The following descriptions and recommendations were extracted from WHO guidance on safe abortion.

WHO defines health for member states as a state of complete physical, mental and social well-being and not merely the absence of disease or infirmity. Safe Abortion Guidelines, § 4.2.1.5.

Source document: WHO Safe Abortion Guidance (page 103)

Additional notes

As confirmed by the Parliamentary Division of the Law Officers' Department, the Offences Against the Person Act 1861 is in force in Sierra Leone.

Foetal impairment

Not specified

When there is no explicit reference to an issue covered in the questionnaire in the relevant document(s), this is noted and no interpretation was made.

Related documents:
- Offences Against the Person Act, 1861

WHO Guidance

The following descriptions and recommendations were extracted from WHO guidance on safe abortion.

A woman is entitled to know the status of her pregnancy and to act on this information; health protection or social reasons can be interpreted to include distress of the pregnant woman caused by the diagnosis of fetal impairment. Prenatal tests and other medical diagnostic services cannot legally be refused because the woman may decide to terminate her pregnancy. Safe Abortion Guidelines, § 4.2.1.4.

Source document: WHO Safe Abortion Guidance (page 103)

Additional notes

As confirmed by the Parliamentary Division of the Law Officers' Department, the Offences Against the Person Act 1861 is in force in Sierra Leone.

Rape

Not specified

When there is no explicit reference to an issue covered in the questionnaire in the relevant document(s), this is noted and no interpretation was made.

Related documents:
- Offences Against the Person Act, 1861

WHO Guidance

The following descriptions and recommendations were extracted from WHO guidance on safe abortion.

The protection of women from cruel, inhuman and degrading treatment requires that those who have become pregnant as the result of coerced or forced sexual acts can lawfully access safe abortion services. Prompt, safe abortion services should be provided on the basis of a woman's complaint rather than requiring forensic evidence or police examination. Safe Abortion Guidelines, § 4.2.1.3.

Source document: WHO Safe Abortion Guidance (page 102)

Additional notes

As confirmed by the Parliamentary Division of the Law Officers' Department, the Offences Against the Person Act 1861 is in force in Sierra Leone.

Incest

Not specified

When there is no explicit reference to an issue covered in the questionnaire in the relevant document(s), this is noted and no interpretation was made.

Related documents:
The protection of women from cruel, inhuman and degrading treatment requires that those who have become pregnant as the result of coerced or forced sexual acts can lawfully access safe abortion services. Prompt, safe abortion services should be provided on the basis of a woman’s complaint rather than requiring forensic evidence or police examination. Safe Abortion Guidelines, § 4.2.1.3.

Source document: WHO Safe Abortion Guidance (page 102)

As confirmed by the Parliamentary Division of the Law Officers’ Department, the Offences Against the Person Act 1861 is in force in Sierra Leone.

Physical health

The following descriptions and recommendations were extracted from WHO guidance on safe abortion.

Physical health is widely understood to include conditions that aggravate pregnancy and those aggravated by pregnancy. Safe Abortion Guidelines, § 4.2.1.2.

Authorization of health professional(s)

No data found

WHO Guidance

The CEDEAO/ECOWAS Harmonised Code of Ethics and Practice (2013) (which has no indication of being an official government document) states in Article 21 in Section I (general duties of practitioners): “Voluntary interruption of pregnancy cannot be practiced unless otherwise provided for by law. However, the practitioner is always free to refuse to perform such an act, but he should inform the person concerned of the condition and month of pregnancy as provided for by law.” However, in Section V which deals with practitioners’ duties towards patients, the Code states in Article 141: “A therapeutic abortion may be performed if the intervention is the only means to save the life of the mother. When the safety of the mother that is seriously threatened requires a termination of pregnancy or the utilization of a therapeutic intervention that is capable of interrupting the pregnancy, the practitioner must consult at least two other doctors chosen for their competence, who, after review of the case, should jointly make a decision. A copy of the report of the consultation should be given to the patient and a copy kept by each of the two consultants. Also a memorandum of the decision that does not mention the name of the patient must be sent by registered mail to the Council. If there is a therapeutic indication for the termination of pregnancy, the practitioner must yield to any refusal by the patient who is duly informed. This rule does not apply in the case of emergency and when the patient is incapable of giving consent.” The Code of Ethics is accessible at: http://www.medecins.ci/documents/Code-Harmonise-CEDEAO.pdf.
The following descriptions and recommendations were extracted from WHO guidance on safe abortion.

Third-party authorization should not be required for women to obtain abortion services. The requirement for authorization by hospital authorities may violate the right to privacy and women's access to health care on the basis of equality of men and women. Safe Abortion Guidelines, § 4.2.2.

**Additional notes**

The CEDEAO/ECOWAS Harmonised Code of Ethics and Practice (2013) (which has no indication of being an official government document) states in Article 21 in Section I (general duties of practitioners): "Voluntary interruption of pregnancy cannot be practiced unless otherwise provided for by law. However, the practitioner is always free to refuse to perform such an act, but he should inform the person concerned of the condition and month of pregnancy as provided for by law." However, in Section V which deals with practitioners' duties towards patients, the Code states in Article 141: "A therapeutic abortion may be performed if the intervention is the only means to save the life of the mother. When the safety of the mother that is seriously threatened requires a termination of pregnancy or the utilization of a therapeutic intervention that is capable of interrupting the pregnancy, the practitioner must consult at least two other doctors chosen for their competence, who, after review of the case, should jointly make a decision. A copy of the report of the consultation should be given to the patient and a copy kept by each of the two consultants. Also a memorandum of the decision that does not mention the name of the patient must be sent by registered mail to the Council. If there is a therapeutic indication for the termination of pregnancy, the practitioner must yield to any refusal by the patient who is duly informed. This rule does not apply in the case of emergency and when the patient is incapable of giving consent." | Police report required in case of rape | No data found |
| Parental consent | No data found |

**WHO Guidance**

The following descriptions and recommendations were extracted from WHO guidance on safe abortion.

Restrictions on the range of providers or facilities that are authorized to provide abortion reduce the availability of services and their equitable geographic distribution. Safe Abortion Guidelines, § 4.2.2.4.

**Source document:** WHO Safe Abortion Guidance (page 105)

Laws, policies and practices that restrict access to abortion information and services can deter women from care seeking and create a "chilling effect" (suppression of actions because of fear of reprisals or penalties) for the provision of safe, legal services. Examples of barriers include: requiring third-party authorization from one or more medical professionals or a hospital committee, court or police, parent or guardian or a woman's partner or spouse. Safe Abortion Guidelines, § 4.2.2

WHO Guidance

The following descriptions and recommendations were extracted from WHO guidance on safe abortion.

Vacuum aspiration is the recommended technique of surgical abortion for pregnancies of up to 12 to 14 weeks of gestation. The procedure should not be routinely completed by dilatation and sharp curettage (D&C). Safe Abortion Guidelines, Executive Summary, Box 1-Recommendation.

- **Source document**: WHO Safe Abortion Guidance (page 123)

Dilatation and evacuation (D&E) and medical methods (mifepristone and misoprostol; misoprostol alone) are both recommended methods for abortion for gestations over 12 to 14 weeks. Safe Abortion Guidelines, Executive Summary, Box 3-Recommendation.

- **Source document**: WHO Safe Abortion Guidance (page 123)

The recommended method for medical abortion is mifepristone followed by misoprostol (regimen differs by gestational age). Safe Abortion Guidelines, Executive Summary, Box 2-Recommendation.

- **Source document**: WHO Safe Abortion Guidance (page 13)

Where mifepristone is not available, the recommended method for medical abortion is misoprostol (regimen differs by gestational age). Safe Abortion Guidelines, Executive Summary, Box 2-Recommendation.

- **Source document**: WHO Safe Abortion Guidance (page 14)

### CEDEAO/ECOWAS Harmonised Code of Ethics and Practice (2013)

- States in Article 21 in Section I (general duties of practitioners): “Voluntary interruption of pregnancy cannot be practiced unless otherwise provided for by law. However, the practitioner is always free to refuse to perform such an act, but he should inform the person concerned of the condition and month of pregnancy as provided for by law." However, in Section V which deals with practitioners’ duties towards patients, the Code states in Article 141: “A therapeutic abortion may be performed if the intervention is the only means to save the life of the mother. When the safety of the mother that is seriously threatened requires a termination of pregnancy or the utilization of a therapeutic intervention that is capable of interrupting the pregnancy, the practitioner must consult at least two other doctors chosen for their competence, who, after review of the case, should jointly make a decision. A copy of the report of the consultation should be given to the patient and a copy kept by each of the two consultants. Also a memorandum of the decision that does not mention the name of the patient must be sent by registered mail to the Council. If there is a therapeutic indication for the termination of pregnancy, the practitioner must yield to any refusal by the patient who is duly informed. This rule does not apply in the case of emergency and when the patient is incapable of giving consent.” The Code of Ethics is accessible at: [http://www.medecins.ci/documents/Code-Harmonise-CEDEAO.pdf](http://www.medecins.ci/documents/Code-Harmonise-CEDEAO.pdf).
The following descriptions and recommendations were extracted from WHO guidance on safe abortion.

Subject to gestational age and method, abortion care can be safely provided by any properly trained health-care provider, including specialist doctors, non-specialist doctors; associate and advanced associate clinicians; midwives; and nurses. Health Worker Roles in Safe Abortion Care, p 33- Recommendation.

Source document: Health Worker Roles in Safe Abortion Care and Post-Abortion Contraception (page 33)

Conscientious Objection

Public sector providers

No data found

WHO Guidance

The following descriptions and recommendations were extracted from WHO guidance on safe abortion.

Health-care professionals who claim conscientious objection must refer the woman to another willing and trained provider in the same, or another easily accessible health-care facility. Where referral is not possible, the health-care professional who objects, must provide safe abortion to save the woman’s life, to prevent serious injury to her health and provide urgent care when women present with complications from an unsafe or illegal abortion. Safe Abortion Guidelines, § 4.2.2.5.

Source document: WHO Safe Abortion Guidance (page 106)

Additional notes

The CEDEAO/ECOWAS Harmonised Code of Ethics and Practice (2013) (which has no indication of being an official government document) states in Article 21 in Section I (general duties of practitioners): “Voluntary interruption of pregnancy cannot be practiced unless otherwise provided for by law. However, the practitioner is always free to refuse to perform such an act, but he should inform the person concerned of the condition and month of pregnancy as provided for by law.” In addition, Article 141 in Section V (practitioners’ duties towards patients) states: “If the practitioner considers that his conviction does not allow him to advise or perform an abortion, he may withdraw while ensuring the continuity of care by a qualified colleague.” The Code of Ethics is accessible at: http://www.medecins.ci/documents/Code-Harmonise-CEDEAO.pdf.

</tr>
<tr>
<td>3.7.1 Proportion of women of reproductive age (aged 15-49 years) who have their need for family planning satisfied with modern methods</td>
<td>No data</td>
</tr>
</tbody>
</table>
3.7.2 Adolescent birth rate (aged 10-14 years; aged 15-19 years) per 1,000 women in that age group

112.8 (2015-2020)

3.8.2 Number of people covered by health insurance or a public health system per 1,000 population

No data

3.c.1 Health worker density and distribution

No data

Goal 4. Ensure inclusive and equitable quality education and promote lifelong learning opportunities for all

4.1.1 Proportion of children and young people: (a) in grades 2/3; (b) at the end of primary; and (c) at the end of lower secondary achieving at least a minimum proficiency level in (i) reading and (ii) mathematics, by sex

No data

Goal 5. Achieve gender equality and empower all women and girls

5.1.1 Whether or not legal frameworks are in place to promote, enforce and monitor equality and nondiscrimination on the basis of sex

No data

5.2.1 Proportion of ever-partnered women and girls aged 15 years and older subjected to physical, sexual or psychological violence by a current or former intimate partner in the previous 12 months, by form of violence and by age

No data

5.2.2 Proportion of women and girls aged 15 years and older subjected to sexual violence by persons other than an intimate partner in the previous 12 months, by age and place of occurrence

No data

5.3.1 Proportion of women aged 20-24 years who were married or in a union before age 15 and before age 18

No data

5.3.2 Proportion of girls and women aged 15-49 years who have undergone female genital mutilation/cutting, by age

No data

5.6.1 Proportion of women aged 15-49 years who make their own informed decisions regarding sexual relations, contraceptive use and reproductive health care

No data

5.6.2 Number of countries with laws and regulations that guarantee women aged 15-49 years access to sexual and reproductive health care, information and education

No data

5.a.1 (a) Proportion of total agricultural population with ownership or secure rights over agricultural land, by sex; and (b) share of women among owners or rights-bearers of agricultural land, by type of tenure

No data

5.b.1 Proportion of individuals who own a mobile telephone, by sex

No data

Goal 8. Promote sustained, inclusive and sustainable economic growth, full and productive employment and decent work for all

8.5.2 Unemployment rate, by sex, age and persons with disabilities

No data

Goal 10. Reduce inequality within and among countries

10.2.1 Proportion of people living below 50 per cent of median income, by age, sex and persons with disabilities

No data
10.3.1 Proportion of the population reporting having personally felt discriminated against or harassed within the previous 12 months on the basis of a ground of discrimination prohibited under international human rights law

No data

Goal 16. Promote peaceful and inclusive societies for sustainable development, provide access to justice for all and build effective, accountable and inclusive institutions at all levels

16.1.3 Proportion of population subjected to physical, psychological or sexual violence in the previous 12 months

No data

16.2.2 Number of victims of human trafficking per 100,000 population, by sex, age and form of exploitation

No data

16.2.3 Proportion of young women and men aged 18-29 years who experienced sexual violence by age 18

No data

16.3.1 Proportion of victims of violence in the previous 12 months who reported their victimization to competent authorities or other officially recognized conflict resolution mechanisms

No data
