- Penal Code (page 96)

WHO Guidance

The following descriptions and recommendations were extracted from WHO guidance on safe abortion.

WHO defines health for member states as a state of complete physical, mental and social well-being and not merely the absence of disease or infirmity. Safe Abortion Guidelines, § 4.2.1.5.

Source document: WHO Safe Abortion Guidance (page 103)
The following descriptions and recommendations were extracted from WHO guidance on safe abortion.

A woman is entitled to know the status of her pregnancy and to act on this information; health protection or social reasons can be interpreted to include distress of the pregnant woman caused by the diagnosis of fetal impairment. Prenatal tests and other medical diagnostic services cannot legally be refused because the woman may decide to terminate her pregnancy. Safe Abortion Guidelines, § 4.2.1.4.

Source document: WHO Safe Abortion Guidance (page 103)

The protection of women from cruel, inhuman and degrading treatment requires that those who have become pregnant as the result of coerced or forced sexual acts can lawfully access safe abortion services. Prompt, safe abortion services should be provided on the basis of a woman's complaint rather than requiring forensic evidence or police examination. Safe Abortion Guidelines, § 4.2.1.3.

Source document: WHO Safe Abortion Guidance (page 102)

The scope of mental health includes psychological distress or mental suffering caused by, for example, coerced or forced sexual acts and diagnosis of severe fetal impairment. Safe Abortion Guidelines, § 4.2.1.2.

Source document: WHO Safe Abortion Guidance (page 102)

Physical health is widely understood to include conditions that aggravate pregnancy and those aggravated by pregnancy. Safe Abortion Guidelines, § 4.2.1.2.

Source document: WHO Safe Abortion Guidance (page 102)
### Additional Requirements to Access Safe Abortion

#### Authorization of health professional(s)

**Not specified**

When there is no explicit reference to an issue covered in the questionnaire in the relevant document(s), this is noted and no interpretation was made.

**Related documents:**
- Penal Code
- National Guidelines on Post Abortion Care, 2015

**WHO Guidance**

The following descriptions and recommendations were extracted from WHO guidance on safe abortion.

Third-party authorization should not be required for women to obtain abortion services. The requirement for authorization by hospital authorities may violate the right to privacy and women's access to health care on the basis of equality of men and women. Safe Abortion Guidelines, § 4.2.2.2.

**Source document:** WHO Safe Abortion Guidance (page 105)

#### Authorization in specially licensed facilities only

**Not specified**

When there is no explicit reference to an issue covered in the questionnaire in the relevant document(s), this is noted and no interpretation was made.

**Related documents:**
- Penal Code
- National Guidelines on Post Abortion Care, 2015

**WHO Guidance**

The following descriptions and recommendations were extracted from WHO guidance on safe abortion.

Restrictions on the range of providers or facilities that are authorized to provide abortion reduce the availability of services and their equitable geographic distribution. Safe Abortion Guidelines, § 4.2.2.4.

**Source document:** WHO Safe Abortion Guidance (page 106)
### Judicial authorization for minors

- **Not specified**
  
  When there is no explicit reference to an issue covered in the questionnaire in the relevant document(s), this is noted and no interpretation was made.

#### Related documents:
- Penal Code
- National Guidelines on Post Abortion Care, 2015

### Judicial authorization in cases of rape

- **Not applicable**

#### WHO Guidance

The following descriptions and recommendations were extracted from WHO guidance on safe abortion.

Third-party authorization should not be required for women to obtain abortion services. Safe Abortion Guidelines, § 4.2.2.

Source document: WHO Safe Abortion Guidance (page 105)

### Police report required in case of rape

- **Not applicable**

#### WHO Guidance

The following descriptions and recommendations were extracted from WHO guidance on safe abortion.

Laws, policies and practices that restrict access to abortion information and services can deter women from care seeking and create a "chilling effect" (suppression of actions because of fear of reprisals or penalties) for the provision of safe, legal services. Examples of barriers include: requiring third-party authorization from one or more medical professionals or a hospital committee, court or police, parent or guardian or a woman's partner or spouse. Safe Abortion Guidelines, § 4.2.2

Source document: WHO Safe Abortion Guidance (page 104)

### Parental consent required for minors

- **Not specified**
  
  When there is no explicit reference to an issue covered in the questionnaire in the relevant document(s), this is noted and no interpretation was made.

#### Related documents:
- Penal Code
- National Guidelines on Post Abortion Care, 2015

#### WHO Guidance

The following descriptions and recommendations were extracted from WHO guidance on safe abortion.

Third-party authorization should not be required for women to obtain abortion services. The requirement for authorization by parents may violate the right to privacy and women's access to health care on the basis of equality of men and women. Safe Abortion Guidelines, § 4.2.2.2.

Source document: WHO Safe Abortion Guidance (page 105)

### Spousal consent

- **Not specified**
  
  When there is no explicit reference to an issue covered in the questionnaire in the relevant document(s), this is noted and no interpretation was made.

#### Related documents:
- Penal Code
- National Guidelines on Post Abortion Care, 2015

#### WHO Guidance

The following descriptions and recommendations were extracted from WHO guidance on safe abortion.

Third-party authorization should not be required for women to obtain abortion services. The requirement for authorization by a spouse may violate the right to privacy and women's access to health care on the basis of equality of men and women. Safe Abortion Guidelines, § 4.2.2.2.

Ultrasound images or listen to foetal heartbeat required

Related documents:
- Penal Code
- National Guidelines on Post Abortion Care, 2015

**WHO Guidance**

The following descriptions and recommendations were extracted from WHO guidance on safe abortion.

Regulatory, policy and programmatic barriers, one example of which is the requirement for mandatory ultrasound prior to abortion, that hinder access to and timely provision of safe abortion care should be removed. Safe Abortion Guidelines, Executive Summary, Box 7 - Recommendation.

Source document: WHO Safe Abortion Guidance (page 19)

Compulsory counselling

Related documents:
- Penal Code
- National Guidelines on Post Abortion Care, 2015

**WHO Guidance**

The following descriptions and recommendations were extracted from WHO guidance on safe abortion.

Many women have made a decision to have an abortion before seeking care, and this decision should be respected without subjecting a woman to mandatory counselling. Provision of counselling to women who desire it should be voluntary, confidential, non-directive and by a trained person. Safe Abortion Guidelines, § 2.1.8.1.

Source document: WHO Safe Abortion Guidance (page 46)

Compulsory waiting period

Related documents:
- Penal Code
- National Guidelines on Post Abortion Care, 2015

**WHO Guidance**

The following descriptions and recommendations were extracted from WHO guidance on safe abortion.

States should consider eliminating waiting periods that are not medically required, and expanding services to serve all eligible women promptly. Safe Abortion Guidelines, § 4.2.2.6.

### WHO Guidance

The following descriptions and recommendations were extracted from WHO guidance on safe abortion.

Vacuum aspiration is the recommended technique of surgical abortion for pregnancies of up to 12 to 14 weeks of gestation. The procedure should not be routinely completed by dilatation and sharp curettage (D&C). Safe Abortion Guidelines, Executive Summary, Box 1 - Recommendation.

- Source document: WHO Safe Abortion Guidance (page 123)

Dilatation and evacuation (D&E) and medical methods (mifepristone and misoprostol; misoprostol alone) are both recommended methods for abortion for gestations over 12 to 14 weeks. Safe Abortion Guidelines, Executive Summary, Box 3 - Recommendation.

- Source document: WHO Safe Abortion Guidance (page 123)

The recommended method for medical abortion is mifepristone followed by misoprostol (regimen differs by gestational age). Safe Abortion Guidelines, Executive Summary, Box 2 - Recommendation.

- Source document: WHO Safe Abortion Guidance (page 123)

Where mifepristone is not available, the recommended method for medical abortion is misoprostol (regimen differs by gestational age). Safe Abortion Guidelines, Executive Summary, Box 2 - Recommendation.

- Source document: WHO Safe Abortion Guidance (page 14)

### Extra facility/provider requirements for delivery of abortion services

#### Referral linkages to a higher-level facility

No data found

#### Availability of a specialist doctor, including OB/GYN

No data found

#### Minimum number of beds

No data found

#### Other (if applicable)

No data found

---

**WHO Guidance**

The following descriptions and recommendations were extracted from WHO guidance on safe abortion.

Abortion facilities within both the public and private sectors should be available at all levels of the health system, with appropriate referral mechanisms between facilities. Safe Abortion Guidelines, § 3.3.1.

[Source document: WHO Safe Abortion Guidance (page 75)]

---

### Who can provide abortion services

#### Nurse

No data found

#### Midwife/nurse-midwife

No data found

#### Doctor (specialty not specified)

No data found

#### Specialist doctor, including OB/GYN

No data found

---

**WHO Guidance**

The following descriptions and recommendations were extracted from WHO guidance on safe abortion.

Subject to gestational age and method, abortion care can be safely provided by any properly trained health-care provider, including specialist doctors, non-specialist doctors; associate and advanced associate clinicians; midwives; and nurses. Health Worker Roles in Safe Abortion Care, p 33. Recommendation.

[Source document: Health Worker Roles in Safe Abortion Care and Post-Abortion Contraception (page 33)]

---

### Insurance to offset end user costs

The following descriptions and recommendations were extracted from WHO guidance on safe abortion.

Financing of abortion services should take into account costs to the health system while ensuring that services are affordable and readily available to all women who need them. Safe Abortion Guidelines, Executive Summary, Box 6. Recommendation. Abortion services should be mandated for coverage under insurance plans; women should never be denied or delayed because of the inability to pay. Safe Abortion Guidelines, § 3.6.2.

### Conscientious Objection
There is no data available for the provided indicators related to sexual and reproductive health. As data for the Sustainable Development Goal (SDG) indicators related to sexual and reproductive health become available, these will be provided through periodic updates.

**Indicators**

Country specific information related to sexual and reproductive health indicators. As data for the Sustainable Development Goal (SDG) indicators related to sexual and reproductive health become available, these will be provided through periodic updates.

**Goal 1. End poverty in all its forms everywhere**

1.1.1 Proportion of population below the international poverty line, by sex, age, employment status and geographical location (urban/rural)

1.3.1 Proportion of population covered by social protection floors/systems, by sex, distinguishing children, unemployed persons, older persons, persons with disabilities, pregnant women, newborns, work-injury victims and the poor and the vulnerable
Goal 3. Ensure healthy lives and promote well-being for all at all ages

3.1.1 Maternal mortality ratio
No data

3.1.2 Proportion of births attended by skilled health personnel
No data

3.7.1 Proportion of women of reproductive age (aged 15-49 years) who have their need for family planning satisfied with modern methods
No data

3.7.2 Adolescent birth rate (aged 10-14 years; aged 15-19 years) per 1,000 women in that age group

3.8.2 Number of people covered by health insurance or a public health system per 1,000 population
No data

3.c.1 Health worker density and distribution
No data

Goal 4. Ensure inclusive and equitable quality education and promote lifelong learning opportunities for all

4.1.1 Proportion of children and young people: (a) in grades 2/3; (b) at the end of primary; and (c) at the end of lower secondary achieving at least a minimum proficiency level in (i) reading and (ii) mathematics, by sex
No data

Goal 5. Achieve gender equality and empower all women and girls

5.1.1 Whether or not legal frameworks are in place to promote, enforce and monitor equality and nondiscrimination on the basis of sex
No data

5.2.1 Proportion of ever-partnered women and girls aged 15 years and older subjected to physical, sexual or psychological violence by a current or former intimate partner in the previous 12 months, by form of violence and by age
No data

5.2.2 Proportion of women and girls aged 15 years and older subjected to sexual violence by persons other than an intimate partner in the previous 12 months, by age and place of occurrence
No data

5.3.1 Proportion of women aged 20-24 years who were married or in a union before age 15 and before age 18
No data

5.3.2 Proportion of girls and women aged 15-49 years who have undergone female genital mutilation/cutting, by age
No data

5.6.1 Proportion of women aged 15-49 years who make their own informed decisions regarding sexual relations, contraceptive use and reproductive health care
No data

5.6.2 Number of countries with laws and regulations that guarantee women aged 15-49 years access to sexual and reproductive health care, information and education
No data

5.a.1 (a) Proportion of total agricultural population with ownership or secure rights over agricultural land, by sex; and (b) share of women among owners or rights-bearers of agricultural land, by type of tenure
No data

5.b.1 Proportion of individuals who own a mobile telephone, by sex
No data

Goal 8. Promote sustained, inclusive and sustainable economic growth, full and productive employment and decent work for all

8.5.2 Unemployment rate, by sex, age and persons with disabilities
No data

Goal 10. Reduce inequality within and among countries

10.2.1 Proportion of people living below 50 per cent of median income, by age, sex and persons with disabilities
No data

10.3.1 Proportion of the population reporting having personally felt discriminated against or harassed within the previous 12 months on the
Goal 16. Promote peaceful and inclusive societies for sustainable development, provide access to justice for all and build effective, accountable and inclusive institutions at all levels
