| Health |

| No |

**Related documents:**
- The Constitution, 2005 (page 15)

#### WHO Guidance

The following descriptions and recommendations were extracted from WHO guidance on safe abortion.

The fulfillment of human rights requires that women can access safe abortion when it is indicated to protect their health. WHO defines health for member states as a state of complete physical, mental and social well-being and not merely the absence of disease or infirmity. Safe Abortion Guidelines, § 4.2.1.2.

- Source document: WHO Safe Abortion Guidance (page 102)
### Additional Requirements to Access Safe Abortion

#### Life

**Related documents:**
- The Constitution, 2005 (page 15)

**Gestational limit applies**
- **Not specified**
  - When there is no explicit reference to an issue covered in the questionnaire in the relevant document(s), this is noted and no interpretation was made.

**Related documents:**
- The Constitution, 2005
- National Policy on Sexual and Reproductive Health 2005

#### WHO Guidance

The following descriptions and recommendations were extracted from WHO guidance on safe abortion.

The human right to life requires protection by law, including when pregnancy is life-threatening or a pregnant woman’s life is otherwise endangered. Both medical and social conditions can constitute life-threatening conditions. Safe Abortion Guidelines, § 4.2.1.1.

- **Source document:** WHO Safe Abortion Guidance (page 102)

Laws or policies that impose time limits on the length of pregnancy may have negative consequences for women, including forcing them to seek clandestine abortions and suffer social inequities. Safe Abortion Guidelines, § 4.2.1.7.

- **Source document:** WHO Safe Abortion Guidance (page 103)

#### Other

- Unlawful sexual intercourse with a mentally retarded female.
- On such other grounds as Parliament may prescribe.

**Related documents:**
- The Constitution, 2005 (page 15)

#### Additional notes

- No gestational limit specified.

---

### Authorization of health professional(s)

**Yes**

**Related documents:**
- The Constitution, 2005 (page 15)

#### Number and cadre of health-care professional authorizations required

1
Doctor (Specialty Not Specified)

**Related documents:**
- The Constitution, 2005 (page 15)

#### WHO Guidance

The following descriptions and recommendations were extracted from WHO guidance on safe abortion.

Third-party authorization should not be required for women to obtain abortion services. The requirement for authorization by hospital authorities may violate the right to privacy and women’s access to health care on the basis of equality of men and women. Safe Abortion Guidelines, § 4.2.2.2.

- **Source document:** WHO Safe Abortion Guidance (page 105)

#### Additional notes

Certification by a doctor is needed for abortions on medical and therapeutic grounds.

---

### Authorization in specially licensed facilities only

**Not specified**

- When there is no explicit reference to an issue covered in the questionnaire in the relevant document(s), this is noted and no interpretation was made.

**Related documents:**
- The Constitution, 2005
- National Policy on Sexual and Reproductive Health 2005

#### WHO Guidance

The following descriptions and recommendations were extracted from WHO guidance on safe abortion.

Restrictions on the range of providers or facilities that are authorized to provide abortion reduce the availability of services and their equitable geographic distribution. Safe Abortion Guidelines, § 4.2.2.4.

- **Source document:** WHO Safe Abortion Guidance (page 106)
### Judicial Authorization for Minors

**Not specified**
When there is no explicit reference to an issue covered in the questionnaire in the relevant document(s), this is noted and no interpretation was made.

**Related documents:**
- The Constitution, 2005
- National Policy on Sexual and Reproductive Health 2005

**WHO Guidance**
The following descriptions and recommendations were extracted from WHO guidance on safe abortion.

Third-party authorization should not be required for minors to obtain abortion services. Safe Abortion Guidelines, § 4.2.2.

Source document: WHO Safe Abortion Guidance (page 105)

### Judicial Authorization in Cases of Rape

**Not specified**
When there is no explicit reference to an issue covered in the questionnaire in the relevant document(s), this is noted and no interpretation was made.

**Related documents:**
- The Constitution, 2005
- National Policy on Sexual and Reproductive Health 2005

**WHO Guidance**
The following descriptions and recommendations were extracted from WHO guidance on safe abortion.

Laws, policies and practices that restrict access to abortion information and services can deter women from care seeking and create a “chilling effect” (suppression of actions because of fear of reprisals or penalties) for the provision of safe, legal services. Examples of barriers include: requiring third-party authorization from one or more medical professionals or a hospital committee, court or police, parent or guardian or a woman’s partner or spouse. Safe Abortion Guidelines, § 4.2.2

Source document: WHO Safe Abortion Guidance (page 104)

### Police Report Required in Case of Rape

**Not specified**
When there is no explicit reference to an issue covered in the questionnaire in the relevant document(s), this is noted and no interpretation was made.

**Related documents:**
- The Constitution, 2005
- National Policy on Sexual and Reproductive Health 2005

**WHO Guidance**

Ultrasound images or listen to foetal heartbeat required

- Not specified
  - When there is no explicit reference to an issue covered in the questionnaire in the relevant document(s), this is noted and no interpretation was made.

  Related documents:
  - The Constitution, 2005
  - National Policy on Sexual and Reproductive Health 2005

WHO Guidance

The following descriptions and recommendations were extracted from WHO guidance on safe abortion.

Regulatory, policy and programmatic barriers, one example of which is the requirement for mandatory ultrasound prior to abortion, that hinder access to and timely provision of safe abortion care should be removed. Safe Abortion Guidelines, Executive Summary, Box 7 - Recommendation.

Source document: WHO Safe Abortion Guidance (page 19)

Compulsory counselling

- Not specified
  - When there is no explicit reference to an issue covered in the questionnaire in the relevant document(s), this is noted and no interpretation was made.

  Related documents:
  - The Constitution, 2005
  - National Policy on Sexual and Reproductive Health 2005

WHO Guidance

The following descriptions and recommendations were extracted from WHO guidance on safe abortion.

Many women have made a decision to have an abortion before seeking care, and this decision should be respected without subjecting a woman to mandatory counselling. Provision of counselling to women who desire it should be voluntary, confidential, non-directive and by a trained person. Safe Abortion Guidelines, § 2.1.8.1.

Source document: WHO Safe Abortion Guidance (page 46)

Compulsory waiting period

- Not specified
  - When there is no explicit reference to an issue covered in the questionnaire in the relevant document(s), this is noted and no interpretation was made.

  Related documents:
  - The Constitution, 2005
  - National Policy on Sexual and Reproductive Health 2005

WHO Guidance

The following descriptions and recommendations were extracted from WHO guidance on safe abortion.

States should consider eliminating waiting periods that are not medically required, and expanding services to serve all eligible women promptly. Safe Abortion Guidelines, § 4.2.2.6.

Source document: WHO Safe Abortion Guidance (page 107)

Mandatory HIV screening test

- Not specified
  - When there is no explicit reference to an issue covered in the questionnaire in the relevant document(s), this is noted and no interpretation was made.

  Related documents:
  - The Constitution, 2005
  - National Policy on Sexual and Reproductive Health 2005

WHO Guidance

The following descriptions and recommendations were extracted from WHO guidance on safe abortion.

Requirements for HIV and other tests that are not clinically indicated are potential service-delivery barriers. Safe Abortion Guidelines, p 88.

Source document: WHO Safe Abortion Guidance (page 88)

Other mandatory STI screening tests

- Not specified
  - When there is no explicit reference to an issue covered in the questionnaire in the relevant document(s), this is noted and no interpretation was made.

  Related documents:
  - The Constitution, 2005
  - National Policy on Sexual and Reproductive Health 2005

WHO Guidance

The following descriptions and recommendations were extracted from WHO guidance on safe abortion.

Requirements for HIV and other tests that are not clinically indicated are potential service-delivery barriers. Safe Abortion Guidelines, p 88.

Source document: WHO Safe Abortion Guidance (page 88)
### Clinical and Service-delivery Aspects of Abortion Care

#### Prohibition of sex-selective abortion

**Not specified**

When there is no explicit reference to an issue covered in the questionnaire in the relevant document(s), this is noted and no interpretation was made.

**Related documents:**
- The Constitution, 2005
- National Policy on Sexual and Reproductive Health 2005

#### Restrictions on information provided to the public

**WHO Guidance**

The following descriptions and recommendations were extracted from WHO guidance on safe abortion.

In situations where abortion is restricted for sex selection purposes, terminating a pregnancy for this reason is likely to involve an unsafe procedure carrying high risks. Any policies or guidelines on the use of technology in obstetric and fetal medicine should take into account the need to ensure women's access to safe abortion and other services - efforts to manage or limit sex selection should also not hamper or limit access to safe abortion services. Preventing gender-biased sex selection: an interagency statement, p 10 - Recommendation.

**Source document:** Preventing Gender-Biased Sex Selection (page 17)

#### Restrictions on methods to detect sex of the foetus

**WHO Guidance**

The following descriptions and recommendations were extracted from WHO guidance on safe abortion.

States should refrain from limiting access to means of maintaining sexual and reproductive health, including censoring, withholding or intentionally misrepresenting health-related information.

**Source document:** WHO Safe Abortion Guidance (page 107)

#### Other

**WHO Guidance**

The following descriptions and recommendations were extracted from WHO guidance on safe abortion.

A woman is entitled to know the status of her pregnancy and to act on this information. Prenatal tests and other medical diagnostic services cannot legally be refused because the woman may decide to terminate her pregnancy. Safe Abortion Guidelines, § 4.2.1.4.

**Source document:** WHO Safe Abortion Guidance (page 103)

#### National guidelines for induced abortion

**WHO Guidance**

The following descriptions and recommendations were extracted from WHO guidance on safe abortion.

Standards and guidelines should be developed and updated with the intent of eliminating barriers to obtaining the highest attainable standard of sexual and reproductive health. Safe Abortion Guidelines, § 3.3. Standards and guidelines should cover: types of abortion service, where and by whom they can be provided; essential equipment, instruments, medications, supplies and facility capabilities; referral mechanisms; respect for women's informed decision-making, autonomy, confidentiality and privacy. Safe Abortion Guidelines, p. 63.

### Country recognized approval (mifepristone / mife-misoprostol)

No

### Related documents:
- Standard Treatment Guidelines and Essential Medicines List of Common Medical Conditions (page 261)

### WHO Guidance

The following descriptions and recommendations were extracted from WHO guidance on safe abortion.

Vacuum aspiration is the recommended technique of surgical abortion for pregnancies of up to 12 to 14 weeks of gestation. The procedure should not be routinely completed by dilatation and sharp curettage (D&C). Safe Abortion Guidelines, Executive Summary, Box 1- Recommendation.

- Source document: WHO Safe Abortion Guidance (page 123)

Dilatation and evacuation (D&E) and medical methods (mifepristone and misoprostol; misoprostol alone) are both recommended methods for abortion for gestations over 12 to 14 weeks. Safe Abortion Guidelines, Executive Summary, Box 3- Recommendation.

- Source document: WHO Safe Abortion Guidance (page 123)

The recommended method for medical abortion is misoprostol followed by misoprostol (regimen differs by gestational age). Safe Abortion Guidelines, Executive Summary, Box 2- Recommendation.

- Source document: WHO Safe Abortion Guidance (page 13)

Where mifepristone is not available, the recommended method for medical abortion is misoprostol (regimen differs by gestational age). Safe Abortion Guidelines, Executive Summary, Box 2- Recommendation.

- Source document: WHO Safe Abortion Guidance (page 14)

### Country recognized approval (misoprostol)

Yes, for gynaecological indications

### Related documents:
- Standard Treatment Guidelines and Essential Medicines List of Common Medical Conditions (page 270)

### Misoprostol allowed to be sold or distributed by pharmacies or drug stores

Not specified

When there is no explicit reference to an issue covered in the questionnaire in the relevant document(s), this is noted and no interpretation was made.

The Essential Medicines List stipulates that Misoprostol is to be “distributed on demand by specialist doctors.”

- Standard Treatment Guidelines and Essential Medicines List of Common Medical Conditions
- Standard Treatment Guidelines and Essential Medicines List of Common Medical Conditions (page 270)

### WHO Guidance

The following descriptions and recommendations were extracted from WHO guidance on safe abortion.

The combination of mifepristone and misoprostol for medical abortion is included on the WHO model list of essential medicines. Safe Abortion Guidelines, § 2.2.5

WHO Guidance

The following descriptions and recommendations were extracted from WHO guidance on safe abortion.

Abortion facilities within both the public and private sectors should be available at all levels of the health system, with appropriate referral mechanisms between facilities. Safe Abortion Guidelines, § 3.3.1.

Source document: WHO Safe Abortion Guidance (page 75)
### Public sector providers

| Source document: | WHO Safe Abortion Guidance (page 106) |

The following descriptions and recommendations were extracted from WHO guidance on safe abortion.

Health-care professionals who claim conscientious objection must refer the woman to another willing and trained provider in the same, or another easily accessible health-care facility. Where referral is not possible, the health-care professional who objects, must provide safe abortion to save the woman's life, to prevent serious injury to her health and provide urgent care when women present with complications from an unsafe or illegal abortion. Safe Abortion Guidelines, § 4.2.2.5.

### Private sector providers

| Source document: | WHO Safe Abortion Guidance (page 106) |

The following descriptions and recommendations were extracted from WHO guidance on safe abortion.

Health-care professionals who claim conscientious objection must refer the woman to another willing and trained provider in the same, or another easily accessible health-care facility. Where referral is not possible, the health-care professional who objects, must provide safe abortion to save the woman's life, to prevent serious injury to her health and provide urgent care when women present with complications from an unsafe or illegal abortion. Safe Abortion Guidelines, § 4.2.2.5.

### Provider type not specified

| Source document: | WHO Safe Abortion Guidance (page 106) |

The following descriptions and recommendations were extracted from WHO guidance on safe abortion.

Health-care professionals who claim conscientious objection must refer the woman to another willing and trained provider in the same, or another easily accessible health-care facility. Where referral is not possible, the health-care professional who objects, must provide safe abortion to save the woman's life, to prevent serious injury to her health and provide urgent care when women present with complications from an unsafe or illegal abortion. Safe Abortion Guidelines, § 4.2.2.5.

### Neither Type of Provider Permitted

| Source document: | WHO Safe Abortion Guidance (page 106) |

The following descriptions and recommendations were extracted from WHO guidance on safe abortion.

Health-care professionals who claim conscientious objection must refer the woman to another willing and trained provider in the same, or another easily accessible health-care facility. Where referral is not possible, the health-care professional who objects, must provide safe abortion to save the woman's life, to prevent serious injury to her health and provide urgent care when women present with complications from an unsafe or illegal abortion. Safe Abortion Guidelines, § 4.2.2.5.

### Public facilities

| Source document: | WHO Safe Abortion Guidance (page 106) |

The respect, protection and fulfilment of human rights require that governments ensure abortion services, that are allowable by law, are accessible in practice. Safe Abortion Guidelines, § 4.2.2.5.
### Indicators

Country specific information related to sexual and reproductive health indications. As data for the Sustainable Development Goal (SDG) indicators related to sexual and reproductive health become available, these will be provided, through periodic updates.

#### Goal 1. End poverty in all its forms everywhere

1.1.1 Proportion of population below the international poverty line, by sex, age, employment status and geographical location (urban/rural)

No data

1.1.2 Proportion of population covered by social protection floors/systems, by sex, distinguishing children, unemployed persons, older persons, persons with disabilities, pregnant women, newborns, work-injury victims and the poor and the vulnerable

No data

1.1.2 Proportion of total government spending on essential services (education, health and social protection)

No data

#### Goal 3. Ensure healthy lives and promote well-being for all at all ages

3.1.1 Maternal mortality ratio

No data

3.1.2 Proportion of births attended by skilled health personnel

No data

3.1.7 Proportion of women of reproductive age (aged 15-49 years) who have their need for family planning satisfied with modern methods

No data
3.7.2 Adolescent birth rate (aged 10-14 years; aged 15-19 years) per 1,000 women in that age group  

77 (2015-2020)

3.8.2 Number of people covered by health insurance or a public health system per 1,000 population

No data

3.c.1 Health worker density and distribution

No data

Goal 4. Ensure inclusive and equitable quality education and promote lifelong learning opportunities for all

4.1.1 Proportion of children and young people: (a) in grades 2/3; (b) at the end of primary; and (c) at the end of lower secondary achieving at least a minimum proficiency level in (i) reading and (ii) mathematics, by sex

No data

Goal 5. Achieve gender equality and empower all women and girls

5.1.1 Whether or not legal frameworks are in place to promote, enforce and monitor equality and nondiscrimination on the basis of sex

No data

5.2.1 Proportion of ever-partnered women and girls aged 15 years and older subjected to physical, sexual or psychological violence by a current or former intimate partner in the previous 12 months, by form of violence and by age

No data

5.2.2 Proportion of women and girls aged 15 years and older subjected to sexual violence by persons other than an intimate partner in the previous 12 months, by age and place of occurrence

No data

5.3.1 Proportion of women aged 20-24 years who were married or in a union before age 15 and before age 18

No data

5.3.2 Proportion of girls and women aged 15-49 years who have undergone female genital mutilation/cutting, by age

No data

5.6.1 Proportion of women aged 15-49 years who make their own informed decisions regarding sexual relations, contraceptive use and reproductive health care

No data

5.6.2 Number of countries with laws and regulations that guarantee women aged 15-49 years access to sexual and reproductive health care, information and education

No data

5.a.1 (a) Proportion of total agricultural population with ownership or secure rights over agricultural land, by sex; and (b) share of women among owners or rights-bearers of agricultural land, by type of tenure

No data

5.b.1 Proportion of individuals who own a mobile telephone, by sex

No data

Goal 8. Promote sustained, inclusive and sustainable economic growth, full and productive employment and decent work for all

8.5.2 Unemployment rate, by sex, age and persons with disabilities

No data

Goal 10. Reduce inequality within and among countries

10.2.1 Proportion of people living below 50 per cent of median income, by age, sex and persons with disabilities

No data

10.3.1 Proportion of the population reporting having personally felt discriminated against or harassed within the previous 12 months on the basis of a ground of discrimination prohibited under international human rights law

No data

Goal 16. Promote peaceful and inclusive societies for sustainable development, provide access to justice for all and build effective, accountable and inclusive institutions at all levels

16.1.3 Proportion of population subjected to physical, psychological or sexual violence in the previous 12 months

No data

16.2.2 Number of victims of human trafficking per 100,000 population, by sex, age and form of exploitation

No data

16.2.3 Proportion of young women and men aged 18-29 years who experienced sexual violence by age 18

No data
