Country Profile: Maldives

Region: South-Central Asia

Last Updated: 10 November 2021

Identified policies and legal sources related to abortion:
- Reproductive Health Act
- General Medical Health Act
- Constitution
- Criminal / Penal Code
- Civil Code
- Ministerial Order / Decree
- Case Law
- Health Regulation / Clinical Guidelines
- EML / Registered List
- Medical Ethics Code
- Document Relating to Funding
- Abortion Specific Law
- Law on Medical Practitioners
- Law on Health Care Services
- Other

Related Documents

From Criminal / Penal Code:
- Penal Code, 2014

From EML / Registered List:
- Approved Drug List, 2015

Concluding Observations:
- CRC
- CRC
- CEDAW

Persons who can be sanctioned:
- A woman or girl can be sanctioned
- Providers can be sanctioned
- A person who assists can be sanctioned

Abortion at the woman's request

No

Legal Ground and Gestational Limit

No

- Penal Code, 2014 (page 126)

WHO Guidance

The following descriptions and recommendations were extracted from WHO guidance on safe abortion.

WHO defines health for member states as a state of complete physical, mental and social well-being and not merely the absence of disease or infirmity. Safe Abortion Guidelines, § 4.2.1.5.

Source document: WHO Safe Abortion Guidance (page 103)

Additional notes

The Penal Code only criminalizes termination of pregnancies performed after 120 days, except for those performed where the mother is at risk or the pregnancy results from sexual assault or incest. Additional source documents are known to exist, but could not be accessed, and may be relevant, including Nuthufaa Naththaalumai, hayyarun nattuvailumaai dhari vattalumaa behey and Sikhee Khidhumathuge Bill 24/2015.

**WHO Guidance**

The following descriptions and recommendations were extracted from WHO guidance on safe abortion.

A woman is entitled to know the status of her pregnancy and to act on this information; health protection or social reasons can be interpreted to include distress of the pregnant woman caused by the diagnosis of foetal impairment. Prenatal tests and other medical diagnostic services cannot legally be refused because the woman may decide to terminate her pregnancy. Safe Abortion Guidelines, § 4.2.1.4.

**Source document:** WHO Safe Abortion Guidance (page 103)

**Additional notes**

The Penal Code only criminalizes termination of pregnancies performed after 120 days, except for those performed where the mother is at risk or the pregnancy results from sexual assault or incest. Additional source documents are known to exist, but could not be accessed, and may be relevant, including Nuthufaa Naththaalumai, hayyarun nattuvailumaai dhari vattalumaa behey and Sikhee Khidhumathuge Bill 24/2015.

Additional notes

Not specified

When there is no explicit reference to an issue covered in the questionnaire in the relevant document(s), this is noted and no interpretation was made.

The following descriptions and recommendations were extracted from WHO guidance on safe abortion.

Laws, policies and practices that restrict access to abortion information and services can deter women from care seeking and create a “chilling effect” (suppression of actions because of fear of reprisals or penalties) for the provision of safe, legal services. Examples of barriers include: requiring third-party authorization from one or more medical professionals or a hospital committee, court or police, parent or guardian or a woman’s partner or spouse. Safe Abortion Guidelines, § 4.2.2.

Source document: WHO Safe Abortion Guidance (page 104)

Additional notes

  - Several relevant documents are known to exist but could not be accessed: Nuthufaa Naththaalumai, hayyarun nattuvaiyumai dhari vattalumaa behey and Sikhee Khidhumathuge Bill 24/2015.
Methods allowed

Vacuum aspiration
No data found

Several relevant documents are known to exist but could not be accessed: Nuthufaa Naththaalumai, hayyarun nattuvailumaai dhari vattalumaa behey and Sikhee Khidhumathuge Bill 24/2015.

Dilatation and evacuation
No data found

Several relevant documents are known to exist but could not be accessed: Nuthufaa Naththaalumai, hayyarun nattuvailumaai dhari vattalumaa behey and Sikhee Khidhumathuge Bill 24/2015.

Combination mifepristone-misoprostol
No data found

Several relevant documents are known to exist but could not be accessed: Nuthufaa Naththaalumai, hayyarun nattuvailumaai dhari vattalumaa behey and Sikhee Khidhumathuge Bill 24/2015.

Misoprostol only
No data found

Several relevant documents are known to exist but could not be accessed: Nuthufaa Naththaalumai, hayyarun nattuvailumaai dhari vattalumaa behey and Sikhee Khidhumathuge Bill 24/2015.

Other (where provided)

Country recognized approval (mifepristone / mife-misoprostol)

Yes

Related documents:
- Approved Drug List - 2015 (page 128)

Pharmacy selling or distribution

No

- Approved Drug List - 2015 (page 128)

WHO Guidance

The following descriptions and recommendations were extracted from WHO guidance on safe abortion.

Vacuum aspiration is the recommended technique of surgical abortion for pregnancies of up to 12 to 14 weeks of gestation. The procedure should not be routinely completed by dilatation and sharp curettage (D&C). Safe Abortion Guidelines, Executive Summary, Box 1 - Recommendation.

- Source document: WHO Safe Abortion Guidance (page 123)

Dilatation and evacuation (D&E) and medical methods (mifepristone and misoprostol; misoprostol alone) are both recommended methods for abortion for gestations over 12 to 14 weeks. Safe Abortion Guidelines, Executive Summary, Box 3 - Recommendation.

- Source document: WHO Safe Abortion Guidance (page 123)

The recommended method for medical abortion is mifepristone followed by misoprostol (regimen differs by gestational age). Safe Abortion Guidelines, Executive Summary, Box 2 - Recommendation.

- Source document: WHO Safe Abortion Guidance (page 13)

Where mifepristone is not available, the recommended method for medical abortion is misoprostol (regimen differs by gestational age). Safe Abortion Guidelines, Executive Summary, Box 2 - Recommendation.

- Source document: WHO Safe Abortion Guidance (page 14)

Country recognized approval (misoprostol)

Yes, indications not specified

Related documents:
- Approved Drug List - 2015 (page 137)

Misoprostol allowed to be sold or distributed by pharmacies or drug stores

No

- Approved Drug List - 2015 (page 137)

WHO Guidance

The following descriptions and recommendations were extracted from WHO guidance on safe abortion.

The combination of mifepristone and misoprostol for medical abortion is included on the WHO model list of essential medicines. Safe Abortion Guidelines, § 2.2.5

- Source document: WHO Safe Abortion Guidance (page 54)

Chemists/pharmacists can help women avoid unintended pregnancy through provision of accurate contraceptive information, pregnancy tests, contraceptive methods and referral to safe abortion services. Safe Abortion Guidelines, § 3.3.1.1.

- Source document: WHO Safe Abortion Guidance (page 13)

- Source document: WHO Safe Abortion Guidance (page 14)
Where can abortion services be provided

- **WHO Guidance**
  - The following descriptions and recommendations were extracted from WHO guidance on safe abortion.
  - Abortion services should be available at primary-care level, with referral systems in place for all required higher-level care. Safe Abortion Guidelines, Executive Summary, Box 6- Recommendation.
  - Source document: WHO Safe Abortion Guidance (page 18)

National guidelines for post-abortion care

- **WHO Guidance**
  - The following descriptions and recommendations were extracted from WHO guidance on safe abortion.
  - Standards and guidelines should be developed and updated with the intent of eliminating barriers to obtaining the highest attainable standard of sexual and reproductive health. Safe Abortion Guidelines, § 3.3. Standards and guidelines should cover: types of abortion service, where and by whom they can be provided; essential equipment, instruments, medications, supplies and facility capabilities; referral mechanisms; respect for women's informed decision-making, autonomy, confidentiality and privacy. Safe Abortion Guidelines, p. 63.
  - Source document: WHO Safe Abortion Guidance (page 75)

Where can post-abortion care services be provided

- **WHO Guidance**
  - The following descriptions and recommendations were extracted from WHO guidance on safe abortion.
  - The facilities and skills required to manage most abortion complications are similar to those needed to care for women who have had a spontaneous abortion (miscarriage). Safe Abortion Guidelines § 2.2.6.
  - Source document: WHO Safe Abortion Guidance (page 57)

Contraception included in post-abortion care

- **WHO Guidance**
  - All women should receive contraceptive information and be offered counselling for and methods of post-abortion contraception, including emergency contraception, before leaving the health-care facility. Safe Abortion Guidelines, § 2.3.
  - Source document: WHO Safe Abortion Guidance (page 62)
### Insurance to offset end user costs

When there is no explicit reference to an issue covered in the questionnaire in the relevant document(s), this is noted and no interpretation was made.

**Related documents:**

Indicators

Country specific information related to sexual and reproductive health indications. As data for the Sustainable Development Goal (SDG) indicators related to sexual and reproductive health become available, these will be provided, through periodic updates.

Goal 1. End poverty in all its forms everywhere

1.1.1 Proportion of population below the international poverty line, by sex, age, employment status and geographical location (urban/rural)  
No data

1.3.1 Proportion of population covered by social protection floors/systems, by sex, distinguishing children, unemployed persons, older persons, persons with disabilities, pregnant women, newborns, work-injury victims and the poor and the vulnerable  
No data

1.a.2 Proportion of total government spending on essential services (education, health and social protection)  
No data

Goal 3. Ensure healthy lives and promote well-being for all at all ages

3.1.1 Maternal mortality ratio  
53 (2017)

3.1.2 Proportion of births attended by skilled health personnel  
No data

3.7.1 Proportion of women of reproductive age (aged 15-49 years) who have their need for family planning satisfied with modern methods  
No data

3.7.2 Adolescent birth rate (aged 10-14 years; aged 15-19 years) per 1,000 women in that age group  
5.8 (2015-2020)

3.8.2 Number of people covered by health insurance or a public health system per 1,000 population  
No data

3.c.1 Health worker density and distribution  
No data

Goal 4. Ensure inclusive and equitable quality education and promote lifelong learning opportunities for all

4.1.1 Proportion of children and young people: (a) in grades 2/3; (b) at the end of primary; and (c) at the end of lower secondary achieving at least a minimum proficiency level in (i) reading and (ii) mathematics, by sex  
No data

Goal 5. Achieve gender equality and empower all women and girls

5.1.1 Whether or not legal frameworks are in place to promote, enforce and monitor equality and nondiscrimination on the basis of sex  
No data

5.2.1 Proportion of ever-partnered women and girls aged 15 years and older subjected to physical, sexual or psychological violence by a current or former intimate partner in the previous 12 months, by form of violence and by age  
No data

5.2.2 Proportion of women and girls aged 15 years and older subjected to sexual violence by persons other than an intimate partner in the previous 12 months, by age and place of occurrence  
No data
