#### **Not specified**

When there is no explicit reference to an issue covered in the questionnaire in the relevant document(s), this is noted and no interpretation was made.

#### **Related documents:**

• Law on Protection of Population Health, 1997

# **WHO Guidance**

The following descriptions and recommendations were extracted from WHO guidance on safe abortion.

A woman is entitled to know the status of her pregnancy and to act on this information; health protection or social reasons can be interpreted to include distress of the pregnant woman caused by the diagnosis of fetal impairment. Prenatal tests and other medical diagnostic services cannot legally be refused because the woman may decide to terminate her pregnancy. Safe Abortion Guidelines, § 4.2.1.4.

→ Source document: WHO Safe Abortion Guidance (page 103)

# **Additional notes**

The Law on Health Protection states that induced abortion, including for social and health reasons, may be carried out at the request of the pregnant woman and that a list of medical indications is to be approved by the approved by the Ministry of Health while a list of social indications is to be approved by the government. Guidelines by the Ministry of Health "Indications and order of performing an induced abortion", an Order of the Minister of Health on the approval of a list of social indications for abortion and an order of the Minister of Health containing National Standards for the safe abortion and post abortion care exist but are not reflected here as they could not be translated.
