Gestational limit

Weeks: 4 months

Practice of Physicians, Surgeons, and Dentists, 1983 (page 1)

WHO Guidance

The following descriptions and recommendations were extracted from WHO guidance on safe abortion.

A woman is entitled to know the status of her pregnancy and to act on this information; health protection or social reasons can be interpreted to include distress of the pregnant woman caused by the diagnosis of fetal impairment. Prenatal tests and other medical diagnostic services cannot legally be refused because the woman may decide to terminate her pregnancy. Safe Abortion Guidelines, § 4.2.1.4.

Source document: WHO Safe Abortion Guidance (page 103)

Additional notes

Abortion is legal before four months of gestation if "there is evidence that the conceptus would be born suffering from serious and incurable physical malformations or mental deficiency."

Rape

#### WHO Guidance

The following descriptions and recommendations were extracted from WHO guidance on safe abortion.

Laws, policies and practices that restrict access to abortion information and services can deter women from care seeking and create a “chilling effect” (suppression of actions because of fear of reprisals or penalties) for the provision of safe, legal services. Examples of barriers include: requiring third-party authorization from one or more medical professionals or a hospital committee, court or police, parent or guardian or a woman’s partner or spouse. Safe Abortion Guidelines, § 4.2.2.

  Where there is evidence of the existence of a source document that could not be accessed, including those that could not be translated for any reason, this information is provided in an accompanying note.

**WHO Guidance**

The following descriptions and recommendations were extracted from WHO guidance on safe abortion.

Standards and guidelines should be developed and updated with the intent of eliminating barriers to obtaining the highest attainable standard of sexual and reproductive health. Safe Abortion Guidelines, § 3.3. Standards and guidelines should cover: types of abortion service, where and by whom they can be provided; essential equipment, instruments, medications, supplies and facility capabilities; referral mechanisms; respect for women’s informed decision-making, autonomy, confidentiality and privacy. Safe Abortion Guidelines, p. 63.

**Source document:** [WHO Safe Abortion Guidance (page 75)]

**Additional notes**

The Law on the Practice of Physicians, Surgeons and Dentists specifies: “Abortion must be performed in a government hospital on the recommendation of a medical commission composed of three medical specialists, including a specialist in gynaecology and a specialist in obstetrics. The Minister of Health shall issue an ordinance on the conditions to be fulfilled by members of the above-mentioned medical commission and on the measures necessary to perform the operation.” The ordinance referred to could not be located.

**Methods allowed**

- **Vacuum aspiration**
  Not data found

- **Dilatation and evacuation**
  Not data found

- **Combination mifepristone-misoprostol**
  Not data found

- **Misoprostol only**
  Not data found

- **Other (where provided)**
  Not data found

**WHO Guidance**

The following descriptions and recommendations were extracted from WHO guidance on safe abortion.

Vacuum aspiration is the recommended technique of surgical abortion for pregnancies of up to 12 to 14 weeks of gestation. The procedure should not be routinely completed by dilatation and sharp curettage (D&C). Safe Abortion Guidelines, Executive Summary, Box 1- Recommendation.

**Source document:** [WHO Safe Abortion Guidance (page 123)]

Dilatation and evacuation (D&E) and medical methods (mifepristone and misoprostol; misoprostol alone) are both recommended methods for abortion for gestations over 12 to 14 weeks. Safe Abortion Guidelines, Executive Summary, Box 3- Recommendation.

**Source document:** [WHO Safe Abortion Guidance (page 123)]

The recommended method for medical abortion is mifepristone followed by misoprostol (regimen differs by gestational age). Safe Abortion Guidelines, Executive Summary, Box 2- Recommendation.

**Source document:** [WHO Safe Abortion Guidance (page 13)]

Where mifepristone is not available, the recommended method for medical abortion is misoprostol (regimen differs by gestational age). Safe Abortion Guidelines, Executive Summary, Box 2- Recommendation.

**Source document:** [WHO Safe Abortion Guidance (page 14)]
### Country recognized approval (mifepristone / mife-misoprostol)

No

**Related documents:**
- List of Registered Pharmaceutical Products, 2015 (page 1)

#### WHO Guidance

The following descriptions and recommendations were extracted from WHO guidance on safe abortion.

The combination of mifepristone and misoprostol for medical abortion is included on the WHO model list of essential medicines. Safe Abortion Guidelines, § 2.2.5

**Source document:** WHO Safe Abortion Guidance (page 54)

Chemists/pharmacists can help women avoid unintended pregnancy through provision of accurate contraceptive information, pregnancy tests, contraceptive methods and referral to safe abortion services. Safe Abortion Guidelines, § 3.3.1.1.

### Country recognized approval (misoprostol)

Yes, indications not specified

**Related documents:**
- List of Registered Pharmaceutical Products, 2015 (page 26)

#### WHO Guidance

The following descriptions and recommendations were extracted from WHO guidance on safe abortion.

The combination of mifepristone and misoprostol for medical abortion is included on the WHO model list of essential medicines. Safe Abortion Guidelines, § 2.2.5

**Source document:** WHO Safe Abortion Guidance (page 54)

### Where can abortion services be provided

#### Primary health-care centres

No

- Practice of Physicians, Surgeons, and Dentists, 1983 (page 1)

#### Secondary (district-level) health-care facilities

Yes

- Practice of Physicians, Surgeons, and Dentists, 1983 (page 1)

#### Specialized abortion care public facilities

Not specified

- Practice of Physicians, Surgeons, and Dentists, 1983

#### Private health-care centres or clinics

No

- Practice of Physicians, Surgeons, and Dentists, 1983

#### NGO health-care centres or clinics

No

- Practice of Physicians, Surgeons, and Dentists, 1983
The following descriptions and recommendations were extracted from WHO guidance on safe abortion.

Abortion services should be available at primary-care level, with referral systems in place for all required higher-level care. Safe Abortion Guidelines, Executive Summary, Box 6- Recommendation.

Source document: WHO Safe Abortion Guidance (page 18)

**Additional notes**

The Law on the Practice of Physicians, Surgeons and Dentists specifies: “Abortion must be performed in a government hospital on the recommendation of a medical commission composed of three medical specialists, including a specialist in gynaecology and a specialist in obstetrics. The Minister of Health shall issue an ordinance on the conditions to be fulfilled by members of the above-mentioned medical commission and on the measures necessary to perform the operation.” The ordinance referred to could not be located.

Source document: WHO Safe Abortion Guidance (page 75)

The facilities and skills required to manage most abortion complications are similar to those needed to care for women who have had a spontaneous abortion (miscarriage). Safe Abortion Guidelines § 2.2.6.

Source document: WHO Safe Abortion Guidance (page 57)

All women should receive contraceptive information and be offered counseling for and methods of post-abortion contraception, including emergency contraception, before leaving the health-care facility. Safe Abortion Guidelines, § 2.3.

Source document: WHO Safe Abortion Guidance (page 62)
Insurance to offset end user costs

Other (if applicable)

WHO Guidance

The following descriptions and recommendations were extracted from WHO guidance on safe abortion.

Financing of abortion services should take into account costs to the health system while ensuring that services are affordable and readily available to all women who need them. Safe Abortion Guidelines, Executive Summary, Box 6 - Recommendation. Abortion services should be mandated for coverage under insurance plans; women should never be denied or delayed because of the inability to pay. Safe Abortion Guidelines, § 3.6.2.

Indicators

Country specific information related to sexual and reproductive health indications. As data for the Sustainable Development Goal (SDG) indicators related to sexual and reproductive health become available, these will be provided, through periodic updates.

### Goal 1. End poverty in all its forms everywhere

<table>
<thead>
<tr>
<th>Indicator                                                                jsp</th>
<th>Value</th>
</tr>
</thead>
<tbody>
<tr>
<td>1.1.1 Proportion of population below the international poverty line, by sex, age, employment status and geographical location (urban/rural)</td>
<td>No data</td>
</tr>
<tr>
<td>1.3.1 Proportion of population covered by social protection floors/systems, by sex, distinguishing children, unemployed persons, older persons, persons with disabilities, pregnant women, newborns, work-injury victims and the poor and the vulnerable</td>
<td>No data</td>
</tr>
<tr>
<td>1.a.2 Proportion of total government spending on essential services (education, health and social protection)</td>
<td>No data</td>
</tr>
</tbody>
</table>

### Goal 3. Ensure healthy lives and promote well-being for all at all ages

<table>
<thead>
<tr>
<th>Indicator</th>
<th>Value</th>
</tr>
</thead>
<tbody>
<tr>
<td>3.1.1 Maternal mortality ratio</td>
<td>9 (2017)</td>
</tr>
<tr>
<td>3.1.2 Proportion of births attended by skilled health personnel</td>
<td>No data</td>
</tr>
<tr>
<td>3.7.1 Proportion of women of reproductive age (aged 15-49 years) who have their need for family planning satisfied with modern methods</td>
<td>No data</td>
</tr>
<tr>
<td>3.7.2 Adolescent birth rate (aged 10-14 years; aged 15-19 years) per 1,000 women in that age group</td>
<td>9.9 (2015-2020)</td>
</tr>
<tr>
<td>3.8.2 Number of people covered by health insurance or a public health system per 1,000 population</td>
<td>No data</td>
</tr>
<tr>
<td>3.c.1 Health worker density and distribution</td>
<td>No data</td>
</tr>
</tbody>
</table>

### Goal 4. Ensure inclusive and equitable quality education and promote lifelong learning opportunities for all

<table>
<thead>
<tr>
<th>Indicator</th>
<th>Value</th>
</tr>
</thead>
<tbody>
<tr>
<td>4.1.1 Proportion of children and young people: (a) in grades 2/3; (b) at the end of primary; and (c) at the end of lower secondary achieving at least a minimum proficiency level in (i) reading and (ii) mathematics, by sex</td>
<td>No data</td>
</tr>
</tbody>
</table>

### Goal 5. Achieve gender equality and empower all women and girls

<table>
<thead>
<tr>
<th>Indicator</th>
<th>Value</th>
</tr>
</thead>
<tbody>
<tr>
<td>5.1.1 Whether or not legal frameworks are in place to promote, enforce and monitor equality and</td>

</tr>
</tbody>
</table>
nondiscrimination on the basis of sex

<table>
<thead>
<tr>
<th>5.2.1 Proportion of ever-partnered women and girls aged 15 years and older subjected to physical, sexual or psychological violence by a current or former intimate partner in the previous 12 months, by form of violence and by age</th>
<th>No data</th>
</tr>
</thead>
<tbody>
<tr>
<td>5.2.2 Proportion of women and girls aged 15 years and older subjected to sexual violence by persons other than an intimate partner in the previous 12 months, by age and place of occurrence</td>
<td>No data</td>
</tr>
<tr>
<td>5.3.1 Proportion of women aged 20-24 years who were married or in a union before age 15 and before age 18</td>
<td>No data</td>
</tr>
<tr>
<td>5.3.2 Proportion of girls and women aged 15-49 years who have undergone female genital mutilation/cutting, by age</td>
<td>No data</td>
</tr>
<tr>
<td>5.6.1 Proportion of women aged 15-49 years who make their own informed decisions regarding sexual relations, contraceptive use and reproductive health care</td>
<td>No data</td>
</tr>
<tr>
<td>5.6.2 Number of countries with laws and regulations that guarantee women aged 15-49 years access to sexual and reproductive health care, information and education</td>
<td>No data</td>
</tr>
<tr>
<td>5.6.1 Proportion of total agricultural population with ownership or secure rights over agricultural land, by sex; and (b) share of women among owners or rights-bearers of agricultural land, by type of tenure</td>
<td>No data</td>
</tr>
<tr>
<td>5.6.1 Proportion of individuals who own a mobile telephone, by sex</td>
<td>No data</td>
</tr>
</tbody>
</table>

Goal 8. Promote sustained, inclusive and sustainable economic growth, full and productive employment and decent work for all

| 8.5.2 Unemployment rate, by sex, age and persons with disabilities | No data |

Goal 10. Reduce inequality within and among countries

| 10.2.1 Proportion of people living below 50 per cent of median income, by age, sex and persons with disabilities | No data |
| 10.3.1 Proportion of the population reporting having personally felt discriminated against or harassed within the previous 12 months on the basis of a ground of discrimination prohibited under international human rights law | No data |

Goal 16. Promote peaceful and inclusive societies for sustainable development, provide access to justice for all and build effective, accountable and inclusive institutions at all levels

| 16.1.3 Proportion of population subjected to physical, psychological or sexual violence in the previous 12 months | No data |
| 16.2.2 Number of victims of human trafficking per 100,000 population, by sex, age and form of exploitation | No data |
| 16.2.3 Proportion of young women and men aged 18-29 years who experienced sexual violence by age 18 | No data |
16.3.1 Proportion of victims of violence in the previous 12 months who reported their victimization to competent authorities or other officially recognized conflict resolution mechanisms

No data

16.5.1 Proportion of persons who had at least one contact with a public official and who paid a bribe to a public official, or were asked for a bribe by those public officials, during the previous 12 months

No data

16.6.1 Primary government expenditures as a proportion of original approved budget, by sector (or by budget codes or similar)

No data

16.6.2 Proportion of the population satisfied with their last experience of public services

No data

16.7.1 Proportions of positions (by sex, age, persons with disabilities and population groups) in public institutions (national and local legislatures, public service, and judiciary) compared to national distributions

No data

16.9.1 Proportion of children under 5 years of age whose births have been registered with a civil authority, by age

No data

16.10.1 Number of verified cases of killing, kidnapping, enforced disappearance, arbitrary detention and torture of journalists, associated media personnel, trade unionists and human rights advocates in the previous 12 months

No data

16.b.1 Proportion of population reporting having personally felt discriminated against or harassed in the previous 12 months on the basis of a ground of discrimination prohibited under international human rights law

No data

Goal 17. Strengthen the means of implementation and revitalize the Global Partnership for Sustainable Development

17.8.1 Proportion of individuals using the Internet

No data

Additional Reproductive Health Indicators

Percentage of married women with unmet need for family planning

12.4 (2012)

Percentage of births attended by trained health professional

99.9 (2015)

Percentage of women aged 20-24 who gave birth before age 18

No data

Total fertility rate

1.866 (2018)

Legal marital age for women, with parental consent

No data

Legal marital age for women, without parental consent

No data

Gender Inequalities Index (Value)
