Related documents:
- Penal Law
- Planned Termination of Pregnancy, Ministry of Health

**WHO Guidance**

The following descriptions and recommendations were extracted from WHO guidance on safe abortion.

A woman is entitled to know the status of her pregnancy and to act on this information; health protection or social reasons can be interpreted to include distress of the pregnant woman caused by the diagnosis of fetal impairment. Prenatal tests and other medical diagnostic services cannot legally be refused because the woman may decide to terminate her pregnancy. Safe Abortion Guidelines, § 4.2.1.4.

*Source document: WHO Safe Abortion Guidance (page 103)*

Laws or policies that impose time limits on the length of pregnancy may have negative consequences for women, including forcing them to seek clandestine abortions and suffer social inequities. Safe Abortion Guidelines, § 4.2.1.7.

Number and cadre of health-care professional authorizations required

3
Specialist Doctor, Including OB/GYN
A social worker

Approval for purposes of section 314 shall be by a committee of three; in a recognized medical institution which is a hospital registered under section 25 of the Public Health Ordinance 1940 its members shall be designated by the director of that institution, and in any other recognized medical institution by the Minister of Health or a by person authorized by him therefor; the committee shall be composed of - (1) a qualified physician who under the Ordinance holds the title of specialist in obstetrics and gynecology; (2) an additional qualified physician who practices one of the following specializations: obstetrics and gynecology, internal medicine, psychiatry, family medicine, public health; (3) a person registered as a social worker under the Welfare Services Law 5718-1958. At least one of the committee's members shall be a woman. (1Penal Law)

When gestational age is greater than 24 weeks, the decision will be made by a separate late-term Abortion Committee. (Ministry of Health on Planned Termination of Pregnancy)

Related documents:
- Penal Law (page 95)
- Planned Termination of Pregnancy, Ministry of Health (page 1)

WHO Guidance

The following descriptions and recommendations were extracted from WHO guidance on safe abortion.

Third-party authorization should not be required for women to obtain abortion services. The requirement for authorization by hospital authorities may violate the right to privacy and women's access to health care on the basis of equality of men and women. Safe Abortion Guidelines, § 4.2.2.2.

Source document: WHO Safe Abortion Guidance (page 105)

Additional notes

Approval for purposes of section 314 shall be by a committee of three; in a recognized medical institution which is a hospital registered under section 25 of the Public Health Ordinance 1940 its members shall be designated by the director of that institution, and in any other recognized medical institution by the Minister of Health or a by person authorized by him therefor; the committee shall be composed of - (1) a qualified physician who under the Ordinance holds the title of specialist in obstetrics and gynecology; (2) an additional qualified physician who practices one of the following specializations: obstetrics and gynecology, internal medicine, psychiatry, family medicine, public health; (3) a person registered as a social worker under the Welfare Services Law 5718-1958. At least one of the committee's members shall be a woman. (1Penal Law)

When gestational age is greater than 24 weeks, the decision will be made by a separate late-term Abortion Committee. (Ministry of Health on Planned Termination of Pregnancy)

</table>

**WHO Guidance**

The following descriptions and recommendations were extracted from WHO guidance on safe abortion.

Standards and guidelines should be developed and updated with the intent of eliminating barriers to obtaining the highest attainable standard of sexual and reproductive health. Safe Abortion Guidelines, § 3.3. Standards and guidelines should cover: types of abortion service, where and by whom they can be provided; essential equipment, instruments, medications, supplies and facility capabilities; referral mechanisms; respect for women’s informed decision-making, autonomy, confidentiality and privacy. Safe Abortion Guidelines, p. 63.

**WHO Guidance**

The following descriptions and recommendations were extracted from WHO guidance on safe abortion.

Vacuum aspiration is the recommended technique of surgical abortion for pregnancies of up to 12 to 14 weeks of gestation. The procedure should not be routinely completed by dilatation and sharp curettage (D&C). Safe Abortion Guidelines, Executive Summary, Box 1- Recommendation.

**Source document:** WHO Safe Abortion Guidance (page 123)

Dilatation and evacuation (D&E) and medical methods (mifepristone and misoprostol; misoprostol alone) are both recommended methods for abortion for gestations over 12 to 14 weeks. Safe Abortion Guidelines, Executive Summary, Box 3- Recommendation.

**Source document:** WHO Safe Abortion Guidance (page 123)

The recommended method for medical abortion is mifepristone followed by misoprostol (regimen differs by gestational age). Safe Abortion Guidelines, Executive Summary, Box 2- Recommendation.

**Source document:** WHO Safe Abortion Guidance (page 13)

Where mifepristone is not available, the recommended method for medical abortion is misoprostol (regimen differs by gestational age). Safe Abortion Guidelines, Executive Summary, Box 2- Recommendation.

**Source document:** WHO Safe Abortion Guidance (page 14)
