Gestational limit applies

Not specified

When there is no explicit reference to an issue covered in the questionnaire in the relevant document(s), this is noted and no interpretation was made.

Related documents:

• Tuvalu Standard Treatment Guidelines 1st Edition 2010

WHO Guidance

The following descriptions and recommendations were extracted from WHO guidance on safe abortion.

The human right to life requires protection by law, including when pregnancy is life-threatening or a pregnant woman's life is otherwise endangered. Both medical and social conditions can constitute life-threatening conditions. Safe Abortion Guidelines, § 4.2.1.1.

Source document: WHO Safe Abortion Guidance (page 102)

Laws or policies that impose time limits on the length of pregnancy may have negative consequences for women, including forcing them to seek clandestine abortions and suffer social inequities. Safe Abortion Guidelines, § 4.2.1.7.

↓ Source document: WHO Safe Abortion Guidance (page 103)

Additional notes

Unlawful abortion is a crime.

The following sections of the Penal Code are relevant in regard of pregnancies after 28 weeks of gestation: 214 Killing an unborn child Any person who, with intent to destroy the life of a child capable of being born alive, by any willful act causes a child to die before it has an existence independent of its mother, is guilty of a felony known as child destruction, and shall be liable to imprisonment for life: Provided that no person shall be found guilty of an offence under this section unless it is proved that the act which caused the death of the child was not done in good faith for the purpose of preserving the life of the mother. 215 Evidence For the purposes of section 214, evidence that a woman had at any material time been pregnant for a period of 28 weeks or more shall be prima facie proof that she was at the time pregnant of a child capable of being born alive."

Other

Medical indications. Surgical operation performed in good faith and with reasonable care and skill upon any unborn child for the preservation of the mother's life, if the performance of the operation is reasonable, having regard to the patient's state at the time and to all the circumstances of the case.

Additional notes

No gestational limit specified.

Additional Requirements to Access Safe Abortion

Authorization of health professional(s)

Not specified

When there is no explicit reference to an issue covered in the questionnaire in the relevant document(s), this is noted and no interpretation was made.

Related documents:

• Tuvalu Standard Treatment Guidelines 1st Edition 2010

WHO Guidance

The following descriptions and recommendations were extracted from WHO guidance on safe abortion.

Third-party authorization should not be required for women to obtain abortion services. The requirement for authorization by hospital authorities may violate the right to privacy and women's access to health care on the basis of equality of men and women. Safe Abortion Guidelines, § 4.2.2.2.

↓ Source document: WHO Safe Abortion Guidance (page 105)

Additional notes

All medical practitioners and medical officers in Tuvalu have to be registered under the Medical and Dental Practitioners Act. Only those registered under the Act have the ability to practice medicine or surgery. The Pharmacy and Poisons Act states that anyone other than medical practitioners, or registered pharmacists acting under instruction from a medical practitioner who attends upon, prescribes for, or supplies any article such as a drug, medicine, instrument or appliance for the purpose of terminating a pregnancy is guilty of a crime [Sec.26].
