**Gestational limit**

- Weeks: No limit specified

**WHO Guidance**

The following descriptions and recommendations were extracted from WHO guidance on safe abortion.

A woman is entitled to know the status of her pregnancy and to act on this information; health protection or social reasons can be interpreted to include distress of the pregnant woman caused by the diagnosis of fetal impairment. Prenatal tests and other medical diagnostic services cannot legally be refused because the woman may decide to terminate her pregnancy. Safe Abortion Guidelines, § 4.2.1.4.

**Source document:** WHO Safe Abortion Guidance (page 103)

Laws or policies that impose time limits on the length of pregnancy may have negative consequences for women, including forcing them to seek clandestine abortions and suffer social inequities. Safe Abortion Guidelines, § 4.2.1.7.

**Number and cadre of health-care professional authorizations required**

2

**Doctor (Specialty Not Specified), Specialist Doctor, Including OB/GYN**

The 2012 Penal Code specifies that the authorization of a medical doctor is needed in case of pregnancy termination when pregnancy poses serious risk to the health of the unborn baby or the pregnant woman. This medical doctor should seek advice from one other doctor where possible. By contrast the 2019 Ministry of Health order on abortion states that the risk on the health of the pregnant person or of the foetus must be confirmed by at least two medical doctors, one being a specialist in the area of obstetrics and gynaecology.

The National Protocol for Operationalisation of Exemptions for Abortion in the Penal Code, however, states: “The medical decision for pregnancy termination when pregnancy poses severe risk to the unborn baby or to pregnant woman is made by the obstetrician and gynaecologist.”

- National Protocol for Operationalization of Exemptions for abortion in the Penal Code
- Rwanda Order on abortion MoH, 2019 (page 9)

**WHO Guidance**

The following descriptions and recommendations were extracted from WHO guidance on safe abortion.

Third-party authorization should not be required for women to obtain abortion services. The requirement for authorization by hospital authorities may violate the right to privacy and women’s access to health care on the basis of equality of men and women. Safe Abortion Guidelines, § 4.2.2.2.

**Authorization in specially licensed facilities only**

<table>
<thead>

**WHO Guidance**

The following descriptions and recommendations were extracted from WHO guidance on safe abortion.

Restrictions on the range of providers or facilities that are authorized to provide abortion reduce the availability of services and their equitable geographic distribution. Safe Abortion Guidelines, § 4.2.2.4.
Judicial authorization in cases of rape

No

Related documents:
- Rwanda Order on abortion MoH, 2019 (page 6)

WHO Guidance

The following descriptions and recommendations were extracted from WHO guidance on safe abortion.

Third-party authorization should not be required for women to obtain abortion services. Safe Abortion Guidelines, § 4.2.2.

Source document: WHO Safe Abortion Guidance (page 105)

Police report required in case of rape

No

Related documents:
- Rwanda Order on abortion MoH, 2019 (page 6)

WHO Guidance

The following descriptions and recommendations were extracted from WHO guidance on safe abortion.

Laws, policies and practices that restrict access to abortion information and services can deter women from care seeking and create a “chilling effect” (suppression of actions because of fear of reprisals or penalties) for the provision of safe, legal services. Examples of barriers include: requiring third-party authorization from one or more medical professionals or a hospital committee, court or police, parent or guardian or a woman’s partner or spouse. Safe Abortion Guidelines, § 4.2.2

Source document: WHO Safe Abortion Guidance (page 104)

Parental consent required for minors

Yes

Related documents:
- National Protocol for Operationalization of Exemptions for abortion in the Penal Code (page 20)
- Law N°49/2012 OF 22/01/2013 Establishing Medical Professional Liability Insurance (page 40)

Can another adult consent in place of a parent?

Yes

If a person who wishes to abort is a child, the application to do so is made by her legal representatives after agreeing upon it. If her legal representatives disagree among themselves or if they disagree with the child, the wish of the child prevails.

- Rwanda Order on abortion MoH, 2019 (page 7)

Age where consent not needed

18

Clinical and Service-delivery Aspects of Abortion Care

### National guidelines for induced abortion

- Yes, guidelines issued by the government

**Related documents:**
- National Protocol for Operationalization of Exemptions for abortion in the Penal Code (page 1)

### Methods allowed

- **Vacuum aspiration**
  - Yes (12-14 WEEKS)
  - National Protocol for Operationalization of Exemptions for abortion in the Penal Code (page 30)

- **Dilatation and evacuation**
  - Yes (14-22 WEEKS)
  - National Protocol for Operationalization of Exemptions for abortion in the Penal Code (page 30)

- **Combination mifepristone-misoprostol**
  - Yes (154 DAYS)
  - National Protocol for Operationalization of Exemptions for abortion in the Penal Code (page 42)

- **Misoprostol only**
  - Yes (Beyond 30 WEEKS)
  - National Protocol for Operationalization of Exemptions for abortion in the Penal Code (page 30)

- **Other (where provided)**

**WHO Guidance**

The following descriptions and recommendations were extracted from WHO guidance on safe abortion.

Vacuum aspiration is the recommended technique of surgical abortion for pregnancies of up to 12 to 14 weeks of gestation. The procedure should not be routinely completed by dilatation and sharp curettage (D&C). Safe Abortion Guidelines, Executive Summary, Box 1-Recommendation.
Dilatation and evacuation (D&E) and medical methods (mifepristone and misoprostol; misoprostol alone) are both recommended methods for abortion for gestations over 12 to 14 weeks. Safe Abortion Guidelines, Executive Summary, Box 3- Recommendation.

The recommended method for medical abortion is mifepristone followed by misoprostol (regimen differs by gestational age). Safe Abortion Guidelines, Executive Summary, Box 2- Recommendation.

Where mifepristone is not available, the recommended method for medical abortion is misoprostol (regimen differs by gestational age). Safe Abortion Guidelines, Executive Summary, Box 2- Recommendation.

The combination of mifepristone and misoprostol for medical abortion is included on the WHO model list of essential medicines. Safe Abortion Guidelines, § 2.2.5

Chemists/pharmacists can help women avoid unintended pregnancy through provision of accurate contraceptive information, pregnancy tests, contraceptive methods and referral to safe abortion services. Safe Abortion Guidelines, § 3.3.1.1.

Abortion is performed in a public or private health facility licensed as a hospital or a polyclinic by the Minister in charge of health.
### National guidelines for post-abortion care

**WHO Guidance**

The following descriptions and recommendations were extracted from WHO guidance on safe abortion.

Abortion services should be available at primary-care level, with referral systems in place for all required higher-level care. Safe Abortion Guidelines, Executive Summary, Box 6: Recommendation.

**Source document:** WHO Safe Abortion Guidance (page 18)

### Where can post-abortion care services be provided

<table>

Indicators

Country specific information related to sexual and reproductive health indications. As data for the Sustainable Development Goal (SDG) indicators related to sexual and reproductive health become available, these will be provided, through periodic updates.

Goal 1. End poverty in all its forms everywhere

1.1.1 Proportion of population below the international poverty line, by sex, age, employment status and geographical location (urban/rural) - No data

1.3.1 Proportion of population covered by social protection floors/systems, by sex, distinguishing children, unemployed persons, older persons, persons with disabilities, pregnant women, newborns, work-injury victims and the poor and the vulnerable - No data

1.a.2 Proportion of total government spending on essential services (education, health and social protection) - No data

Goal 3. Ensure healthy lives and promote well-being for all at all ages

3.1.1 Maternal mortality ratio - 248 (2017)
### Goal 3. Ensure healthy lives and promote well-being for all ages

<table>
<thead>
<tr>
<th>Indicator</th>
<th>Data</th>
</tr>
</thead>
<tbody>
<tr>
<td>3.1.2 Proportion of births attended by skilled health personnel</td>
<td>No data</td>
</tr>
<tr>
<td>3.7.1 Proportion of women of reproductive age (aged 15-49 years) who have their need for family planning satisfied with modern methods</td>
<td>No data</td>
</tr>
<tr>
<td>3.7.2 Adolescent birth rate (aged 10-14 years; aged 15-19 years) per 1,000 women in that age group</td>
<td>25.7 (2015-2020)</td>
</tr>
<tr>
<td>3.8.2 Number of people covered by health insurance or a public health system per 1,000 population</td>
<td>No data</td>

</tbody>
</table>

### Goal 8. Promote sustained, inclusive and sustainable economic growth, full and productive employment and decent work for all
8.5.2 Unemployment rate, by sex, age and persons with disabilities

No data

Goal 10. Reduce inequality within and among countries

10.2.1 Proportion of people living below 50 per cent of median income, by age, sex and persons with disabilities

No data

10.3.1 Proportion of the population reporting having personally felt discriminated against or harassed within the previous 12 months on the basis of a ground of discrimination prohibited under international human rights law

No data

Goal 16. Promote peaceful and inclusive societies for sustainable development, provide access to justice for all and build effective, accountable and inclusive institutions at all levels

16.1.3 Proportion of population subjected to physical, psychological or sexual violence in the previous 12 months

No data

16.2.2 Number of victims of human trafficking per 100,000 population, by sex, age and form of exploitation

No data

16.2.3 Proportion of young women and men aged 18-29 years who experienced sexual violence by age 18

No data

16.3.1 Proportion of victims of violence in the previous 12 months who reported their victimization to competent authorities or other officially recognized conflict resolution mechanisms

No data

16.5.1 Proportion of persons who had at least one contact with a public official and who paid a bribe to a public official, or were asked for a bribe by those public officials, during the previous 12 months

No data

16.6.1 Primary government expenditures as a proportion of original approved budget, by sector (or by budget codes or similar)

No data

16.6.2 Proportion of the population satisfied with their last experience of public services

No data

16.7.1 Proportions of positions (by sex, age, persons with disabilities and population groups) in public institutions (national and local legislatures, public service, and judiciary) compared to national distributions

No data

16.9.1 Proportion of children under 5 years of age whose births have been registered with a civil authority, by age

No data

16.10.1 Number of verified cases of killing, kidnapping, enforced disappearance, arbitrary detention and torture of journalists, associated media personnel, trade unionists and human rights advocates in the previous 12 months

No data

16.b.1 Proportion of population reporting having personally felt discriminated against or harassed in the previous 12 months on the basis of a ground of discrimination prohibited under international human rights law

No data

Goal 17. Strengthen the means of implementation and revitalize the Global Partnership for Sustainable Development

17.8.1 Proportion of individuals using the Internet

No data
