres may provide abortions by vacuum aspiration up to 12 completed weeks of pregnancy and medical abortion to up 9 completed weeks of pregnancy.
  - Technical and procedural guidelines for safe abortion services in Ethiopia 2014 (page 26)

- Secondary (district-level) health-care facilities
  - Yes
  - In addition to the procedures provided by health centres, primary hospitals may provide uterine evacuation for second trimester abortion at 13 to 24 weeks. General hospitals may provide uterine evacuation for second trimester abortions up to 28 weeks.

- Specialized abortion care public facilities
  - Not specified

- Private health-care centres or clinics
  - Yes

Pharmacy selling or distribution

- Not specified

When there is no explicit reference to an issue covered in the questionnaire in the relevant document(s), this is noted and no interpretation was made.

Indicators

Country specific information related to sexual and reproductive health indications. As data for the Sustainable Development Goal (SDG) indicators related to sexual and reproductive health become available, these will be provided, through periodic updates.

Goal 1. End poverty in all its forms everywhere

1.1.1 Proportion of population below the international poverty line, by sex, age, employment status and geographical location (urban/rural)  
 No data

1.3.1 Proportion of population covered by social protection floors/systems, by sex, distinguishing children, unemployed persons, older persons, persons with disabilities, pregnant women, newborns, work-injury victims and the poor and the vulnerable  
 No data

1.a.2 Proportion of total government spending on essential services (education, health and social protection)  
 No data

Goal 3. Ensure healthy lives and promote well-being for all at all ages

3.1.1 Maternal mortality ratio  
 401 (2017)

3.2.1 Proportion of births attended by skilled health personnel  
 No data

3.7.1 Proportion of women of reproductive age (aged 15-49 years) who have their need for family planning satisfied with modern methods  
 No data

3.7.2 Adolescent birth rate (aged 10-14 years; aged 15-19 years) per 1,000 women in that age group  
 62.5 (2015-2020)

3.8.2 Number of people covered by health insurance or a public health system per 1,000 population  
 No data

3.c.1 Health worker density and distribution  
 No data

Goal 4. Ensure inclusive and equitable quality education and promote lifelong learning opportunities for all

4.1.1 Proportion of children and young people: (a) in grades 2/3; (b) at the end of primary; and (c) at the end of lower secondary achieving at least a minimum proficiency level in (i) reading and (ii) mathematics, by sex  
 No data

Goal 5. Achieve gender equality and empower all women and girls

5.1.1 Whether or not legal frameworks are in place to promote, enforce and monitor equality and nondiscrimination on the basis of sex  
 No data

5.2.1 Proportion of ever-partnered women and girls aged 15 years and older subjected to physical, sexual or psychological violence by a current or former intimate partner in the previous 12 months, by form of violence and by age  
 No data

5.2.2 Proportion of women and girls aged 15 years and older subjected to sexual violence by persons other than an intimate partner in the previous 12 months, by age and place of occurrence  
 No data
5.3.1 Proportion of women aged 20-24 years who were married or in a union before age 15 and before age 18

5.3.2 Proportion of girls and women aged 15-49 years who have undergone female genital mutilation/cutting, by age

5.6.1 Proportion of women aged 15-49 years who make their own informed decisions regarding sexual relations, contraceptive use and reproductive health care

5.6.2 Number of countries with laws and regulations that guarantee women aged 15-49 years access to sexual and reproductive health care, information and education

5.a.1 (a) Proportion of total agricultural population with ownership or secure rights over agricultural land, by sex; and (b) share of women among owners or rights-bearers of agricultural land, by type of tenure

5.b.1 Proportion of individuals who own a mobile telephone, by sex

Goal 8. Promote sustained, inclusive and sustainable economic growth, full and productive employment and decent work for all

8.5.2 Unemployment rate, by sex, age and persons with disabilities

Goal 10. Reduce inequality within and among countries

10.2.1 Proportion of people living below 50 per cent of median income, by age, sex and persons with disabilities

10.3.1 Proportion of the population reporting having personally felt discriminated against or harassed within the previous 12 months on the basis of a ground of discrimination prohibited under international human rights law

Goal 16. Promote peaceful and inclusive societies for sustainable development, provide access to justice for all and build effective, accountable and inclusive institutions at all levels
