WHO Guidance

The following descriptions and recommendations were extracted from WHO guidance on safe abortion.

WHO defines health for member states as a state of complete physical, mental and social well-being and not merely the absence of disease or infirmity. Safe Abortion Guidelines, § 4.2.1.5.

Source document: WHO Safe Abortion Guidance (page 103)
The Constitution states: “No person has the right to terminate the life of an unborn child except as may be authorized by law.” The National Policy Guidelines and Service Standards for Sexual and Reproductive Health and Rights (Ministry of Health 2006) list the following as “people who can get services for termination of pregnancy”: severe maternal illnesses threatening the health of a pregnant woman e.g. severe cardiac disease, renal disease, severe pre-eclampsia and eclampsia; severe foetal abnormalities which are not compatible with extra-uterine life e.g. molar pregnancy, anencephaly; cancer cervix; HIV-positive women requesting for termination; rape, incest and defilement. These are not noted as legal grounds on which induced abortion is permitted since the document in which they are set out is a policy document and not a law, as specified in the Constitution. It is not clear whether the 2006 version, or later versions, are currently in force.

**WHO Guidance**

The following descriptions and recommendations were extracted from WHO guidance on safe abortion.

A woman is entitled to know the status of her pregnancy and to act on this information; health protection or social reasons can be interpreted to include distress of the pregnant woman caused by the diagnosis of fetal impairment. Prenatal tests and other medical diagnostic services cannot legally be refused because the woman may decide to terminate her pregnancy. Safe Abortion Guidelines, §4.2.1.3.

- **Source document**: WHO Safe Abortion Guidance (page 103)

**Related documents:**
- Constitution, 1995 (page 36)
- Penal Code Act (page 63)

**Rape**

The Constitution states: “No person has the right to terminate the life of an unborn child except as may be authorized by law.” The National Policy Guidelines and Service Standards for Sexual and Reproductive Health and Rights (Ministry of Health 2006) list the following as “people who can get services for termination of pregnancy”: severe maternal illnesses threatening the health of a pregnant woman e.g. severe cardiac disease, renal disease, severe pre-eclampsia and eclampsia; severe foetal abnormalities which are not compatible with extra-uterine life e.g. molar pregnancy, anencephaly; cancer cervix; HIV-positive women requesting for termination; rape, incest and defilement. These are not noted as legal grounds on which induced abortion is permitted since the document in which they are set out is a policy document and not a law, as specified in the Constitution. It is not clear whether the 2006 version, or later versions, are currently in force.

**WHO Guidance**

The following descriptions and recommendations were extracted from WHO guidance on safe abortion.

The protection of women from cruel, inhuman and degrading treatment requires that those who have become pregnant as the result of coerced or forced sexual acts can lawfully access safe abortion services. Prompt, safe abortion services should be provided on the basis of a woman’s complaint rather than requiring forensic evidence or police examination. Safe Abortion Guidelines, §4.2.1.3.

- **Source document**: WHO Safe Abortion Guidance (page 102)

**Related documents:**
- Constitution, 1995 (page 36)
- Penal Code Act (page 63)

**Incest**

The Constitution states: “No person has the right to terminate the life of an unborn child except as may be authorized by law.” The National Policy Guidelines and Service Standards for Sexual and Reproductive Health and Rights (Ministry of Health 2006) list the following as “people who can get services for termination of pregnancy”: severe maternal illnesses threatening the health of a pregnant woman e.g. severe cardiac disease, renal disease, severe pre-eclampsia and eclampsia; severe foetal abnormalities which are not compatible with extra-uterine life e.g. molar pregnancy, anencephaly; cancer cervix; HIV-positive women requesting for termination; rape, incest and defilement. These are not noted as legal grounds on which induced abortion is permitted since the document in which they are set out is a policy document and not a law, as specified in the Constitution. It is not clear whether the 2006 version, or later versions, are currently in force.

**WHO Guidance**

Life

Yes

Gestational limit applies

Not specified
When there is no explicit reference to an issue covered in the questionnaire in the relevant document(s), this is noted and no interpretation was made.

Related documents:
- Constitution, 1995
- Penal Code Act

WHO Guidance
The following descriptions and recommendations were extracted from WHO guidance on safe abortion.

The human right to life requires protection by law, including when pregnancy is life-threatening or a pregnant woman’s life is otherwise endangered. Both medical and social conditions can constitute life-threatening conditions. Safe Abortion Guidelines, § 4.2.1.1.

Source document: WHO Safe Abortion Guidance (page 102)

Laws or policies that impose time limits on the length of pregnancy may have negative consequences for women, including forcing them to seek clandestine abortions and suffer social inequities. Safe Abortion Guidelines, § 4.2.1.7.

Source document: WHO Safe Abortion Guidance (page 103)

Additional notes

The Penal Code Act provides in section 224, on surgical operations: “A person is not criminally responsible for performing in good faith and with reasonable care and skill a surgical operation upon any person for his or her benefit, or upon an unborn child for the preservation of the mother’s life, if the performance of the operation is reasonable, having regard to the patient’s state at the time, and to all the circumstances of the case.”
Addtional Requirements to Access Safe Abortion

### Authorization of health professional(s)

*No data found*

**WHO Guidance**

The following descriptions and recommendations were extracted from WHO guidance on safe abortion.

Third-party authorization should not be required for women to obtain abortion services. The requirement for authorization by hospital authorities may violate the right to privacy and women's access to health care on the basis of equality of men and women. Safe Abortion Guidelines, § 4.2.2.2.

- Source document: WHO Safe Abortion Guidance (page 105)

### Authorization in specially licensed facilities only

*No data found*

**WHO Guidance**

The following descriptions and recommendations were extracted from WHO guidance on safe abortion.

Restrictions on the range of providers or facilities that are authorized to provide abortion reduce the availability of services and their equitable geographic distribution. Safe Abortion Guidelines, § 4.2.2.4.

- Source document: WHO Safe Abortion Guidance (page 106)

### Judicial authorization for minors

*No data found*

**WHO Guidance**

The following descriptions and recommendations were extracted from WHO guidance on safe abortion.

Third-party authorization should not be required for women to obtain abortion services. Safe Abortion Guidelines, § 4.2.2.

- Source document: WHO Safe Abortion Guidance (page 105)

### Judicial authorization in cases of rape

*Not applicable*

**WHO Guidance**

The following descriptions and recommendations were extracted from WHO guidance on safe abortion.

Laws, policies and practices that restrict access to abortion information and services can deter women from care seeking and create a “chilling effect” (suppression of actions because of fear of reprisals or penalties) for the provision of safe, legal services. Examples of barriers include: requiring third-party authorization from one or more medical professionals or a hospital committee, court or police, parent or guardian or a woman’s partner or spouse. Safe Abortion Guidelines, § 4.2.2

- Source document: WHO Safe Abortion Guidance (page 104)

### Police report required in case of rape

*Not applicable*

**WHO Guidance**

The following descriptions and recommendations were extracted from WHO guidance on safe abortion.

Laws, policies and practices that restrict access to abortion information and services can deter women from care seeking and create a “chilling effect” (suppression of actions because of fear of reprisals or penalties) for the provision of safe, legal services. Examples of barriers include: requiring third-party authorization from one or more medical professionals or a hospital committee, court or police, parent or guardian or a woman’s partner or spouse. Safe Abortion Guidelines, § 4.2.2

No further information on the status of the guidelines was obtained.

Other (where provided)

The following descriptions and recommendations were extracted from WHO guidance on safe abortion.

Vacuum aspiration is the recommended technique of surgical abortion for pregnancies of up to 12 to 14 weeks of gestation. The procedure should not be routinely completed by dilatation and sharp curettage (D&C). Safe Abortion Guidelines, Executive Summary, Box 1- Recommendation.

Source document: WHO Safe Abortion Guidance (page 123)

Dilatation and evacuation (D&E) and medical methods (mifepristone and misoprostol; misoprostol alone) are both recommended methods for abortion for gestations over 12 to 14 weeks. Safe Abortion Guidelines, Executive Summary, Box 3- Recommendation.

Source document: WHO Safe Abortion Guidance (page 122)

The recommended method for medical abortion is mifepristone followed by misoprostol (regimen differs by gestational age). Safe Abortion Guidelines, Executive Summary, Box 2- Recommendation.

Source document: WHO Safe Abortion Guidance (page 13)

Where mifepristone is not available, the recommended method for medical abortion is misoprostol (regimen differs by gestational age). Safe Abortion Guidelines, Executive Summary, Box 2- Recommendation.

Source document: WHO Safe Abortion Guidance (page 14)

The combination of mifepristone and misoprostol for medical abortion is included on the WHO model list of essential medicines. Safe Abortion Guidelines, § 2.2.5

Source document: WHO Safe Abortion Guidance (page 13)

Chemists/pharmacists can help women avoid unintended pregnancy through provision of accurate contraceptive information, pregnancy tests, contraceptive methods and referral to safe abortion services. Safe Abortion Guidelines, § 3.3.1.1.

**Doctor (speciality not specified)**

The 2006 National Guidelines and Standards for Sexual and Reproductive Health and Rights stipulates that medical and surgical inductions may be undertaken by the following cadre: medical officers and gynaecologist. Nurses and midwives may undertake medical inductions and evacuation for incomplete abortion. It is not clear whether the 2006 version, or later versions, are currently in force.

**Specialist doctor, including OB/GYN**

The 2006 National Guidelines and Standards for Sexual and Reproductive Health and Rights stipulates that medical and surgical inductions may be undertaken by the following cadre: medical officers and gynaecologist. Nurses and midwives may undertake medical inductions and evacuation for incomplete abortion. It is not clear whether the 2006 version, or later versions, are currently in force.

---

The following descriptions and recommendations were extracted from WHO guidance on safe abortion.

Subject to gestational age and method, abortion care can be safely provided by any properly trained health-care provider, including specialist doctors, non-specialist doctors; associate and advanced associate clinicians; midwives; and nurses. Health Worker Roles in Safe Abortion Care, p 33- Recommendation.

**Source document**: Health Worker Roles in Safe Abortion Care and Post-Abortion Contraception (page 33)

---

The following descriptions and recommendations were extracted from WHO guidance on safe abortion.

Abortion facilities within both the public and private sectors should be available at all levels of the health system, with appropriate referral mechanisms between facilities. Safe Abortion Guidelines, § 3.3.1.

**Source document**: WHO Safe Abortion Guidance (page 75)

---

**Conscientious Objection**

**Public sector providers**

No data found

**WHO Guidance**

The following descriptions and recommendations were extracted from WHO guidance on safe abortion.

Health-care professionals who claim conscientious objection must refer the woman to another willing and trained provider in the same, or another easily accessible health-care facility. Where referral is not possible, the health-care professional who objects, must provide safe abortion to save the woman's life, to prevent serious injury to her health and provide urgent care when women present with complications from an unsafe or illegal abortion. Safe Abortion Guidelines, § 4.2.2.5.

### Goal 1. End poverty in all its forms everywhere

#### 1.1.1 Proportion of population below the international poverty line, by sex, age, employment status and geographical location (urban/rural)

No data

#### 1.3.1 Proportion of population covered by social protection floors/systems, by sex, distinguishing children, unemployed persons, older persons, persons with disabilities, pregnant women, newborns, work-injury victims and the poor and the vulnerable

No data
1.a.2 Proportion of total government spending on essential services (education, health and social protection)  
No data

Goal 3. Ensure healthy lives and promote well-being for all at all ages

3.1.1 Maternal mortality ratio  
375 (2017)

3.1.2 Proportion of births attended by skilled health personnel  
No data

3.7.1 Proportion of women of reproductive age (aged 15-49 years) who have their need for family planning satisfied with modern methods  
No data

3.7.2 Adolescent birth rate (aged 10-14 years; aged 15-19 years) per 1,000 women in that age group  
106.5 (2015-2020)

3.8.2 Number of people covered by health insurance or a public health system per 1,000 population  
No data

3.c.1 Health worker density and distribution  
No data

Goal 4. Ensure inclusive and equitable quality education and promote lifelong learning opportunities for all

4.1.1 Proportion of children and young people: (a) in grades 2/3; (b) at the end of primary; and (c) at the end of lower secondary achieving at least a minimum proficiency level in (i) reading and (ii) mathematics, by sex  
No data

Goal 5. Achieve gender equality and empower all women and girls

5.1.1 Whether or not legal frameworks are in place to promote, enforce and monitor equality and nondiscrimination on the basis of sex  
No data

5.2.1 Proportion of ever-partnered women and girls aged 15 years and older subjected to physical, sexual or psychological violence by a current or former intimate partner in the previous 12 months, by form of violence and by age  
No data

5.2.2 Proportion of women and girls aged 15 years and older subjected to sexual violence by persons other than an intimate partner in the previous 12 months, by age and place of occurrence  
No data

5.3.1 Proportion of women aged 20-24 years who were married or in a union before age 15 and before age 18  
No data

5.3.2 Proportion of girls and women aged 15-49 years who have undergone female genital mutilation/cutting, by age  
No data

5.6.1 Proportion of women aged 15-49 years who make their own informed decisions regarding sexual relations, contraceptive use and reproductive health care  
No data

5.6.2 Number of countries with laws and regulations that guarantee women aged 15-49 years access to sexual and reproductive health care, information and education  
No data

Goal 8. Promote sustained, inclusive and sustainable economic growth, full and productive employment and decent work for all

8.5.2 Unemployment rate, by sex, age and persons with disabilities  
No data

Goal 10. Reduce inequality within and among countries

10.2.1 Proportion of people living below 50 per cent of median income, by age, sex and persons with disabilities  
No data

10.3.1 Proportion of the population reporting having personally felt discriminated against or harassed within the previous 12 months on the
Goal 16. Promote peaceful and inclusive societies for sustainable development, provide access to justice for all and build effective, accountable and inclusive institutions at all levels

16.1.3 Proportion of population subjected to physical, psychological or sexual violence in the previous 12 months

16.2.2 Number of victims of human trafficking per 100,000 population, by sex, age and form of exploitation

16.3.1 Proportion of victims of violence in the previous 12 months who reported their victimization to competent authorities or other officially recognized conflict resolution mechanisms

16.5.1 Proportion of persons who had at least one contact with a public official and who paid a bribe to a public official, or were asked for a bribe by those public officials, during the previous 12 months

16.6.1 Primary government expenditures as a proportion of original approved budget, by sector (or by budget codes or similar)

16.6.2 Proportion of the population satisfied with their last experience of public services

16.7.1 Proportions of positions (by sex, age, persons with disabilities and population groups) in public institutions (national and local legislatures, public service, and judiciary) compared to national distributions

Goal 17. Strengthen the means of implementation and revitalize the Global Partnership for Sustainable Development

17.8.1 Proportion of individuals using the Internet

Additional Reproductive Health Indicators

Percentage of married women with unmet need for family planning

Percentage of births attended by trained health professional

Percentage of women aged 20-24 who gave birth before age 18

Total fertility rate

Legal marital age for women, with parental consent

Legal marital age for women, without parental consent
