**WHO Guidance**

The following descriptions and recommendations were extracted from WHO guidance on safe abortion.

A woman is entitled to know the status of her pregnancy and to act on this information; health protection or social reasons can be interpreted to include distress of the pregnant woman caused by the diagnosis of fetal impairment. Prenatal tests and other medical diagnostic services cannot legally be refused because the woman may decide to terminate her pregnancy. Safe Abortion Guidelines, § 4.2.1.4.
Laws or policies that impose time limits on the length of pregnancy may have negative consequences for women, including forcing them to seek clandestine abortions and suffer social inequities. Safe Abortion Guidelines, § 4.2.1.7.

### WHO Guidance

The following descriptions and recommendations were extracted from WHO guidance on safe abortion.

Requirements for HIV and other tests that are not clinically indicated are potential service-delivery barriers. Safe Abortion Guidelines, p 88.
**Prohibition of sex-selective abortion**

Yes

**Related documents:**
- Law of the People's Republic of China on Maternal and Infant Health Care, 2005 (page 5)
- Prohibition on Identification of Fetal Sex and Termination of Pregnancy by Choice Without Medical Need (page 5)

**WHO Guidance**

The following descriptions and recommendations were extracted from WHO guidance on safe abortion.

In situations where abortion is restricted for sex selection purposes, terminating a pregnancy for this reason is likely to involve an unsafe procedure carrying high risks. Any policies or guidelines on the use of technology in obstetric and fetal medicine should take into account the need to ensure women's access to safe abortion and other services - efforts to manage or limit sex selection should also not hamper or limit access to safe abortion services. Preventing gender-biased sex selection: an interagency statement, p 10 - Recommendation.

**Source document:** Preventing Gender-Biased Sex Selection (page 17)

**Restrictions on information provided to the public**

Not specified

When there is no explicit reference to an issue covered in the questionnaire in the relevant document(s), this is noted and no interpretation was made.

**Related documents:**
- Measures for the Administration of Medical Advertisements, 2007

**WHO Guidance**

The following descriptions and recommendations were extracted from WHO guidance on safe abortion.

States should refrain from limiting access to means of maintaining sexual and reproductive health, including censoring, withholding or intentionally misrepresenting health-related information. Safe Abortion Guidelines, § 4.2.2.7.

**Source document:** WHO Safe Abortion Guidance (page 107)

**Additional notes**

Advertisements in general cannot involve medical technology, treatment methods, or discuss effectiveness and safety.

**Related documents:**
- Measures for the Administration of Medical Advertisements, 2007 (page 1)

**Restrictions on methods to detect sex of the foetus**

Yes

**Related documents:**
- Law of the People's Republic of China on Maternal and Infant Health Care, 2005 (page 5)
- Prohibition on Identification of Fetal Sex and Termination of Pregnancy by Choice Without Medical Need (page 4)

**List of restrictions**

Law on Population and Family Planning Article 35 Use of ultrasonography or other techniques to identify fetal sex for non-medical purposes is strictly prohibited. Sex-selective pregnancy termination for non-medical purposes is strictly prohibited.

Law on Maternal and Infant Health Article 32 … Sex identification of the fetus by technical means shall be strictly forbidden, except that it is positively necessitated on medical grounds.

Maternal and Child Health Law Implementation Measures Article 23 Gender identification of fetus by technical means is strictly prohibited. Where a fetus is suspected of contracting sex-linked genetic diseases therefore gender identification is needed, such gender identification shall be made by a medical and health care institution designated by the administrative department of public health of the people's government of the province, autonomous region or municipality directly under the Central Government in accordance with the provisions of the administrative department of the health of the State Council.

National Health and Family Planning Commission Prohibition of Sex Identification of the Foetus for Non-Medical Purposes Article 18 No institution or individual shall conduct fetal sex identification for non-medical reasons or artificial termination of pregnancy for sex selection.

**Additional notes**

No person shall, by means of a reproductive technology procedure, cause the sex of an embryo to be selected, whether directly or indirectly (including by the implantation of an embryo of a particular sex in the body of a woman), except where:

- (a) the purpose of such selection is to avoid a sex-linked genetic disease specified in Schedule 2 which may prejudice the health of the embryo (including any foetus, child or adult which may arise from the embryo); and
- (b) not less than 2 registered medical practitioners each state in writing that such selection is for that purpose and such disease would be sufficiently severe to a person suffering it to justify such selection.

Related documents:

States should refrain from limiting access to means of maintaining sexual and reproductive health, including censoring, withholding or intentionally misrepresenting health-related information. Safe Abortion Guidelines, § 4.2.2.7.

WHO Guidance

The following descriptions and recommendations were extracted from WHO guidance on safe abortion.

A woman is entitled to know the status of her pregnancy and to act on this information. Prenatal tests and other medical diagnostic services cannot legally be refused because the woman may decide to terminate her pregnancy. Safe Abortion Guidelines, § 4.2.1.4.

Methods allowed

Vacuum aspiration
Yes (10 WEEKS)
- Technical Guidance for Commonly Used Family Planning Techniques, 2003 (page 1)

Dilatation and evacuation
Not specified

Combination mifepristone-misoprostol
Yes (49 DAYS 7 WEEKS)
- Technical Guidance for Commonly Used Family Planning Techniques, 2003 (page 1)

Misoprostol only
The following descriptions and recommendations were extracted from WHO guidance on safe abortion.

Vacuum aspiration is the recommended technique of surgical abortion for pregnancies of up to 12 to 14 weeks of gestation. The procedure should not be routinely completed by dilatation and sharp curettage (D&C). Safe Abortion Guidelines, Executive Summary, Box 1- Recommendation.

**Source document:** WHO Safe Abortion Guidance (page 123)

Dilatation and evacuation (D&E) and medical methods (mifepristone and misoprostol; misoprostol alone) are both recommended methods for abortion for gestations over 12 to 14 weeks. Safe Abortion Guidelines, Executive Summary, Box 3- Recommendation.

**Source document:** WHO Safe Abortion Guidance (page 123)

The recommended method for medical abortion is mifepristone followed by misoprostol (regimen differs by gestational age). Safe Abortion Guidelines, Executive Summary, Box 2- Recommendation.

**Source document:** WHO Safe Abortion Guidance (page 13)

Where mifepristone is not available, the recommended method for medical abortion is misoprostol (regimen differs by gestational age). Safe Abortion Guidelines, Executive Summary, Box 2- Recommendation.

Indicators

Country specific information related to sexual and reproductive health indications. As data for the Sustainable Development Goal (SDG) indicators related to sexual and reproductive health become available, these will be provided, through periodic updates.

Goal 1. End poverty in all its forms everywhere

1.1.1 Proportion of population below the international poverty line, by sex, age, employment status and geographical location (urban/rural)  
No data

1.3.1 Proportion of population covered by social protection floors/systems, by sex, distinguishing children, unemployed persons, older persons, persons with disabilities, pregnant women, newborns, work-injury victims and the poor and the vulnerable  
No data

1.a.2 Proportion of total government spending on essential services (education, health and social protection)  
No data

Goal 3. Ensure healthy lives and promote well-being for all at all ages

3.1.1 Maternal mortality ratio  
27 (2017)

3.1.2 Proportion of births attended by skilled health personnel  
No data
### Goal 3. Ensure healthy lives and promote well-being for all ages

<table>
<thead>
<tr>
<th>Indicator</th>
<th>Data Status</th>
</tr>
</thead>
<tbody>
<tr>
<td>3.7.1 Proportion of women of reproductive age (aged 15-49 years) who have their need for family planning satisfied with modern methods</td>
<td>No data</td>
</tr>
<tr>
<td>3.7.2 Adolescent birth rate (aged 10-14 years; aged 15-19 years) per 1,000 women in that age group</td>

### Goal 4. Ensure inclusive and equitable quality education and promote lifelong learning opportunities for all

<table>
<thead>
<tr>
<th>Indicator</th>
<th>Data Status</th>
</tr>
</thead>
<tbody>
<tr>
<td>4.1.1 Proportion of children and young people: (a) in grades 2/3; (b) at the end of primary; and (c) at the end of lower secondary achieving at least a minimum proficiency level in (i) reading and (ii) mathematics, by sex</td>
<td>No data</td>
</tr>
</tbody>
</table>

### Goal 5. Achieve gender equality and empower all women and girls

<table>
<thead>
<tr>
<th>Indicator</th>
<th>Data Status</th>
</tr>
</thead>
<tbody>
<tr>
<td>5.1.1 Whether or not legal frameworks are in place to promote, enforce and monitor equality and nondiscrimination on the basis of sex</td>
<td>No data</td>
</tr>
<tr>
<td>5.2.1 Proportion of ever-partnered women and girls aged 15 years and older subjected to physical, sexual or psychological violence by a current or former intimate partner in the previous 12 months, by form of violence and by age</td>
<td>No data</td>
</tr>
<tr>
<td>5.2.2 Proportion of women and girls aged 15 years and older subjected to sexual violence by persons other than an intimate partner in the previous 12 months, by age and place of occurrence</td>
<td>No data</td>
</tr>
<tr>
<td>5.3.1 Proportion of women aged 20-24 years who were married or in a union before age 15 and before age 18</td>
<td>No data</td>
</tr>
<tr>
<td>5.3.2 Proportion of girls and women aged 15-49 years who have undergone female genital mutilation/cutting, by age</td>
<td>No data</td>
</tr>
<tr>
<td>5.6.1 Proportion of women aged 15-49 years who make their own informed decisions regarding sexual relations, contraceptive use and reproductive health care</td>
<td>No data</td>
</tr>
<tr>
<td>5.6.2 Number of countries with laws and regulations that guarantee women aged 15-49 years access to sexual and reproductive health care, information and education</td>
<td>No data</td>
</tr>
<tr>
<td>5.a.1 (a) Proportion of total agricultural population with ownership or secure rights over agricultural land, by sex; and (b) share of women among owners or rights-bearers of agricultural land, by type of tenure</td>
<td>No data</td>
</tr>
<tr>
<td>5.b.1 Proportion of individuals who own a mobile telephone, by sex</td>
<td>No data</td>
</tr>
</tbody>
</table>

### Goal 8. Promote sustained, inclusive and sustainable economic growth, full and productive employment and decent work for all

<table>
<thead>
<tr>
<th>Indicator</th>
<th>Data Status</th>
</tr>
</thead>
<tbody>
<tr>
<td>8.5.2 Unemployment rate, by sex, age and persons with disabilities</td>
<td>No data</td>
</tr>
</tbody>
